English Program Learning Outcomes
This is a general education core curriculum course and no specific program learning outcomes for this major are addressed in this course.
Student Learning Outcomes for ENG 131:
ENG 131 learning outcomes are the goals that students must meet as part of the Freshman Composition requirements, which include:

1. Ability to show appropriate acquisition of CORE objective 1 skills. Students in compositions courses make application of these skills in the writing of personal, expository, and persuasive essays, which require students to make inquiries into and explorations of topics in creative, innovative, or analytical ways. Students are expected to complete readings, to engage in course and group discussions, and to analyze, interpret and synthesize their findings resultant from these critical engagements into well-developed essays. Written assignments will evidence the students’ command of these considerations: effective engagement of audience (pathos), logical development of ideas (logos), and effective use of examples, expertise, or insight (ethos).

2. Ability to show appropriate acquisition of CORE objective 2 skills. These skills include effective development, interpretation and expression of ideas through written, oral and visual communication. Following instruction about group interaction, students will engage in oral communication through class discussions and group work (orally in face-to-face courses, electronically in online courses). Students will have occasion to respond to visual medium, as found in assigned readings, lectures, power-point presentations, or other media dependent upon course materials. Students learn processes for writing that help them to form coherent, well-developed, well-organized and unified discussions through a variety of writing methodologies, including personal, expository, and persuasive methodologies. Students will write at least four essays in composition courses, and rubrics will assess such concerns as development and exploration, mechanical clarity, and interpretation or expression of ideas.

3. Ability to show appropriate acquisition of CORE objective 3 skills. These skills include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal. Following instruction about peer review processes and small group work, students will perform peer mentorship on essay assignments and work together on group projects, which may include collaborative writing occasions, group presentations, or panel discussions. As peer review is the common teamwork experience, students will be required to share potentially diverse ideas with one another, to address those views in appropriate ways, and to help one another to finalize essays for submission.

4. Ability to show appropriate acquisition of CORE objective 4 skills. These skills include the ability to connect choices, actions and consequences to ethical decision-making. Students will have opportunity to examine numerous readings, including essays written by classmates, to examine the credibility and value of those readings, and to understand how expository methodologies bear responsibility and consequence.

Academic Integrity (A-9.1):
Academic integrity is the responsibility of all university faculty and students. Faculty members promote academic integrity in multiple ways, including instruction on the components of academic honesty as well as abiding by university policy on penalties for cheating and plagiarism. Academic dishonesty includes both cheating and plagiarism. Cheating includes but is not limited to (1) using or attempting to use unauthorized materials to aid in achieving a better grade on a component of a class; (2) the falsification or invention of any information, including citations, on an assigned exercise; and/or (3) helping or attempting to help another in an act of cheating or plagiarism. Plagiarism is presenting the words or ideas of another person as if they were your own. Examples of plagiarism are (1) submitting an assignment as if it were one’s own work when, in fact, it is at least partly the work of another; (2) submitting a work that has been purchased or otherwise obtained from an Internet source or another source; and (3) incorporating the words or ideas of an author into one’s paper without giving the author due credit. Please read the complete policy at:

http://www.sfasu.edu/policies/academic_integrity.asp.

Withheld Grades Policy (A-54):
The following is taken from SFASU’s Policy Manual (2012), “Semester Grades Policy” (A-54). At the discretion of the instructor of record and with the approval of the academic chair/director, a grade of WH will be assigned only if the student cannot complete the course work because of unavoidable circumstances. Students must complete the work within one calendar year from the end of the semester in which they receive a WH, or the grade automatically becomes an F. If students register for the same course in future terms, the WH will automatically become an F and will be counted as a repeated course for the purpose of computing the grade point average.

Students with Disabilities:
To obtain disability-related accommodations, alternate formats and/or auxiliary aids, students with disabilities must contact the Office of Disability Services (ODS), Human Services Building 325, 468-3004 / 468-1004 (TDD) as early as possible in the semester. Once verified, ODS will notify the course instructor and outline the accommodation and/or auxiliary aids to be provided. Failure to request services in a timely manner may delay your accommodations.
