CATALOG DESCRIPTION
The choral conducting curriculum focuses on four major areas:
1. The development of basic competencies in choral conducting technique
2. The development of verbal and non-verbal communication in the rehearsal setting
3. The study of choral repertoire representative of various styles periods with emphasis on analysis and interpretation

COURSE OBJECTIVES
This course will guide the student in the exploration of pedagogical practices associated with choral conducting. Students will demonstrate:
1. A clear, efficient, and expressive conducting technique
2. A knowledge of representative choral works selected from the major style and periods and genres
3. An ability to interpret with stylistic understanding various forms and styles of choral compositions
4. An ability to independently study and prepare a score for rehearsal and performance
5. An ability to sequence learning and plan for rehearsal
6. An ability to express musical ideas through gesture; an ability to respond in rehearsal to the choir’s performance; and an ability to deliver clear, concise verbal directions
7. An ability to choose appropriate non-verbal cues to shape and develop choral sound
8. Observation and self-observation techniques
9. Error detection and prescriptive skills
10. A proficiency in conducting patterns and gestures (e.g. preparatory exercises, basic beat patterns, cueing and release gestures, fermatas, mixed meters, asymmetrical meters, gradual changes in tempo, dynamics, and articulation contrasts)
11. To broaden gesture vocabulary
12. Facility using each gesture with intent not habit
13. Become an active observer in your ensemble rehearsals (responding to conductors’ directives, thinking about conductors’ decisions, both gestural and musical, during rehearsal)

ASSESSMENT
Several types of assessment are used in this course*:
1. Self-analysis and reflection form
2. Video Skill Tests
3. YouTube Watch Analyses
4. Faculty analysis and feedback through observation
5. Demonstration of competency in textbook, projects, written assignments, and other assigned readings

* The workload for this course is strenuous, and all assignments are in the syllabus. Read it often. The purpose of this class is to teach technique and analytical skills applicable to the conducting craft. Perfecting technique requires perfect practice; therefore, many assessments will ensure steady growth and progress. There will be no busy work. Each assignment will pragmatically improve the skills of a young conductor. Students only get two semesters to study conducting. Make them count!

INSTRUCTIONAL STRATEGIES
Score study, listening, rehearsal planning, conducting competencies, preparation for class (reading), aural analysis and error detection competencies, self-evaluations of personal conducting video segments, teacher evaluation of demonstrated conducting and rehearsal skills.

Academic Work:
1. All work must be typed (12 font, Times New Roman, Double Spaced) with the exception of in-class assignments
2. To receive full credit, all assignments must be completed and submitted in class on the due date. Late work will be accepted no later than 5:00 p.m. on the next class meeting, and will carry a deduction of 10 points
3. Keep copies of all submitted and returned work
4. Attend class, have a fun and positive disposition

COURSE GRADING
Course grading is contingent upon 1) conducting/music competencies, 2) video self-reflections, 3) score studies 4) weekly written assignments, 4) mid-term, 5) final exam, 6) middle school choir clinic (September 19 8:00 a.m. – 4:30 p.m.)

NO incomplete grades will be given!

Professional Behavior
