COURSE DESCRIPTION  

General Bulletin 2017-2018 page 324  

Mythology- Focuses primarily on the studies of Greek, Roman, and Hebraic mythologies, emphasizing the role of myth in history, culture, and consciousness. Prerequisite: 6 semester hours of freshman English with a grade of C or better.  

General Education Core Curriculum  
This course has been selected to be part of Stephen F. Austin State University's core curriculum. The Texas Higher Education Coordinating Board has identified six objectives for all core courses: Critical Thinking Skills, Communication Skills, Empirical and Quantitative Skills, Teamwork, Personal Responsibility, and Social Responsibility. SFA is committed to the improvement of its general education core curriculum by regular assessment of student performance on these six objectives.  

English Program Learning Outcomes:  

As ENG 209 is a core course, English Program Learning Outcomes do not apply; English majors or minors, seeking to fulfill sophomore-level literature requirements, should enroll in ENG 211, 212, 221, 222, 229, 230, or 233H.  

Student Learning Outcomes for ENG 209:  

By the end of the course, students should be able to:  
1. Exhibit an understanding of and appreciation for key works in world literature, as evidenced in daily work and quizzes, course discussions, written assignments, and/or examinations;
2. Students will demonstrate an understanding of periodization in world literature, as evidenced in daily work and quizzes, course discussions, written assignments, and/or examinations. Periodization is not merely an historical consideration, as defined by events, persons, or dates; students will demonstrate an understanding that historical, cultural, spiritual, and ethical issues, among others, shape human experiences and impact motivations;

3. Students will read literature with increased critical acumen, as evidenced in daily discussions of readings and in responsive;

4. Students will be able to respond to literature with facility, both orally and on paper, on important thematic considerations having to do with literary and historical milieu, culture, human responsibility, morality, ethics, and the manner and causes by which humans interact with one another.

I. REQUIRED MATERIALS

A. Texts
   3. Ten Plays by Euripides. Translated by Moses Hadas.

   The texts are not a suggest, not a recommendation – They Are A Requirement. If you do not have the text in class when we are discussing material from it, you will receive a 0 for participation. Participation book quizzes will be given.

B. Materials
   1. standard white loose leaf paper
   2. black or blue pen

II. COURSE CONTENT

A. Tests

   Students will have 2 major tests: Midterm and Final Exams will be composed of material from lectures, discussions, and readings. The exams are non-cumulative. Format of the exams is matching, short answer, and short essay. Exams will be graded based on structure, grammar, spelling, and content.

B. Deity, Demigod, Mortal, or Creature Analysis

   Students will pick a deity or a demigod from the Greek or Roman pantheon, a mortal, or creature. The analysis of the being chosen will be composed of a pictorial representation, a biography, a discussion of his/her/its relevance to texts the class is reading, as well as how the he/she/it is currently viewed. The pictorial will be graded on presentation and quality. The written components, 2 to 3 pages including a works cited page, will be graded on structure, grammar, spelling, and content.
Essay and Project

Students will write a short essay, including a works cited page, 2 to 3 pages, and create a project. The essay will be graded based on structure, grammar, spelling, and content. The project may have both a written as well as an aesthetic component. The written components will be graded based on structure, grammar, spelling, and content. The aesthetic components will be graded based on presentation and quality.

C. Daily Work

Reading quizzes and response writing will be given on a regular basis, and a daily participation grade will be taken. These and any assignment deemed daily work will comprise the daily grade. Daily assignments will be given in class, as well as in the Daily Assignments module on the course’s D2L page. All assigned daily work is due at the beginning of class. Daily work not turned in at the beginning of class will not be accepted during or after class for any reason. Daily work sent as emails will not be accepted. Daily work cannot be made up for any reason.

D2L Technical Support

For D2L technical support, contact student support in the Center for Teaching and Learning (CTL) at d2l@sfasu.edu or 936-468-1919. If you call after regular business hours or on a weekend, please leave a voicemail. For general computer support (not related to D2L), contact the Technical Support Center (TSC) at 936-468-4357 or at helpdesk@sfasu.edu. To learn more about using D2L, visit SFA ONLINE at http://sfaonline.sfasu.edu, where you will find written instructions and video tutorials.

III. GRADES

Overall grade will be based on a total of 100 points.

A. Determination of Grade

1. The grade for the midterm and final are added together and divided by 2. The resulting sum is multiplied by .7 retaining one number past the decimal point.
2. The grade for the deity, demigod, mortal, or creature analysis is multiplied by .2 retaining one number past the decimal point; or the grade for the presentation and project is multiplied by .2 retaining one number past the decimal point.
3. The attendance, participation, and daily grades are added together and divided by the number of daily assignments. The resulting sum is multiplied by .1 retaining one number past the decimal point.
4. The tests, project/analyses, and daily averages are added along with extra points for perfect attendance and no tardies. The number past the decimal point is carried if 5 and over or dropped if under 5.

Grading Standard:
A: 90-100: Students earning the grade of an A on any assignment will have completed work that obviously demonstrates a more than average understanding of the course material and completion of all aspects and requirements of the assignment. The grade of an A is reserved for that work which expertly displays one’s ability to engage the ideas at hand, recognize and dialogue about the complications of such ideas, and translate such dialogue into clear, academic prose that is free of stigmatized errors.

B: 80-89: Students earning the grade of a B on any assignment will have completed work that demonstrates a more than average understanding of the course material and completion of all aspects and requirements of the assignment. The grade of a B is reserved for that work which adeptly displays one’s ability to engage the ideas at hand, recognize and dialogue about the complications of such ideas, and translate such dialogue into clear, academic prose that is free of stigmatized errors. However, the level of thought, while still above average, may fluctuate in terms of analytic abilities and expression.

C: 70-79: Students earning the grade of a C on any assignment will have completed work that demonstrates an average understanding of the course material and completion of all aspects and requirements of the assignment. The grade of a C is reserved for that work which displays one’s ability to engage the ideas at hand (more so through summary and response rather than analysis), recognize and dialogue about the complications of such ideas (however, the complications recognized will focus more on surface level issues rather than the greater whole), and translate such dialogue into clear, academic prose that is free of stigmatized errors. As can be seen from this description, the level of thought will be acceptable and display that a student has read the assignment, but his/her analytic abilities and level of expression will not be nearly as complicated nor developed. Instead, C work will display a student’s hold to traditional methods of expression (simpler construction of sentence and paragraph development) and a struggle to develop complex, critical thinking skills.

D: 60-69: Students earning the grade of a D on any assignment will have completed work that demonstrates a below average understanding of course material and a lack of completion of all aspects and requirements of the assignment. The grade of a D is reserved for that work which displays one’s struggle or refusal to engage the ideas at hand, simply summarizes the work under study with no actual recognition of or dialogue about the complications of such ideas, and the translation of ideas into writing is completed in such a convoluted manner that the audience will have difficulty following the conversation.

F: 0-59: Students earning the grade of a F on any assignment will either not have completed the assignment, will have completed the assignment but not followed the guidelines, or will have
completed the assignment and demonstrated a complete misunderstanding of the course material. In this case, it will be obvious that the student has either not completed the required reading and/or given him/herself enough time to develop the work. The grade of a F is reserved for that work which does not engage the issues at hand, offers a base (not complete) summary of the work at hand with no critical engagement, and the translation of ideas into writing is either incomplete or the audience will be unable to follow the conversation. It is important to remember that a student can receive 0 out of 100 points. In the case that a student only partially completes an assignment or completes a work (in terms of page length, but not purpose) s/he may receive 0 points.

B. Withheld Grades Semester Grades Policy (A-54)

Ordinarily, at the discretion of the instructor of record and with the approval of the academic chair/director, a grade of WH will be assigned only if the student cannot complete the course work because of unavoidable circumstances. Students must complete the work within one calendar year from the end of the semester in which they receive a WH, or the grade automatically becomes an F. If students register for the same course in future terms, the WH will automatically become an F and will be counted as a repeated course for the purpose of computing the grade point average.

IV. POLICIES

A. Attendance: The attendance policy for this course is the official SFASU policy as stated at:
http://www.sfasu.edu/policies/class_attendance_excused_abs.asp

1. Attendance will be taken each class meeting. If the student is tardy, he is responsible for making sure he has not been counted absent.
2. If a student leaves class after taking the reading quiz, he will be counted absent.
3. In accordance with university policy, the instructor will stop accepting work from students who miss over 3 weeks of class, 9 MWF, 6 MW/TR, 3 night classes, or 4 classes in a summer session, regardless of whether absences are excused or unexcused.

*Students with perfect attendance - no excused or unexcused absences – will have a point added to their final grade.

B. Tardies: Once a student has been marked absent and enters the class, he will be marked tardy.

1. Excessive tardies will not be tolerated. For every 3 tardies, a student will receive an unexcused absence. Any student absent more than 9 MWF, 6 MW/TR, 3 night classes, or 4 classes in a summer session will no longer have work accepted by instructor in accordance with university policy.
2. Students who are tardy 15 minutes or more will be counted absent.
C. Disruption:

Acceptable Student Behavior

Classroom behavior should not interfere with the instructor’s ability to conduct the class or the ability of other students to learn from the instructional program (see the Student Conduct Code, policy D-34.1). Unacceptable or disruptive behavior will not be tolerated. Students who disrupt the learning environment may be asked to leave class and may be subject to judicial, academic, or other penalties. This prohibition applies to all instructional forums, including electronic, classroom, labs, discussion groups, field trips, etc. The instructor shall have full discretion over what behavior is appropriate/inappropriate in the classroom. Students who do not attend class regularly or who perform poorly on class projects/exams may be referred to the Early Alert Program. This program provides students with recommendations for resources or other assistance that is available to help SFA students succeed.

1. Cell phones, as well as other electronics need to be tuned off.
2. Any use of cell phones in class during class time will be treated as an unexcused absence. The student will be asked to leave, marked absent, and given a 0 for any class work.
3. Laptop use in class is only allowed for note-taking. Students using laptops will be required to sit in the back so as not to disturb nonlaptop users. Any indication that students are using their laptops for non-class related work or functions will result in the student being asked to leave. The student will be given an unexcused absence and a 0 for any class work. The student will also lose the privilege of using a laptop in class.
4. No electronics or cell phones will be allowed out during a quiz or an exam.
5. Disruptions of class will not be tolerated. Students who disrupt class will be asked to leave, marked absent, and given a 0 for the day. Disruptive students will not be readmitted until they have a conference with the instructor.

D. Make-up Work

1. It is University policy to excuse students for certain reasons, including absences resulting from poor health, family emergencies, and student participation in specified University-sponsored events. Students are responsible for providing the instructor with satisfactory documentation for each class missed. Satisfactory documentation includes inclusion in the public listing of University-sponsored events, a letter from the Judicial Office, as well as other authentic documents from court, doctor, etc. However, the standard notes from the University Health Clinic are not deemed satisfactory excuses. In addition, verification of excused absence must be given to instructor when student returns to class or the absence will be recorded as unexcused.
2. Students may make up missed work (major grades only) for excused absences that have been documented. Students with excused absences will have one week from the time that they return to class to take a
make-up essay exam or turn in their analysis or project. However, any student absent more than 9 MWF, 6 MW/TT, or 3 night classes in a regular semester, or 4 classes in a summer session will not have work accepted by instructor in accordance with university policy.

3. If a project or analysis is turned in later than the beginning of the class period it is due, 10 points will be deducted.

4. No late work will be accepted during the week of final exams.

5. Students with unexcused absences will receive a deduction of 10 grade points for each day the project or analysis is late unless the student and instructor agree on a new due before the analysis or project is originally due.

Analysis or projects over 5 days late (weekends and holidays are counted) will automatically receive a 0.

6. Absence on the due date of an assignment is not an excuse for turning in a late assignment.

7. Students with unexcused absences on test days will not be allowed a make-up essay exam.

V. ACADEMIC INTEGRITY (A-9.1): Students caught cheating on daily quizzes or exams or essays/projects will receive a 0 and no makeup will be allowed.

Academic integrity is a responsibility of all university faculty and students. Faculty members promote academic integrity in multiple ways including instruction on the components of academic honesty, as well as abiding by university policy on penalties for cheating and plagiarism.

Definition of Academic Dishonesty
Academic dishonesty includes both cheating and plagiarism. Cheating includes but is not limited to (1) using or attempting to use unauthorized materials to aid in achieving a better grade on a component of a class; (2) the falsification or invention of any information, including citations, on an assigned exercise; and/or (3) helping or attempting to help another in an act of cheating or plagiarism. Plagiarism is presenting the words or ideas of another person as if they were your own. Examples of plagiarism are (1) submitting an assignment as if it were one's own work when, in fact, it is at least partly the work of another; (2) submitting a work that has been purchased or otherwise obtained from an Internet source or another source; and (3) incorporating the words or ideas of an author into one's paper without giving the author due credit.

Please read the complete policy at http://www.sfasu.edu/policies/academic_integrity.asp

VI. SPECIAL NEEDS: Students with special requirements or problems need to contact the instructor immediately.

To obtain disability related accommodations, alternate formats and/or auxiliary aids, students with disabilities must contact the Office of Disability Services (ODS), Human Services Building, and Room 325, 468-3004 / 468-1004 (TDD) as early as possible in the semester. Once verified, ODS will notify the course instructor and outline the accommodation and/or auxiliary aids to be provided. Failure to request services in a timely manner may delay your accommodations. For additional information, go to http://www.sfasu.edu/disabilityservices/.
