Description: Field Experience II (3 credits; fully online) spans 15 weeks. The course contains extensive written content that includes the same written content that students in a face-to-face practicum course receive, requiring students to engage the online modules for at least three hours per week. Primarily woven into the content to support key concepts or provide perspective on the application of math and science content within the EC6 class are required to plan and implement a series of weekly small group math and science lessons based on assessed need and state curriculum standards. Students complete multiple written assignments that evaluate their ability to observe and assess math and science skills, plan and implement lessons, and interpret/analyze data for future instruction. For every hour a student spends engaging with the content, he/she spends at least two hours associated with activities and written assignments. There is no course fee associated with ELE 450.

Admission: Admission to Teacher Education and enrollment in Field Experience II semester.

Learning Outcomes/Goals/Objectives:

In this course provide a hands-on—minds-on learning opportunity for teacher candidates at SFASU. Practicum II field experience supports the goals of the College of Education by providing teacher candidates an opportunity to work with P-12 public school students as we prepare them to be competent, successful, caring and enthusiastic professionals. One of the goals of the College of Education is to provide a variety of teaching strategies and through this field experience, as well as to use the latest technologies to a range of diverse student interests, backgrounds, and aspirations and through this field experience, as well as to use the latest technologies to a range of diverse student interests, backgrounds, and aspirations. Through field placements, teacher candidates also have opportunities to work with external partners to enhance students' knowledge, skills, and dispositions, and to influence the ongoing exchange of ideas. The College of Education requires that teacher candidates have opportunities to work with student and parents and in this field placement candidates learn to communicate with parents. Through this course, teacher candidates learn to assess, plan, and implement instruction at appropriate levels. They also learn to assess to reflect on student learning and teaching strategies to plan for future instruction. This course is one of three field placements for teacher candidates at SFASU become reflective professionals who have experience planning appropriate instruction for diverse student learners.

Tips and Texts:

The LiveText data management system is used to collect critical assessments for students who are Perkins College of Education majors (undergraduate and doctoral) or majors in other colleges seeking educator certification through the Perkins College of Education. Students who do not have a LiveText account will receive an access code via the SFA email system within the first week of class. You will be required to register your LiveText account and notified how to do this via email. If you forward your SFA email to another account and do not receive an e-mail concerning LiveText registration, please check your junk mail folder and your spam filter for these e-mails.

You must purchase and activate the LiveText add-on, Field Experience Module (FEM), prior to your first day of field experience/clinical practicum. Failure to purchase and activate the account and/or submit the required assignment(s) within the FEM system may result in course failure. FEM must be purchased from www.livetext.com for a fee of $18.00.

If you have questions about obtaining or registering your LiveText account, call ext. 7050 or e-mail SFALiveText@sfasu.edu. Once LiveText is purchased and activated, you will be able to access the FEM system. If you have technical questions, call ext. 7050 or e-mail livetext@sfasu.edu. Failure to activate the account and/or submit the required assignment(s) within the LiveText system may result in course failure.

Evaluations:

At the conclusion of each semester, students in the College of Education electronically evaluate courses taken within the COE. Evaluation data is used for important purposes including: course and program improvement, planning, and accreditation; instruction evaluation purposes; and making decisions regarding faculty compensation, promotion, pay, and retention. As you evaluate this course, please be thoughtful, thorough, and accurate in completing the evaluation. The College of Education faculty is committed to excellence in teaching and continued improvement. Therefore, your response is critical!

Although the instructor may not know the names of students who complete the survey, all ratings and comments are confidential and anonymous, and will not be available until after final grades are posted.
Ethics and Other Policy Information: Found at https://www.sfasu.edu/policies

Attendance and Excused Absence: Policy 6.7

Actual attendance, documented participation, and, if indicated in the syllabus, submission of completed assignments are expected at all classes, and other activities for which the student is registered. Based on university policy, failure of students to adhere to these requirements shall result in decreased course grade, financial assistance, and/or enrollment status. This is an online course and attendance will be monitored through chats, time and submission of course assignments, in addition to regular access of the course by the student through D2L.

Accommodation for Students with Disabilities: Policy 6.1 and 6.6

For disability related accommodations, alternate formats and/or auxiliary aids, students with disabilities must contact the Office of Disability Services Building, and Room 325, 936-468-3004 as early as possible in the semester. Once verified, ODS will notify the course instructor and arrangement and/or auxiliary aids to be provided. Failure to request services in a timely manner may delay your accommodations. For additional information visit www.sfasu.edu/disabilityservices/

Academic Dishonesty: Policy 4.1

University policy on academic integrity is a responsibility of all university faculty and students.

Definition of Academic Dishonesty

Academic dishonesty includes both cheating and plagiarism. Cheating includes, but is not limited to: using or attempting to use unauthorized materials, forms, notes, reports, or devices on an examination or test; communicating with others during an examination or test; submitting or attempting to submit for credit or on an examination or test any work or information which is not the student’s own; submitting the same work or substantially similar work for credit in more than one course without the authority of the course instructors; and/or; helping or attempting to help another student to violate academic dishonesty rules.

Plagiarism

Plagiarism is presenting the words or ideas of another person as if they were one’s own. Examples of plagiarism include, but are not limited to: submitting a work that has been purchased or otherwise obtained from another source; and/or, incorporating the words or ideas of an author into one’s paper or presentation without giving the author credit.

Consequences for Academic Dishonesty

Consequences for Academic Dishonesty may include, but are not limited to reprimand, no credit for the assignment or exam, re-submission of the work, make-up exam, failure of the course, and/or removal from the university.

Appeals

Any student who wishes to appeal decisions related to academic dishonesty should follow procedures outlined in Academic Appeals by Students (6.3).

Grades: Policy 5.5

In exceptional cases and with the approval of the academic unit head, a grade of WH will be assigned only if the student cannot complete the course because of unavoidable circumstances. Students must complete the work within one calendar year from the end of the semester in which
Any grade automatically becomes an F, except as allowed through policy [i.e., Active Military Service (6.14)]. If students register for the same course twice, the WH will automatically become an F and will be counted as a repeated course for the purpose of computing the grade point average.

Grade of Conduct: Policy 10.4

Behavior should not interfere with the instructor’s ability to conduct the class or the ability of other students to learn from the instructional process. Any behavior that is teacher- or student-disruptive will not be tolerated. Students who disrupt the learning environment may be asked to leave class and may be subject to academic or other penalties. This policy applies to all instructional forums, including electronic, classroom, labs, discussion groups, field trips, etc. Instructors will have full discretion over what behavior is appropriate/inappropriate in the classroom. Students who do not attend class regularly or who do not complete class projects/exams may be referred to the iCare: Early Alert Program at SFA. Information regarding the iCare program is found at sfasu.edu/judicial/earlyalert.asp or call the office at 936-468-2703.

The Certification/Licensing Requirements in Texas related to public education and other professional settings, you will be required to have completed a criminal history background check prior to clinical teaching and prior to employment as an educator. The public school candidate must undergo a criminal history background check prior to completing the criminal background check. A person who is enrolled or planning to enroll in a State Board for Educator Certification-approved preparation program or planning to take a certification examination may request a preliminary criminal history evaluation letter regarding the person’s eligibility for certification due to a conviction or deferred adjudication for a felony or misdemeanor offense.

Criminal History Evaluation is a non-mandatory, non-binding evaluation of an individual’s self-reported criminal history. In addition, the service provides your name-based Texas criminal history information. The service is provided to the requestor for a non-refundable fee. The requestor will receive a preliminary criminal history evaluation letter by email from agency staff advising of potential ineligibility for educator certification.
Eligible to request a Preliminary Criminal History Evaluation if:

- enrolled or planning to enroll in an educator preparation program or
- are planning to take a certification exam for initial educator certification, and
- have reason to believe that you may be ineligible for educator certification due to a conviction or deferred adjudication for a felony or misdemeanor.

Eligible for a preliminary evaluation of your criminal history if you do not have a conviction or deferred adjudication for a felony or misdemeanor.

You must complete the fingerprinting process when you apply for certification. Participation in the evaluation does not preclude you from submitting a criminal history review at the time you apply for your educator certification. Your criminal history will be reviewed and you may be subject to actions based on that criminal history, including any information you failed to submit for evaluation.

Information can be found at [https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/](https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/).
