Course Objectives:
Students will spend no more than ¼ of their lesson time working on reeds one on one with their instructor. Students are expected to attempt their weekly quota (by year), work on reeds outside of lessons, and attend reed-making class with their peers. In doing so, the student will develop the technical skills necessary for crafting a reed.

Course Outcome:
As a result of this course, the student will learn the skills necessary to make and adjust their own reeds, ultimately becoming a self-sufficient reed-maker. In doing so, the student will be enabled to keep up their personal craft on the oboe as an “Artist Educator,” and possibly even become a reed source to students or clients.
Goals and Expectations:
- Learn how to process oboe cane
- Create a functional reed—defined as comfortable, and crows octave 'Cs.'
- Continue to improve your current skill set for a more refined reed
- Treat school-owned machines with care and respect
- Keep the reed room clean

Assignments:
- Weekly Check-Ins (due during reed class)
  - Freshmen: tie and finish 2 new reeds every week
  - Sophomores: tie and finish 3 or 4 new reeds every week
  - Juniors: tie and finish 5 or 6 new reeds every week
  - Seniors: tie and finish 7 new reeds every week
- Come to reed class with work to do
- Semesterly: reed-making final

Grading:
Weekly Reed-Making is always worth 10% of your total grade in Applied oboe, and the reed-making final is 5% of your total grade in Applied oboe. When registered in Reed-Making MUS 472 as its own course, these two grading items are duplicated as your grade for the course.
UNIVERSITY POLICIES:

Withheld Grades Semester Grades Policy (A-54)
Ordinarily, at the discretion of the instructor of record and with the approval of the academic chair/director, a grade of WH will be assigned only if the student cannot complete the course work because of unavoidable circumstances. Students must complete the work within one calendar year from the end of the semester in which they receive a WH, or the grade automatically becomes an F. If students register for the same course in future terms the WH will automatically become an F and will be counted as a repeated course for the purpose of computing the grade point average.

ACADEMIC INTEGRITY:
Academic integrity is a responsibility of all university faculty and students. Faculty members promote academic integrity in multiple ways including instruction on the components of academic honesty, as well as abiding by university policy on penalties for cheating and plagiarism.

Definition of Academic Dishonesty
Academic dishonesty includes both cheating and plagiarism. Cheating includes but is not limited to (1) using or attempting to use unauthorized materials to aid in achieving a better grade on a component of a class; (2) the falsification or invention of any information, including citations, on an assigned exercise; and/or (3) helping or attempting to help another in an act of cheating or plagiarism. Plagiarism is presenting the words or ideas of another person as if they were your own. Examples of plagiarism are (1) submitting an assignment as if it were one’s own work when, in fact, it is at least partly the work of another; (2) submitting a work that has been purchased or otherwise obtained from an Internet source or another source; and (3) incorporating the words or ideas of an author into one’s paper without giving the author due credit.
