**General Education Core Curriculum Objectives:**
No core curriculum objectives are assessed in this course.

**Student Learning Objectives (SLOs):**
After completing this course you should be able to:

- interpret and critically analyze the major theories, constructs, and research studies which contribute to the division of psychology devoted to social aspects
- apply the theories and constructs reviewed in class to real-world events and everyday experiences
• evaluate human behavior as it relates to social influence, social motivation, personality, attraction, and interpersonal relationships.
• understand gender and cultural differences in society

**Required Texts, Readings, and Resources:**

In this course we will use *Social Psychology, Myers, 13th edition*, but not in the form of a print textbook. Instead, you will purchase access to a digital version of the book on the McGraw-Hill Education Connect® online platform. Connect uses technology that adapts content to your skill level to make more-efficient use of your study time and create a more-effective reading experience.

Here is your REQUIRED course material:

<table>
<thead>
<tr>
<th>Title</th>
<th>Edition</th>
<th>Author</th>
<th>Publisher</th>
<th>ISBN</th>
</tr>
</thead>
</table>

• You can purchase the e-book and the McGraw Hill Connect access with LearnSmart as a package. You DO NOT have to purchase the textbook in addition to the e-book. This way, you won’t be spending more than you typically would for a text in your other classes.

You may purchase access with the e-book at the bookstore or by visiting the website below.

**What is Connect?**

Connect is an online homework and learning management platform from McGraw-Hill Education. Many of your course assignments will be delivered through Connect.

Connect helps you:
• Stay Organized with assignments – both in and outside of class
• Target difficult material to practice and improve your skills
• Review for exams with self-assessment tests and quizzes
• Track your performance with personalized reports
• Save time on studying
• Save money on textbooks

This course will also utilize the Brightspace learning online management system for exams, assignment submission, grade reporting, and course communication. The Brightspace page for this class will be used to post course documents such as the course syllabus, supplementary readings, and notes.

**Assignments:**

*LearnSmart Assignments for Myers Chapter Readings.* To ensure that students read and can apply concepts reviewed in the Myers text, students are required to complete Learn Smart Readings for each of the assigned Myers Chapters. These assignments will be completed in the Connect online learning system. These reading assignments include review questions to test understanding of chapter material. Completing these review questions is one of the best ways to prepare for the exams in this course. Each of the Learn Smart Assignments is worth 5 points. They each should take 30-60 minutes to complete. These reading assignments are listed in the course schedule.
Connect Learning Activities. Also in Connect, students will be required to complete interactive learning assignments to provide additional practice applying key concepts from the Myers Chapter readings. These assignments will range from 3 to 24 points each, and will include Video, Classification, Labeling, Concept Clip Article Reactions, Interactive, and NewsFlash activities. These assignments are listed in the course schedule.

Evaluations: There will be 5 exams throughout the semester. There is no comprehensive final. The exams will cover Myers book and article reading material and information from the notes presented with each unit. Exams will include multiple-choice and fill-in-the-blank questions. Each exam is worth 50 points. They can be accessed under Quizzes in the course D2L page. If you miss an exam, proof of illness or death of family member/friend will be required for a makeup. Please see the course schedule for these specific dates.

Deadlines: All deadlines for this course are hard deadlines. This means that points will be lost for late assignments without documented excuses (e.g., a signed note from a medical doctor or other proof of illness or death of a family member). Deadlines for all assignments are indicated clearly in the course schedule. Please do not email Dr. Savoy regarding a makeup unless you have a documented excuse. No credit will be given for late work without documented excuses. This means that you should attend to the deadlines in your course schedule very carefully. The deadlines you need to pay most attention to are those listed in your course schedule. If you follow these, you won’t lose points.

Your course grade will be based on the number of points that you earn on all course assignments. There will be 5 exams worth 50 points each, 12 Learn Smart Assignments worth 5 points each, and 16 Connect Learning Activities worth 301 points total. The total number of possible points for the course is thus 611.

Grades will be determined as follows:

<table>
<thead>
<tr>
<th></th>
<th>A</th>
<th>B</th>
<th>C</th>
<th>D</th>
<th>F</th>
</tr>
</thead>
<tbody>
<tr>
<td>Percent</td>
<td>90</td>
<td>80</td>
<td>70</td>
<td>60</td>
<td>&lt;60*</td>
</tr>
<tr>
<td>Points</td>
<td>549.9</td>
<td>488.8</td>
<td>427.7</td>
<td>366.6</td>
<td>&lt;*366.6</td>
</tr>
</tbody>
</table>

To earn a specific letter grade, you must meet the minimum point total for that grade. For example, if you earn 488.5 points, your letter grade will be a C; it will not be raised to a B. There are no exceptions to this policy.

Academic Integrity (A-9.1): You are responsible for making yourself aware of and understanding the policies and procedures in the Student Handbook Cheating and Plagiarism Policy (A-9.1) that pertains to Academic Integrity.

Definition of Academic Dishonesty

Academic dishonesty includes both cheating and plagiarism. Cheating includes, but is not limited to:
- using or attempting to use unauthorized materials to aid in achieving a better grade on a component of a class;
- falsification or invention of any information, including citations, on an assignment; and/or,
- helping or attempting to help another in an act of cheating or plagiarism.

Plagiarism is presenting the words or ideas of another person as if they were your own. Examples of plagiarism include, but are not limited to:
- submitting an assignment as if it were one's own work when, in fact, it is at least partly the work of another;
- submitting a work that has been purchased or otherwise obtained from the Internet or another source; and,
- incorporating the words or ideas of an author into one's paper or presentation without giving the author due credit.

Procedure for Addressing Student Academic Dishonesty

A faculty member who has evidence and/or suspects that academic dishonesty has occurred shall gather all pertinent information, approach the student(s) involved, and initiate the following procedure:
- The faculty member shall review all evidence of cheating or plagiarism and discuss it directly with the student(s) involved. The faculty member shall inform the student(s) of the procedure for addressing academic dishonesty, as well as the appeals process.
Students with Disabilities: If you have a documented disability and need reasonable accommodations, please contact me during the first week of classes so that I can ensure that your needs are met in a timely manner. To obtain disability related accommodations, alternate formats and/or auxiliary aids, students with disabilities must contact the Office of Disability Services (ODS), Human Services Building, and Room 325, 468-3004 / 468-1004 (TDD) as early as possible in the term. Once verified, ODS will notify the course instructor and outline the accommodation and/or auxiliary aids to be provided. Failure to request services in a timely manner may delay your accommodations. For additional information, go to http://www.sfasu.edu/disabilityservices/.
