Syllabus for Psychology 420.002 – History & Systems of Psychology

Spring 2019

Instructor: Dr. Robert Polewan
Office: MCKB 215K
Email: polewanrj@sfasu.edu
Phone #: 936-468-4402
Office Hours (subject to change): Monday & Wednesday: 1:00-2:15pm, Tuesday & Thursday: 12:30-1:45pm, and by appointment. Emails and phone calls will be answered within 24 hours except on weekends and holidays.

Graduate Teaching Assistant: Kenocha Epperson
Office: MCKB 251
Email: eppersonkk1@jacks.sfasu.edu
Office Hours: TBA

Class: Monday & Wednesday 2:30-3:45pm, MCKB 269

Required Textbooks:

Course Description: Survey of the historical background of psychology, emphasizing its philosophical origins and evolution of the psychological point of view. Contributions of major schools of psychology to modern psychology also emphasized. Senior standing or consent of instructor.

<table>
<thead>
<tr>
<th>Program Learning Outcomes</th>
<th>Proficiency Level</th>
</tr>
</thead>
<tbody>
<tr>
<td>The student will demonstrate familiarity with the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology.</td>
<td>Advanced</td>
</tr>
<tr>
<td>The student will understand and apply basic research methods in psychology, including research design, data analysis, and interpretation.</td>
<td>Intermediate/Advanced</td>
</tr>
<tr>
<td>The student will respect and use critical and creative thinking, skeptical inquiry, and, when possible, the scientific approach to solve problems related to behavior and mental processes.</td>
<td>Advanced</td>
</tr>
<tr>
<td>The student will understand and apply psychological principles to personal, social, and organizational issues.</td>
<td>Advanced</td>
</tr>
<tr>
<td>The student will value empirical evidence, tolerate ambiguity, act ethically, and reflect other values that are the underpinnings of psychology as a science.</td>
<td>Intermediate</td>
</tr>
</tbody>
</table>

Student Learning Outcomes:
By the end of this course, students should be able to…
1. Describe the key major figures in the history of psychology and their major contributions.
2. Relate the major perspectives to the individuals who are responsible for articulating them.
3. Describe how historical trends and events have influenced the development of psychology as a scientific discipline.
4. Describe major perspectives of psychology.
5. Demonstrate an understanding of major questions that have driven psychological thought throughout its history.
6. Demonstrate skills in writing and reporting in APA style.

Exemplary Education Outcomes:
No core curriculum objectives are assessed in this course.

Point Distribution: No grade curving is done on any grade in this course.
*Exams: 50 point midterm exam & 100 point cumulative final exam
Birthday Paper: 50 points
Newspaper Monograph: 50 points total (35 points for written part and 15 points for presentation)
Articles Reviews: 10 points each (110 points total, 1 per week)
Class Attendance & Discussion/Participation: 40 points
Midterm Essay Exam: 50 points
Cumulative Final Essay Exam: 100 points
Total Points: 400 with midterm and final/ 300 with final/250 without exams

I expect that this class will be discussion-based. Thus, you must keep up with you readings and be prepared to discuss them and class and ask questions. If this class becomes more lecture-based, I will be giving a midterm and/or a final exam. In this case, the exams will consist of essay questions from the chapters covered as well as the class discussions.

Grade Distribution: There is no curving for any grade in this course.

<table>

</table>

Papers: In addition to any exams, you will be required to work on three projects (a Birthday paper, a Review Paper, and Article Reviews) throughout the semester. DO NOT PLAGIARIZE YOUR PAPERS; this will result in a failing grade.

Birthday Paper: The Birthday Paper will consist of a short summary of one or more historical events that occurred on your birthday (month and day, but not the year). The website http://www.cwu.edu/~warren/today.html will allow you to enter your birth date and will then show you a number of interesting events in psychology that occurred on that date. You should choose one or more events and do additional background readings on the event(s). The Birthday Paper should be 600- to 800-words in length, double-spaced, utilizing a standard 12-pt font (e.g., Times New Roman), 1-inch margins, properly paraphrasing, and your sources cited (follow APA style). The Birthday paper must include at least three (3) properly cited
references that are NOT from the course textbook or the internet (e.g., use peer-reviewed journal articles, book chapters, or books). You must submit an electronic version to D2L, as a MS Word document, no later than May 6, 2019 at 5:00pm.

**Newspaper Monograph:** Working in groups of three to four, you will create a newspaper chronicling important events during one particular year in the history of modern psychology. The newspaper will definitely include news features relating to psychology, but it will also include events that reflect the surrounding historical context (e.g., politics, war, economics, sports, entertainment, other sciences, etc.). Each newspaper must be four pages in length (with 250 to 300 words of text and at least one image per page), must have a minimum of three psych-related stories and three non-psych stories, and must be dated December 31 of the chosen year so that it can be structured as a special “Year in Review” edition. For example, a newspaper on the year 1929 might have psychology-related stories on the International Congress at Yale (with talks by Ivan Pavlov and Kurt Lewin) and/or the opening of Yale’s Institute for Human Relations, along with non-psychology stories on the infamous stock market crash and/or the St. Valentine’s Day massacre in Chicago. At the conclusion of the project, each group will deliver a 10-12 minute class presentation on the newspaper they have created. Both the newspaper itself and the class presentation will be scored based on how interesting and well written the articles are the accuracy of the content, the diversity of the content, and over all creativity. You must submit an electronic version of the newspaper to D2L, as a MS Word document, no later than March 15, 2019 at 5:00pm.

**Article Reviews:** Throughout the semester students will also be looking at and discussing articles (1 per week for each student) that focus on the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology. The articles should be related to the weeks topic covered in the text. We will look the articles during each class period and discuss it, so please have your article read before coming to class. On the day the article is present, that student will take the lead in its discussion (5-10 min). Addition, for each of the articles that you have chosen, you will write a 150-to 200-word long review to be handed in to the instructor. The review must be written using APA style and remember to cite your article. While the article review will not be due the day you present the paper, I suggest that you at least work on a rough draft in order to better understand the article. The Articles Reviews will be due on Fridays by 5:00PM to the D2L dropbox as a MS Word document.

**Penalty:** Announcements are made at the beginning of class if due dates change. You are responsible for knowing of any change. Due dates are explicitly stated in the syllabus or through an in class announcement and late assignments will incur a penalty decided by ME, the instructor. This can range from a point or two to NOT ACCEPTING THE ASSIGNMENT.

**Extra Credit:** None

**Honor Projects:** Dr. Polewan will not be supervising any honor projects for this class.

**Lecture Notes:** The PowerPoint slides are posted on D2L at the discretion of the instructor. PowerPoint slides that are presented in class may have slides that are added or removed from the
slides posted on D2L. I will not reposted the PowerPoint slides if I make changes before class, it is your responsibility to get the new notes in class.

**Electronic Device Policy:** Only laptops are permitted in class and ONLY for the purpose of taking notes and in-class work on assignments. Recording of lectures is strictly prohibited unless approved in advance by the instructor. Cell phones and Ipods must be turned off during class. **The use of an unauthorized electronic device during class will result in a 2-point penalty deduction from the final grade for each infraction by that individual.**

**Class Attendance Policy:** Class attendance will be taken at the beginning of each class. **Any more than nine (9) unexcused absences will result in an automatic failing grade for this class.** I will cover a lot of material not in the book that I will expect you to know for the exams. You are responsible for ALL material covered in the lectures and in the posted readings/book. Also, announcements are made at the beginning of the class. These announcements cover due dates, changes in scheduling, and changes in exams. If a class lecture is missed, it is the student’s responsibility to obtain missed lecture materials and announcements from classmates. If a student misses a course meeting, the student should contact a classmate to get a copy of the announcements and notes covered during that course meeting.

**Missed Work Policy:** You must take exams/reaction papers/assignments at their scheduled times, unless circumstances, such as a religious observance, serious illness, or death in the family.

**Excused Absences:** Students who know in advance that they will miss an exam/reaction paper/assignment and/or have an excused absence must contact Prof. Polewan **BEFORE** the day of the exam/reaction paper/assignment (NOT ON the day of the exam) in order to be allowed to make up the missed exam/reaction paper/assignment and to schedule a make-up time and date. In addition, you **MUST PROVIDE DOCUMENTATION** regarding your absence. Students with excused absences will have **two weeks** from the date of the exam to make it up, failure to do so will result in a score of zero (0) on that exam/reaction paper/assignment.

**Unexcused Absences:** Students with unexcused absences **MUST** provide Prof. Polewan with proper documentation regarding your absence in order to make up missed exams/reaction papers/assignments and will have **two weeks** from the date of the exam to make it up. If you miss an exam/reaction paper/assignment and fail to provide proper documentation, you will **NOT** be allowed to make it up and you will receive a score of zero (0) on that exam/reaction paper/assignment. Proper documentation must include your name, the date(s) of your absence, and the reason(s) of your absence. Documentation must be received within 2 class periods of your return. Make-up exams/reaction papers/assignments must be completed **BEFORE** finals week.

All make up work must be completed **BEFORE** the last day of class and **BEFORE** the day of the final. There will be no make-up exams/reaction papers/assignments allowed during and after the final.
SFA Excused Absences Policy:
(http://www.sfasu.edu/policies/class_attendance_excused_abs.asp)
Students may be excused from attendance for reasons such as health, family emergencies, or
student participation in approved university-sponsored events. However, students are responsible
for notifying their instructors in advance, when possible, for excusable absences.

Students are responsible for providing satisfactory documentation in a timely manner to the
instructor for each absence. Whether absences are excused or unexcused, a student is still
responsible for all course content and assignments. Students with acceptable excuses may be
permitted to make up work for a maximum of three weeks’ worth of absences during a semester
or one week of a summer term, depending on the nature of the missed work. Make up work
must be completed as soon as possible after returning from an absence in accordance with
the course syllabus.

In the case of absences caused by participation in university-sponsored events, announcement via
mySFA will constitute official notification. Faculty members sponsoring activities that require
their students to be absent from other classes must submit to the provost and vice president for
academic affairs an explanation of the absence, including the date, time and an alphabetical
listing of all attending students. If approved by the provost and vice president for academic
affairs, this information will be posted on mySFA.

Acceptable Student Behavior: Classroom behavior should not interfere with the instructor’s
ability to conduct the class or the ability of other students to learn from the instructional program
(see the Student Conduct Code, policy 10.4). Unacceptable or disruptive behavior will not
be tolerated. Students who disrupt the learning environment may be asked to leave class and may
be subject to judicial, academic or other penalties. This prohibition applies to all instructional
forums, including electronic, classroom, labs, discussion groups, field trips, etc. The instructor
shall have full discretion over what behavior is appropriate/inappropriate in the classroom.
Students who do not attend class regularly or who perform poorly on class projects/exams may
be referred to the iCare Early Alert Program. This program provides students with
recommendations for resources or other assistance that is available to help SFA students succeed.

I define appropriate behavior as attending lecture/lab on time, having your cell phone turned to
silent and stowed away for the duration of the class, taking turns when speaking in class, being
respectful to your peers and your instructor, and trying to avoid leaving class early if at all
possible. All blatant actions of disrespect will lead to the individual responsible being asked to
leave the class. If the actions do not cease permanently, the individual will be asked to drop the
class. During lecture/lab times, if you are using the computer, you may not check your email,
look at facebook, or have any page open that is not directly relevant to the lab activity that day. I
will expect that all students will arrive promptly to class. Please do not be tardy since it disrupts
both the instructor and your fellow students. Since attendance will be taken at the beginning of
class, tardy students will be marked as having an unexcused absence. During class there should
be no private conversations.
Academic Integrity (A-9.1): Academic integrity is a responsibility of all university faculty and students. Faculty members promote academic integrity in multiple ways including instruction on the components of academic honesty, as well as abiding by university policy on penalties for cheating and plagiarism.

Definition of Academic Dishonesty: Academic dishonesty includes both cheating and plagiarism. Cheating includes, but is not limited to: (1) using or attempting to use unauthorized materials to aid in achieving a better grade on a component of a class; (2) falsification or invention of any information, including citations, on an assignment; and/or (3) helping or attempting to help another in an act of cheating or plagiarism. Plagiarism is presenting the words or ideas of another person as if they were your own. Examples of plagiarism include: (1) submitting an assignment as if it were one's own work when, in fact, it is at least partly the work of another; (2) submitting a work that has been purchased or otherwise obtained from the Internet or another source; and (3) incorporating the words or ideas of another person into one's paper or presentation without giving the author due credit.

Please read the complete policy and the appeals process at http://www.sfasu.edu/policies/academic_integrity.asp and http://www.sfasu.edu/policies/academic_appeals_students.asp

Procedure for Addressing Student Academic Dishonesty:
A faculty member who has evidence and/or suspects that academic dishonesty has occurred shall gather all pertinent information, approach the student(s) involved, and initiate the following procedure:

1. The faculty member shall review all evidence of cheating or plagiarism and discuss it directly with the student(s) involved. The faculty member shall inform the student(s) of the procedure for addressing academic dishonesty, as well as the appeals process.
2. After hearing the student(s)’ explanation or defense, the faculty member will determine whether or not academic dishonesty has occurred and will inform the student(s) what action will be taken. Penalties may include reprimand, no credit for the assignment or exam, re-submission of the work, make-up exam, or failure of the course. The faculty member may consult with the academic unit chair/director and dean in making these decisions.
3. After a determination of academic dishonesty, the faculty member shall notify the office of the dean of the student's major by submitting a Report of Academic Dishonesty, along with supporting documentation as noted on the form. This report shall be made part of the student's record and shall remain on file with the dean's office for at least four years.
4. Upon second or subsequent offenses, the dean of the student’s major will determine a course of action, which may include dismissal from the university. The dean may refer the case to the college council for review and recommendations before making this determination. A student's record of academic dishonesty will not be available to faculty members. The purpose of the record is for the dean to track a pattern of academic dishonesty during a student's academic career at Stephen F. Austin State University. Students who are found to have demonstrated academic dishonesty and have withdrawn prior to the award of a grade will continue to have the determination of the infraction within their student records.

Student Appeals
These steps are to be followed when making an academic appeal:

1. In the event of course-related disputes, the student must first appeal to the instructor within thirty (30) calendar days after the first class day of the next long semester. Given extenuating circumstances, exceptions to this deadline may be granted by the academic unit chair/director.
2. If the dispute is not resolved, the student may appeal in writing, stating the specific issues, to the instructor’s academic unit chair/director. The academic unit chair/director shall request a written
statement from the faculty member. The academic unit chair/director shall provide both parties with a written recommendation for resolution.

3. If the dispute is still unresolved after appeal to the academic unit chair/director, the student or faculty member may appeal in writing to the instructor’s dean. The dean will notify the other party of the continuation of the appeal and provide all parties with a written recommendation after reviewing all documentation.

4. If the dispute is still unresolved after appeal to the dean, the dean may refer the appeal to the college council. If the college council has no student members, the dean will ask the president of the Student Government Association to recommend no more than two students from that college to be appointed as voting members. The college council will review all documentation and submit its recommendation to the dean.

5. If a resolution of the matter is still not reached, the student or the faculty member may appeal in writing to the provost and vice president for academic affairs. The dean's written recommendation in addition to all documentation will be submitted to the provost and vice president for academic affairs. The college council may serve as an advisory body to the provost and vice president for academic affairs in the appeal process. The provost and vice president for academic affairs will evaluate all documentation and any additional oral presentations from the student and faculty member.

6. The provost and vice president for academic affairs will inform the student and all persons involved in the appeal process of the final recommendation.

A student or faculty member shall have ten (10) business days from the conclusion of each step in which to appeal to the next level. A faculty member, after considering the outcome of the appeals process, shall retain complete academic freedom, including the right to assign semester grades.

**Cheating & Plagiarism Policy:** Please make yourself familiar with the Academic Integrity Policy (see above). There will be zero tolerance for cheating and plagiarism. Copying and pasting from the Internet or paraphrasing a few words in not an acceptable practice in college. **Not knowing the rules for plagiarism will not be an acceptable excuse.** If you are unsure of plagiarism, you should go to the writing center/library. **The penalty for cheating and plagiarism is an F on that particular exam/paper/assignment.**

**Withheld Grades Semester Grades Policy (A-54):** At the discretion of the instructor of record and with the approval of the academic chair/director, a grade of WH will be assigned only if the student cannot complete the course work because of unavoidable circumstances. Students must complete the work within one calendar year from the end of the semester in which they receive a WH, or the grade automatically becomes an F. If students register for the same course in future semesters, the WH will automatically become an F and will be counted as a repeated course for the purpose of computing the grade point average.

**Students with Disabilities:**
To obtain disability related accommodations, alternate formats and/or auxiliary aids, students with disabilities must contact the Office of Disability Services (ODS), Human Services Building, and Room 325, 468-3004 / 468-1004 (TDD) as early as possible in the semester. Once verified, ODS will notify the course instructor and outline the accommodation and/or auxiliary aids to be provided. Failure to request services in a timely manner may delay your accommodations. For additional information, go to http://www.sfasu.edu/disabilityservices/.

Final Exam: TBA, Chapters 1-13 Essay Format

The Birthday paper is due to me on May 6, 2019 by 5:00 pm.
DO NOT PLAGIARIZE YOUR PAPERS; this will result in a failing grade.

This syllabus is subject to change at the instructor’s discretion.

Contacting me: The best way to contact me is via email. When sending an email, it should be professional, include your name, the class and/or lab that you are in, and what the email is in regards to. Note that I will NOT open emails that are missing a subject line. I will respond to your email within 24 hours, excluding weekends and holidays.

Note that I will only reply to emails via your official SFASU email or D2L email. I will NOT respond to personal emails (Gmail, Yahoo email, Hotmail, etc.).

By being enrolled in this class (PSY420.002: Spring 2019) you are agreeing to the policies, terms, conditions, and due dates stated in this syllabus.
