MTH 220 (Online): Introduction to Probability & Statistics
Department of Mathematics and Statistics
Section 500, 502  Summer 2 2019

Instructor:  Mrs. Michelle Cook
Office:  335 Mathematics Building
Email:  mmcook@sfasu.edu
Office Phone:  936-468-1586

Class Times & Place:  This is an online course with two face-to-face exams

Office Hours:  Available by appointment

Course Description:  Probability, random variables, mean and variance, binomial distribution, normal distribution, statistical inference and linear regression.

Text and Materials:  Discovering Statistics (Bundle) by Hawkes and Marsh, 2nd edition.
Online access to the Hawkes Learning System is required. You can gain access by either using the access code from the bundle or by purchasing access from Hawkes. You will also need a scientific calculator. A graphing calculator is permitted but not required. Please make sure that you are comfortable with the calculator that you select.

Core Objectives (CO):
1. Critical Thinking [CO 1]: to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information
2. Communication Skills [CO 2]: to include effective development, interpretation and expression of ideas through written, oral and visual communication
3. Empirical and Quantitative Skills [CO 3]: to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Exam Calendar:

<table>

Course Requirements/Assignments:

- **Hawkes Lessons**—The lesson schedule is located at the end of the syllabus. [CO 1, 2, 3]
- **Two WebTests**—The WebTests are designed to make sure that you are keeping up with the material. These are online tests through Hawkes. Additional information about the WebTests can be found at the end of the syllabus. [CO 1, 2, 3]
- **Midterm Exam**—The midterm exam is July 31st [CO 1, 2, 3]
- **Comprehensive Final Exam**—The final exam is August 16th [CO 1, 2, 3]
- **D2L Discussions**—There will be two D2L discussions that will be completed before each exam (exam 1/Midterm, Exam 2/Final)
- **Student Responsibility**—It is your responsibility to keep up with all due dates and exam dates. It is your responsibility to check Hawkes and d2l daily.
Hawkes Learning System Lessons:

The Hawkes lessons are how you will learn the material for this course. These lessons play the role of lecture and homework in a face-to-face class. There are 31 total lessons to complete on Hawkes as well as two online webtests to complete on Hawkes. Your two lowest Hawkes lessons will be dropped. Each time you work through a lesson, you will work through the lesson in three parts: learn, practice, certify.

1. Part 1: Learn
   The first part of the Hawkes lesson plays the role of the lecture that you would have in a face-to-face course. This part will introduce you to the material covered in that sections. You will see examples completed step by step.

2. Part 2: Practice
   The second part of the lesson allows you to practice with what you just learned. This part allows you to gain confidence in the new material.

3. Part 3: Certify
   The final part is where you get your grade for the lesson. You must certify each lesson in order to get a grade. Once you certify each lesson, your grade for that lesson is 100%. You will see a required mastery for each lesson. This tells you how many questions you need to get correct in order to master the lesson. Once you have mastered the lesson, it is certified and your grade for that lesson is 100%. For example, if it says that the required mastery is 10 out of 13 then once you get 10 questions right, you have certified the lesson.

Note: You can go through any of the three parts as many times as you want

Due dates are posted on the schedule at the end of the syllabus as well as on the Hawkes Learning System. On the scheduled due date, the assignment is due at 11:59 pm. The following is information for the penalty when completing a Hawkes lesson after the stated due date:

   - 2 day late: 10% penalty (This means that the highest grade for that lesson is now a 90%)
   - 3 days late: 20% penalty
   - 4 days late: 30% penalty
   - 5 days late: 40% penalty
   - 6 days late: 50% penalty
   - More than 6 days late: 100% penalty

Note: this penalty structure is only for the Hawkes lessons

You need to figure out blocks of time throughout the week that you plan to work on the lessons. Do NOT wait until the due date to try and complete the lesson or lessons due that day. Any Hawkes work done after August 16th will not count.

You will have online exams (WebTests 1 and 2) and face-to-face exams (the midterm exam and the final exam) throughout the semester. You will always want to make sure to complete the lessons being tested on each exam ahead of time. You will need to allow time to digest the material and study the lessons to do well on these exams.

Exams:

Both the midterm and final exam are face-to-face exams. Department policy requires that you bring and be recognizable from either your SFASU Student ID or another valid photo ID before you are permitted to take each exam. If you are not on campus, email me as soon as possible. You can take your exams at an approved testing location. The testing location must be an actual testing center. Most community colleges and universities have testing centers. Both the midterm and final exam will be similar to the WebTests. Note that the face-to-face exams will be written exams, and not completed on the computer. You will be provided with a formula sheet for both face-to-face exams.

Miscellaneous:

- It is your responsibility to keep up with all due dates for the course.
- It is your responsibility to check D2L (https://d2l.sfasu.edu/) on a regular basis. You are responsible for anything posted on D2L or on Hawkes.
I like to use D2L for storage and communication. I will store course files on D2L like the syllabus, formula sheet, tables, and practice exams. I put announcements on the D2L newsfeed. You will spend most of your time in this course on the Hawkes Learning System.

The course ID needed for Hawkes is SFASU STAT.

Email is the easiest way to get in touch with me. You can call my office during office hours but email is best especially outside of office hours. If you email me during the school week and you do not get a response within 24 hours, resend the email. It is possible that it was sent to junk mail. I want to make sure that I respond to your questions quickly so that you do not get behind. My email address is mmcook@sfasu.edu.

If you are retaking this online course, you do not need to buy a new access code.

**WebTest 1:**
- WebTest 1 is to be completed online through Hawkes
- WebTest 1 covers chapters 1-4 (see schedule)
- WebTest 1 is due July 25th at 11:59 pm
- WebTest 1 will open on July 16th and it will close on July 25th at 11:59 pm
- You have one attempt at WebTest 1
- Check the d2l newsfeed for detailed WebTest instructions.

**Midterm Exam:**
- The midterm is a face to face exam that will take place on Wednesday, July 31st in Kennedy Auditorium (3 pm – 7 pm). **This is exam is come and go, you DO NOT need to be there the full 4 hours.**
- If you have a time conflict that does not allow you to take your exam during the time slot, please let me know in advance so that you can take your exam early.
- The midterm covers all lessons covered from 1.1 through 8.3b (see schedule)
- You must bring a picture id (student id or driver’s license)
- Don’t forget your calculator
- If you are taking the midterm at a testing center, make sure that I have approved the testing center far in advance.
- You will have a formula sheet and tables provided to you for the midterm exam. Check d2l to know what the formula sheet and tables will look like.

**WebTest 2:**
- WebTest 2 is to be completed online through Hawkes
- WebTest 2 covers all lessons covered from 8.4a – 11.4c (see schedule)
- WebTest 2 is due August 14th at 11:59 pm
- WebTest 2 will open on July 16th and it will close on August 14th at 11:59 pm
- I highly recommend not waiting until the due date to complete this WebTest.
- You have one attempt at WebTest 2
- Check the d2l newsfeed for detailed WebTest instructions.

**Final Exam:**
- The final exam is a face to face exam that will take place on Friday, August 16th in Kennedy Auditorium (3 pm – 7 pm). **This is exam is come and go, you DO NOT need to be there the full 4 hours.**
- If you have a time conflict that does not allow you to take your exam during the time slot, please let me know in advance so that you can take your exam early.
- The final covers all lessons covered in this course (see schedule)
- The final exam is comprehensive and mandatory
- You must bring a picture id (student id or driver’s license)
- Don’t forget your calculator
- If you are taking the final exam at a testing center, make sure that I have approved the testing center far in advance.
- You will have a formula sheet and tables provided to you for the midterm exam. Check d2l to know what the formula sheet and tables will look like.
**Course Calendar / Outline:**

- **Descriptive Statistics [CO 1, 2, 3]**
  - Graphical Display of Data
  - Measures of Location
  - Measures of Dispersion
  - Approximate time spent: 10%

- **Probability [CO 1, 2, 3]**
  - Classical Probability
  - Probability Laws (Rules)
  - Counting Techniques
  - Approximate time spent: 20%

- **Probability Distributions [CO 1, 2, 3]**
  - Random Variables
  - Discrete Distributions
    - Binomial Distribution
    - Hypergeometric Distribution
  - Continuous Distributions
    - Uniform Distribution
    - Normal Distribution
  - Approximate time spent: 20%

- **Sampling Distributions [CO 1, 2, 3]**
  - Random Samples
  - Central Limit Theorem
  - Approximate time spent: 10%

- **Statistical Inference [CO 1, 2, 3]**
  - Estimation
    - Point Estimation
    - Interval Estimation
  - Hypothesis Testing
  - Approximate time spent: 30%

- **Linear Regression [CO 1, 2, 3]**
  - Approximate time spent: 5%

- Explicit instruction in Critical Thinking, Communication and Empirical and Quantitative Reasoning is in addition to implicit instruction, modeling and practice that occur daily in the discussion of limits and continuity, derivatives and antiderivatives, applications of derivatives and definite integration. This explicit instruction includes explanation of solving mathematical problems by thinking critically, communicating logically ordered solutions with complete and correct notation, and applying empirical or quantitative skills as appropriate to the problem.
  - Approximate time spent: 5%

The following is an excerpt from SFA Policy 5.4:

*The federal definition of a credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates:*

1. **Not less than one hour of classroom or direct faculty instruction and a minimum of two hours out-of-class student work each week for approximately fifteen weeks for one semester or trimester hour of credit, or 10 to 12 weeks for one quarter hour of credit, or the equivalent amount of work over a different amount of time, or;**

2. **At least an equivalent amount of work as outlined in item 1 above for other academic activities as established by the institution including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.**

To this end, all students in courses offered by the Department of Mathematics and Statistics that wish to be successful should plan to spend a minimum of two hours outside of class for every credit hour associated with this course. Expected activities to be completed in the time outside of class include reviewing notes from previous class meetings, reading assigned course resources, completing all assigned exercises and projects, and performing periodic assessment preparation.

See [http://www2.sfasu.edu/math/docs/syllabi/MTH220Syllabus.pdf](http://www2.sfasu.edu/math/docs/syllabi/MTH220Syllabus.pdf) for elements common to all sections.
