I. Course Description:

Art Appreciation (ARTS 1301) - For the non-art major, focusing on Western cultural history through the visual arts. Approved for general education requirement.
II. Intended Learning Outcomes/Goals/Objectives/General Education Core Curriculum:

The purpose of this course is to provide students with an introduction to the visual arts. The course will deal with the nature of art questioning the definition of art, examining the reasons why artists and cultures create art, and studying various critical theories related to the criticism of art. Students will study the formal components of art by studying the visual elements and design principles of two and three dimensional art works. Students will also learn about the processes and tools used in various art disciplines. The second half of the semester will chronologically explore the various schools of art and cultures in art history.

A. Exemplary Education Objectives:

Objective 2:

To understand those works as expressions of individual and human values within a historical and social context.

Objective 5:

To articulate an informed personal reaction to works in the arts and humanities.

B. Student Learning Outcomes:

One of the main objectives of this course is for students to become more comfortable with the subject of art. Students who have very little experience dealing with the process of making art or studying art history should benefit from this course greatly. Through the assigned readings, lecture notes, term quizzes, and written assignments (art survey and an essay assignment), students will develop confident opinions and interpretations about art. Assigned art works will be analyzed by studying the formal art elements, studying art media and considering the cultural and historical relevance.

By the end of the semester, students will be able to:

• use vocabulary specific to the visual art world through an assigned essay discussing art criticism, art history and issues important to the modern and postmodern art worlds
• identify and understand the importance of specific works of art, artists and art movements through quizzes
• create educated interpretations of art works beyond simple personal likes and dislikes through an essay assignment
• understand the various purposes and reasons for creating art through an essay assignment

C. General Education Core Curriculum
The Texas Higher Education Coordinating Board has identified six core learning objectives: Critical Thinking Skills, Communication Skills, Empirical and Quantitative Skills, Teamwork, Personal Responsibility, and Social Responsibility. SFA is committed to the improvement of its general education core curriculum by regular assessment of student performance on these six objectives.

By enrolling in ARTS 1301: Art Appreciation you are also enrolling in a Core Curriculum Course that fulfills the Communication Skills-Written requirement.

General Education Core Curriculum Objectives/Outcomes:
Core Objective:
Communication Skills-Written
Definition:
To include effective development, interpretation and expression of ideas through written communication

III. Course Assignments, Activities, Instructional Strategies, Use of Technology:
Assignments:

The assignments will be on-line through the course. Students should look at and print out the Course Timeline for all of the reading assignments and on-line assignments. It is the student’s responsibility to keep up with the due dates for these assignments. Computer problems, technical difficulty, internet problems or not having the textbook are not valid reasons for excusing late work. All assignments turned in past the assigned due dates are considered late and will have points deducted for lateness. No exceptions!

It is also the student’s responsibility to follow the directions of all assignments including the composition of the assignment and the format in which the assignment is submitted. All assignments must be completed in the assignment tool they are originally assigned. Assignments may not be submitted through e-mail. It is extremely important that students completely read through the required
reading assignments and also through the lecture notes in the learning modules of the course in order to properly complete written assignments (art survey and the essay assignment) and term quizzes.

**Web Browsers:**

PLEASE NOTICE: Brightspace has discontinued support for Internet Explorer. This means you will be unable to use Internet Explorer to access Brightspace. For the best possible experience in Brightspace, it is recommended that you use one of the following supported web browsers:

*Google Chrome
*Mozilla Firefox
*Apple Safari

**Submitting Written Assignments to the Dropbox:**

Students should always follow the directions listed in lecture notes and on assignment pages for any of the type of work submitted. All written assignments (art survey and the essay assignment) should be completed as a Microsoft Word document or as a PDF file. Students should make sure to save a back-up copy of their work in case there is a problem when submitting the assignments. It is the student’s responsibility to make sure that their work has been submitted successfully to the Dropbox. **It is extremely important that students only complete the art survey assignment and the essay assignment as a Microsoft Word document or as a PDF file because many other word processing programs and formats will not work in Brightspace!** If I have any technical problems viewing a student’s art survey assignment or essay assignment that has been submitted to the Dropbox in Brightspace, I will contact the student through the Brightspace e-mail within 48 hours of the work being submitted. It is then the student’s responsibility to re-submit the work based on the instructor’s instructions. If the student does not re-submit the work based on the instructor’s instructions, the student will receive a 0 grade for the assignment. Students should contact the Brightspace student support when experiencing any problems submitting written assignments to the Brightspace Dropbox.

**Citing Sources, Originality and Plagiarism:**

*All work students complete for this course should be their own original work.* If you do use a source for any written assignments in this course, you will need to properly cite the sources used (this includes the textbook). You may use either the MLA or APA styles for citation.

It is important that the quality of all written work submitted through this course
is at a college level. This includes proper citation, grammar and spelling. If you would like additional help crafting your essay before submitting your essay assignment, SFA's AARC's Writing Center and Online Writing Lab (OWL) can help you. Students may submit assignments to the OWL for feedback at any time. Click on the link below for more information about the AARC and the help they offer.

**How Turnitin works:** The essay assignment will be graded using the web resource *Turnitin*. When students submit the essay assignment, the essay is automatically submitted to *Turnitin*. This web resource compares the content of the essay with other papers and web resources. This includes the papers submitted by other students (in this class, in other classes from SFA and other universities, and in classes from previous semesters from SFA and other universities) as well as other web resources. *Turnitin* completes a *Turnitin* Similarity report that lists if any content in the student's paper is from another source and also provides the name of the original source. This *Turnitin* Similarity report is available to me as the instructor and also the student after the essay has been submitted.

**Plagiarism and Cheating:** The goal of writing assignments is for students to share their own original ideas and observations. Students must also respect the original ideas and observations of other authors. Plagiarism is not tolerated in this course and is considered cheating. *If a student is caught cheating on any assignment, they will receive a 0 grade on the assignment. If a student is caught cheating more than once, the student will automatically fail the course*

*Please review the complete university policies of *Academic Integrity* also listed in your syllabus.

**IV. Evaluation and Assessments:**

**Grades and Late Work:**

**The essay assignment, Part Two: Essay- “Evaluating Art,”** is worth 40 points. I will accept late work for essay assignments up to 3 days after the assignment due date with the following points deducted for lateness from the assignment grade: (1 day late= -4 points; 2 days late= -5 points; 3 days late= -6 points). The essay assignment must be completed by the due dates listed in the Course Timeline. There are no make-up essay assignments in this course.
