School of Human Sciences  
HMSC 4375.501 Human Sciences Content  
Fall 2020

Instructor: Dr. Mary Olle  
Office: HMS N 106 B  
Office Phone: 936-468-1872  
Other Contact Information: 936-468-4502  
Prerequisites: None  
Course Time & Location: Online  
August 24 – Dec 11  
Office Hours: M 12:00 – 3:00 pm, T 3:00 – 4:00 pm F 10:00 – 11:00 am F2F and by ZOOM appointment  
Credits: 3  
Email: ollemary@sfasu.edu  
Please correspond through D2L; response to emails will be within 24 - 48 hrs. during regular hours.

I. Course Description:
This independent study course is an in-depth study of AAFCS Standards in preparation for AAFCS content exam. Pre-service teachers are required to pass the content exam prior to student teaching. This course consists of practice exams reviewing course content presented in student’s major courses of study related to the AAFCS Standards. This fully online course meets for 15 weeks and culminates with students’ registering for the Family and Consumer Sciences (FCS) Content Exam. This course consists of practice exams reviewing course content presented in student’s major courses of study related to the AAFCS Standards. This fully online course meets for 15 weeks and culminates with students’ registering for the Family and Consumer Sciences (FCS) Content Exam.

Justification: This course consists of practice exams reviewing course content presented in student’s major courses of study related to the AAFCS Standards. This fully online course meets for 15 weeks and culminates with students’ registering for the Family and Consumer Sciences (FCS) Content Exam. This course consists of practice exams reviewing course content presented in student’s major courses of study related to the AAFCS Standards. This fully online course meets for 15 weeks and culminates with students’ registering for the Family and Consumer Sciences (FCS) Content Exam.

James I. Perkins College of Education Diversity Statement is found at the following link: http://coe.sfasu.edu/about-us/

II. Intended learning Outcomes/Goals/Objectives:
The Conceptual Framework and the Vision, Mission, and Goals of the James I. Perkins College of Education describe a shared vision and purpose for the SFASU College of Education. It provides coherence for our curriculum and assessments. It is linked to the University vision and values, and describes how those values translate into knowledge, skills and dispositions in the College of Education. It is this philosophy and vision that helps to distinguish our graduates from those of other institutions.

This course supports the mission of the College of Education “to prepare competent, successful, caring and enthusiastic professionals dedicated to responsible service, leadership, and continued professional and intellectual development.”
THE COLLEGE OF EDUCATION VALUES AND GOALS ARE:
1. Academic excellence through critical, reflective, and creative thinking
2. Life-long learning
3. Collaboration and shared decision-making
4. Openness to new ideas, to cultural diverse people, and to innovation and change
5. Integrity, responsibility, diligence, and ethical behavior
6. Service that enriches the community

Program Learning Outcomes
Learning Outcome #1
The student will display professional dispositions (academic excellence, life-long learning, collaboration, openness, integrity, and service) related to the field of Human Sciences

Learning Outcome #2
The student will exhibit the professional behavior, strong communication skills, a professional image, a good work ethic and adequate preparation for employment in her/her specific discipline) expected in the field of Human Sciences.
- Demonstrate knowledge of tools, equipment, and supplies used in human sciences and related occupations
- Research standards for professional oral and written communication as related to human sciences content and delivery systems

Student Learning Outcomes (AAFCS Competencies)
- Knows and understands historic and current events, public policies, and research results and their effect upon the family, community, and work environment.
- Is able to describe strategies to anticipate to changing employment conditions.
- Is able to communicate the impact of changing demographics, family structure, and technology on career choices.
- Is able to apply academic skills in the context of life and work experiences related to family and consumer sciences.
- Is able to analyze the influence of written, verbal and nonverbal communication skills on the success of the home and workplace.
- Is able to develop goals and identify resources for meeting the special needs of individuals and families across the life span.

III. Course Assignments, Activities, Instructional Strategies, use of Technology:
Method of Instruction
1. In preparation for successful completion of the AAFCS Content Exam, students will review previous coursework material, textbooks, websites, lectures, Family & Consumer Sciences Examination Study Guide, and suggested resources related to the specific AAFCS Standard.

2. Students will take practice exams until a minimum of 90% is achieved on each exam. The number of exams range from three to eight and is determined by the type of certification to be earned.
   FCS Composite Certification – Standards 1 – 8
   FCS Human Development and Family Studies Certification – Standards 1 – 3
FCS Hospitality, Nutrition, and Food Science Certification – Standards 1, 4, 5

IV. Evaluation and Assessments (Grading):
The exams may be taken in any order and will be retaken until a score of 90% is achieved on each required exam.
Practice Content Exam
Course grade will be determined by the test score.
100% - 90% = A
89% - 80% = B
79% = C

V. Tentative Course Outline/Calendar:
Scheduling of the practice HMSC 4375 Content Exam should take into consideration the examination windows and application deadlines. It is suggested the practice exam to be scheduled at least two weeks prior to application deadlines to allow ample time for test scoring and processing.

VI. Readings:
Suggested Readings, Websites, and Professional Organizations
AAFCS Website
http://www.aafcs.org/CredentialingCenter/achievement.asp

VII. Course Evaluations:
“Near the conclusion of each semester, students in the James I. Perkins College of Education electronically evaluate courses taken within the COE. Evaluation data is used for a variety of important purposes including: 1. Course and program improvement, planning, and accreditation; 2. Instruction evaluation purposes; and 3. Making decisions on faculty tenure, promotion, pay, and retention. As you evaluate this course, please be thoughtful, thorough, and accurate in completing the evaluation. Please know that the COE faculty is committed to excellence in teaching and continued improvement. Therefore, your response is critical!

In the James I. Perkins College of Education, the course evaluation process has been simplified and is completed electronically through MySFA. Although the instructor will be able to view the names of students who complete the survey, all ratings and comments are confidential and anonymous, and will not be available to the instructor until after final grades are posted.

VIII. Student Ethics and Other Policy Information: Found at
http://www.sfasu.edu/policies/

Class Attendance and Excused Absence: Policy 6.7

Attendance:
This course is offered in online format; student is responsible for scheduling test and review dates in order to complete required exams.

Exam Policy:
Exam dates and time are established by the student and instructor.

Academic Accommodation for Students with Disabilities: Policy 6.1 and 6.6
To obtain disability related accommodations, alternate formats and/or auxiliary aids, students with disabilities must contact the Office of Disability Services (ODS), Human Services Building, and Room 325, 936-468-3004 as early as possible in the semester. Once verified, ODS will notify the course instructor and outline the accommodation and/or auxiliary aids to be provided. Failure to request services in a timely manner may delay your accommodations. For additional information, go to http://www.sfasu.edu/disabilityservices/.

Student Academic Dishonesty: Policy 4.1
Abiding by university policy on academic integrity is a responsibility of all university faculty and students. Faculty members must promote the components of academic integrity in their instruction, and course syllabi are required to provide information about penalties for cheating and plagiarism, as well as the appeal process.

Definition of Academic Dishonesty
Academic dishonesty includes both cheating and plagiarism. Cheating includes, but is not limited to:
- using or attempting to use unauthorized materials on any class assignment or exam;
- falsifying or inventing of any information, including citations, on an assignment;
- helping or attempting to help another in an act of cheating or plagiarism.

Plagiarism is presenting the words or ideas of another person as if they were one's own. Examples of plagiarism include, but are not limited to:
- submitting an assignment as one's own work when it is at least partly the work of another person;
- submitting a work that has been purchased or otherwise obtained from the Internet or another source;
- incorporating the words or ideas of an author into one's paper or presentation without giving the author credit.

Penalties for Academic Dishonesty
Penalties may include, but are not limited to, reprimand, no credit for the assignment or exam, re-submission of the work, make-up exam, failure of the course, or expulsion from the university.

Student Appeals
A student who wishes to appeal decisions related to academic dishonesty should follow procedures outlined in Academic Appeals by Students (6.3).

Withheld Grades: Policy 5.5
At the discretion of the instructor of record and with the approval of the academic unit head, a grade of WH will be assigned only if the student cannot complete the course work because of unavoidable circumstances. Students must complete the work by the deadline set by the instructor of record, not to exceed one calendar year from the end of the semester in which they receive a WH, or the grade automatically becomes an F, except as allowed through policy [i.e., Military Service Activation (6.14)]. If students register for the same course in future semesters, the WH will automatically become an F and will be counted as a repeated course for the purpose of computing the grade point average.

Student Code of Conduct: Policy 10.4
Disruptive Behavior--Interference or disruption of students, faculty, administration, staff, the educational mission, or routine operations of the university is prohibited. Such activity includes, but is not limited to, behavior in a classroom or instructional program that interferes with the instructor or presenter’s ability to conduct the class or program, or the ability of others to profit from the class or program. To remain in the vicinity of activity that is disrupting normal university functions when requested to leave by a university official is prohibited. The instructor shall have full discretion over what behavior is appropriate/inappropriate in the classroom. Students who do not attend class regularly or who perform poorly on class projects/exams may be referred to the Early Alert Program at SFA.

Masks (cloth face coverings) must be worn over the nose and mouth at all times in this class and appropriate physical distancing must be observed. Students not wearing a mask and/or not observing appropriate physical distancing will be asked to leave the class. All incidents of not wearing a mask and/or not observing appropriate physical distancing will be reported to the Office of Student Rights and Responsibilities. Students who are reported for multiple infractions of not wearing a mask and/or not observing appropriate physical distancing may be subject to disciplinary actions.

Additional Information Specific to Educator Preparation (only add if educator preparation):

Code of Ethics for the Texas Educator:

The Texas educator shall comply with standard practices and ethical conduct toward students, professional colleagues, school officials, parents, and members of the community and shall safeguard academic freedom. The Texas educator, in maintaining the dignity of the profession, shall respect and obey the law, demonstrate personal integrity, and exemplify honesty and good moral character. The Texas educator, in exemplifying ethical relations with colleagues, shall extend just and equitable treatment to all members of the profession. The Texas educator, in accepting a position of public trust, shall measure success by the progress of each student toward realization of his or her potential as an effective citizen. The Texas educator, in fulfilling responsibilities in
the community, shall cooperate with parents and others to improve the public schools of
the community. This chapter shall apply to educators and candidates for certification.

Please go to TAC 247.2 – Code of Ethics and Standard Practices for Texas
Educators. This can be found at https://texreg.sos.state.tx.us/public/readtac$ext.ViewTAC?tac_view=4&ti=19&pt=7&ch=247&rl=Y.

To complete Certification/Licensing Requirements in Texas related to public
education and other professional settings, you will be required to:

1. Candidates must undergo a criminal history background check prior to clinical
teaching and prior to employment as an educator. The public school campuses
are responsible for completing the criminal background check. A person who is
enrolled or planning to enroll in a State Board for Educator Certification-approved
educator preparation program or planning to take a certification examination may
request a preliminary criminal history evaluation letter regarding the person’s
potential ineligibility for certification due to a conviction or deferred adjudication
for a felony or misdemeanor offense.

A Preliminary Criminal History Evaluation is a non-mandatory, non-binding
evaluation of an individual’s self-reported criminal history. In addition, the
agency obtains your name-based Texas criminal history information. The service
is provided to the requestor for a non-refundable fee. The requestor will receive
an evaluation letter by email from agency staff advising of potential ineligibility for
educator certification. You are eligible to request a Preliminary Criminal History
Evaluation if:

- You enrolled or planning to enroll in an educator preparation program or
- You are planning to take a certification exam for initial educator
certification, and
- You have reason to believe that you may be ineligible for educator
certification due to a conviction or deferred adjudication for a felony or
misdemeanor offense.

You are not eligible for a preliminary evaluation of your criminal history if you do
not have a conviction or deferred adjudication for a felony or misdemeanor
offense.

In addition, you must complete the fingerprinting process when you apply for
certification. Participation in the evaluation does not preclude you
from submitting to a national criminal history review at the time you apply for your
educator certification. Your criminal history will be reviewed and you may be
subject to an investigation based on that criminal history, including
any information you failed to submit for evaluation. Additional information can be
found at https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_Histo
ry_Evaluation-FAQs/.
2. Provide one of the following primary ID documents: passport, driver’s license, state or providence ID cards, a national ID card, or military ID card to take the TEES exams (additional information available at http://www.tx.nesinc.com/PageView.aspx?f=GEN_Tests.html. YOU must provide legal documentation to be allowed to take these mandated examinations that are related to certification/licensing requirements in Texas. If you do not have legal documentation, you may want to reconsider your major while at SFASU.

3. Successfully complete state mandated a fingerprint background check. If you have a history of criminal activity, you may want to reconsider your major while at SFASU.

For further information, contact the Office of Assessment and Accountability at 936-468-1282 or edprep@sfasu.edu.

IX. Other Relevant Course Information:

Students with Disabilities
To obtain disability related accommodations, alternate formats and/or auxiliary aids, students with disabilities must contact the Office of Disability Services (ODS), Human Services Building, and Room 325, 468-3004/468-1004 (TDD) as early as possible in the semester. Once verified, ODS will notify the course instructor and outline the accommodation and/or auxiliary aids to be provided. Failure to request services in a timely manner may delay your accommodations. For additional information, go to http://www.sfasu.edu/disabilityservices/

Academic Integrity
Academic integrity is a responsibility of all university faculty and students. Faculty members promote academic integrity in multiple ways including instruction on the components of academic honesty, as well as abiding by university policy on penalties for cheating and plagiarism.

Definition of Academic Dishonesty

Academic dishonesty includes both cheating and plagiarism. Cheating includes but is not limited to (1) using or attempting to use unauthorized materials to aid in achieving a better grade on a component of a class; (2) the falsification or invention of any information, including citations, on an assigned exercise; and/or (3) helping or attempting to help another in an act of cheating or plagiarism. Plagiarism is presenting the words or ideas of another person as if they were your own. Examples of plagiarism are (1) submitting an assignment as if it were one’s own work that has been purchased or otherwise obtained from an Internet source or another source; and (2) incorporating the words or ideas of an author into one’s paper without giving the author due credit.

Please read the complete policy at http://www.sfasu.edu/policies/academic_integrity.asp
Withheld Grades Semester Grades Policy (A-54)
Ordinarily, at the discretion of the instructor of record and with the approval of the academic chair/director, a grade of WH will be assigned only if the student cannot complete the course work because of unavoidable circumstances. Students must complete the work within one calendar year from the end of the semester in which they receive a WH, or the grade automatically becomes and F. If students register for the same course in future terms the WH will automatically become an F and will be counted as a repeated course for the purpose of computing the grade point average.

IX. Other Relevant Course Information:

University Policies and Information:
This class will adhere to all applicable university policies. Students should read and be familiar with policies in the General Bulletin.

AAFCS Competencies Met

AAFCS conducts a national credentialing program for family and consumer sciences professionals. The Certified in Family and Consumer Sciences (CFCS) professional certification involves three components: specified prerequisites, a standards-based examination system, and continuing professional development. The Council for Certification (CFC), an autonomous unit within the AAFCS association, is charged with assuring the integrity and high standards of its professional certification program. The Council is responsible for developing criteria, standards, policies, and procedures that govern the national certification program for Family and Consumer Sciences professionals.

AAFCS offers standards-based examinations that test the subject matter competence of professionals who plan to practice in family and consumer sciences or one of the areas within family and consumer sciences. Three examinations are currently offered. They are:
• Family & Consumer Sciences (FCS) – Composite Examination
• FCS – Human Development & Family Studies (HD&FS) Concentration Examination
• FCS – Hospitality, Nutrition, & Food Science (HN&FS) Concentration Examination

The AAFCS/CFC national examinations align with the competency standards and the structure of educator certification for family and consumer sciences teachers adopted by the State Board of Educator Certification (SBEC) in Texas. Consequently, SBEC has authorized use of the AAFCS/CFC examination system as the basis for establishing content area competency required for the three family and consumer sciences educator certificates available in Texas beginning in 2004. Passing one of the AAFCS/CFCS examinations is a requirement for the national professional certification in family and consumer sciences, known as Certified in Family and Consumer Sciences (CFCS). On the basis of successful performance on one of the exams, persons obtaining family and consumer sciences Texas teacher certification will have satisfied one of the requirements for obtaining the national CFCS credential. Becoming a CFCS, CFCS-HDFS, or CFCS-HNFS provides an important statement to others of your commitment to professionalism. Earning the right to use the credential designations after your name affirms your competence in family and consumer sciences and your commitment to continuing
professional development. It assures others that you have current knowledge, skills, and abilities that enable you to improve the quality and standards of individual and family life through education, research, cooperative programs, and public information. See www.aafcs.org for more information about achieving

**Family & Consumer Sciences (FCS) Standards**

**Standard 1 - Integration of Foundations.**
The Family and Consumer Sciences Professional integrates the foundation knowledge and skills of family and consumer sciences to prepare students/clients for personal, family, community, and career roles.

**Standard 1 Competencies:**
Knowledge: What Family and Consumer Sciences Professionals Know. The entry-level Family and Consumer Sciences Professional knows and understands:
- cultural, economic, and gender influences on families, work, and society;
- the interrelationships among career decisions and personal/family life, including parenting and care giving;
- historical and current events, public policies, and research results and their effect upon the family, community, and work environment; and
- the management processes, resources, and procedures required for maintaining an effective family and consumer sciences program.

Application: What Family and Consumer Sciences Professionals Can Do. The entry-level Family and Consumer Sciences Professional is able to:
- describe effective methods and technologies to secure, maintain, and terminate employment;
- provide opportunities for students/clients to develop and assess leadership and teamwork skills that contribute to effectiveness in family, work, and community settings;
- analyze the impact of career choices on personal lifestyle and income;
- guide students/clients to set career and educational goals based on personal interest and skills;
- describe strategies to anticipate and adapt to changing employment conditions;
- implement Family, Career, and Community Leaders of America (FCCLA) programs and projects to promote students/clients’ growth, leadership development, application of curriculum knowledge and skills, community service, and career development;
- communicate effectively with parents and community members to increase the visibility of the family and consumer sciences program to supervise career-connection experiences and work-based learning programs;
- participate in advisory committee activities and industry partnerships; use management strategies to supervise and promote the progress of students/clients in work-based learning experiences, and coordinate and evaluate school-based and work-based learning;
- apply academic skills in the context of life and work experiences related to family and consumer sciences; and activities;
- use multiple viewpoints and perspectives to appraise instructional content and activities;
- use career-connection experiences, work-based learning, and other real-world applications to promote students/clients’ problem-solving skills, management techniques, and performance of self-assessments and evaluations;
- evaluate interests, abilities, and personal priorities related to employment;
- explore the decision-making process associated with career selection, including personal satisfaction and the choice of family-supportive employers;
• identify, locate, and use resources that assist in educational and career planning;
• communicate the impact of changing demographics, family structure, and technology on career choices;
• explore how economic factors and personal health affect career selection;
• analyze the influence of written, verbal, and nonverbal communication skills (e.g., conflict resolution, negotiation) on success in the home and workplace;
• explore workplace policies, benefits, business ethics, and wellness programs (e.g., disabilities, substance abuse); and
• analyze issues and legislation that support individuals, families, and communities.

Standard 2 - Family Studies and Human Services
The Family and Consumer Sciences Professional understands the areas of personal development, relationships, and management of work and family to enhance quality of life across the life span, and understands career opportunities in family studies and human services.

Standard 2 Competencies:
Knowledge: What Family and Consumer Sciences Professionals Know. The entry-level Family and Consumer Sciences Professional knows and understands:
• personal and family development concepts;
• factors contributing to the development of effective relationships;
• management tools and strategies for successfully balancing work and family life;
• societal, cultural, demographic, gender, economic, and environmental issues affecting individuals and families across the life span;
• career and entrepreneurial opportunities in family studies and human services; and
• societal attitudes about the roles of older adults within a culture.

Application: What Family and Consumer Sciences Professionals Can Do. The entry-level Family and Consumer Sciences Professional is able to:
• analyze factors (e.g., family, health, peers) influencing personal development;
• evaluate practices and strategies for meeting personal, physical, emotional, intellectual, and social needs of individuals across the life span;
• analyze the basic functions and responsibilities of effective family members, including members of multigenerational families and those in caregiver roles;
• evaluate factors that strengthen the family and promote wellness;
• explain the components of successful relationships (e.g., friendship, dating, marriage);
• evaluate how relationships affect personal and family development across the life span;
• analyze behaviors, including appropriate responses to peer pressure and authority figures, that contribute to satisfying interpersonal relationships across the life span;
• evaluate communication techniques that enhance interpersonal relationships;
• analyze the relationship between culture and communication patterns;
• demonstrate communication techniques that foster effective responses to inappropriate behavior;
• determine management strategies for coping with needs and crises (e.g., emotional, health, financial) experienced by individuals and families over the life span;
• analyze the relationships among decision making, responsibility, independence, and quality of life;
• demonstrate how conflict management strategies are used in community, work, school, and family related situations;
• analyze practices that promote personal and family health and safety;
• analyze the effects of environment and technology on the workplace, workforce, and family;
• describe the importance of ethical practices and behaviors in providing services for individuals across the life span;
• evaluate individual and family health care options, resources, and services;
• develop goals and identify resources for meeting the special needs (e.g. social, physical, economic) of individuals and families across the life span;
• assess support services and resources available to families;
• analyze the effects of an aging population on individuals, family, and society;
• evaluate the effects of public policy, resource use, and conservation on individual and family well being;
• analyze employment and entrepreneurial opportunities in family studies and human services; and
• determine the transferable skills necessary to function effectively in family, community, and wage-earner roles.

The Family and Consumer Sciences Professional understands human growth and development, parent/guardian/educator roles and responsibilities, and career opportunities in human development, education, and services.

Standard 3 Competencies:
Knowledge: What Family and Consumer Sciences Professionals Know. The entry-level Family and Consumer Sciences Professional knows and understands:
• physical, social, ethical, emotional, and cognitive development of humans from conception through late adulthood;
• parent/guardian/educator roles and responsibilities related to human growth and development;
• factors that affect child and adolescent development (e.g., social, cultural, and environmental); and
• entrepreneurship and career opportunities in human development, education, and services.

Application: What Family and Consumer Sciences Professionals Can Do. The entry-level Family and Consumer Sciences Professional is able to:
• explain the elements of proper prenatal care and its significance to a child’s development and well-being throughout life;
• analyze the physical, social, emotional, and cognitive development of children and adolescents;
• evaluate activities and strategies for assisting the development of children;
• analyze the role of play in the development of children and adolescents;
• analyze factors involved in the decision whether to become a parent, and discuss the effects of the decision on individuals, families, and society;
• evaluate the effects of parenting roles and practices on the development of children and adolescents;
• assess guidance techniques in family, child care, and educational settings;
• analyze contributing factors, effects, prevention, and interventions related to the abuse and neglect of children and adolescents;
• assess factors and strategies that promote the overall health and well-being of individuals in family, childcare, intergenerational, and educational settings;
• evaluate the effects of public policy on the well-being of children and adolescents in families, group care, and educational settings;
• discuss the effects of technology on child and adolescent development, education, and services;
• analyze employment and entrepreneurial opportunities in child and adolescent development, education, and services; and
• describe management functions, appropriate business practices, legal issues, professional responsibilities, and ethics in the operation of quality child care programs.

Standard 4 - Nutrition, Wellness, and Food Science.
The Family and Consumer Sciences Professional understands the principles of food science, food technology, and nutrition and their relationships to growth, development, health, and wellness; applies this understanding to support informed decision-making that promotes good health; and understands career opportunities in nutrition, wellness, and food science.

Standard 4 Competencies:
Knowledge: What Family and Consumer Sciences Professionals Know. The entry-level Family and Consumer Sciences Professional knows and understands:
• the functions and sources of nutrients;
• the role of nutrition in wellness and disease;
• the relationship of digestion, absorption, and metabolism to optimal health;
• current nutrition and dietary guidelines for each phase of the life span;
• the relationship of activity levels and caloric intake to health and wellness, including weight management;
• employment and entrepreneurial opportunities in nutrition, wellness, and food science and technology;
• standards of quality related to food selection;
• food preparation and meal management techniques;
• factors that affect food quality and nutrient retention;
• the effects of special dietary needs in meal planning;
• global factors that affect the production, supply, and distribution of food;
• the effects of technology on food product development, processing, packing, and availability;
• cultural influences on food preferences and decisions; and
• effects of physical environment (e.g., seasons, availability) on nutritional planning.

Application: What Family and Consumer Sciences Professionals Can Do. The entry-level Family and Consumer Sciences Professional is able to:
• evaluate the effects of public policy on food, nutrition, and health;
• analyze entrepreneurial opportunities in nutrition, wellness, and food service and technology;
• apply various dietary guidelines in meal planning to meet nutrition and wellness needs throughout the life span;
• evaluate the accuracy, reliability, validity, and use of nutrition and food science information and research;
• evaluate nutrition guides, food labels, and other sources of information related to health and wellness;
• analyze the effects of food choices on health and wellness;
• describe food-borne illnesses, their causes, and prevention methods;
• demonstrate appropriate meal management techniques in the selection, purchase, and preparation of food;
• explain safety and sanitation procedures related to food storage, transportation, preparation, and service;
• demonstrate the effects of chemical reactions, temperature, manipulation, and environment on food quality and retention of nutrients;
• assess the effects of diet foods, food additives, and eating disorders on wellness;
• design strategies that meet the health and nutrition requirements of individuals with special needs;
• evaluate food science and nutrition research data and conclusions for validity and reliability;
• explain the effects of genetically engineered foods on consumers’ health and safety; and
• evaluate the social, psychological, and cultural aspects of food and dining (e.g., family, friends, business).

Standard 5 - Food, Lodging, and Hospitality.
The Family and Consumer Sciences Professional understands the food, lodging, and hospitality industries, and understands career opportunities in the food, lodging, and hospitality industries.

Standard 5 Competencies:
Knowledge: What Family and Consumer Sciences Professionals Know. The entry-level Family and Consumer Sciences Professional knows and understands:
• the organizational structure of the food, lodging, and hospitality industries;
• the relationship of product, preparation, and delivery service to success in the food, lodging, and hospitality industries;
• principles and procedures of health, safety, sanitation, and environmental protection;
• management functions and structures in food, lodging, and hospitality industries;
• employment and entrepreneurial opportunities in food, lodging, and hospitality industries;
• the impact of public policy on food, lodging, and hospitality industries;
• industry standards for food, lodging, and hospitality industries;
• job-related competencies and skills needed for employment in food, lodging, and hospitality industries;
• the impact of marketing and public relations techniques in food, lodging, and hospitality industries; and
• the role of quality assurance in food, lodging, and hospitality industries.

Application: What Family and Consumer Sciences Professionals Can Do. The entry-level Family and Consumer Sciences Professional is able to:
• demonstrate health, safety, sanitation, and environmental protection procedures used in food, lodging, and hospitality industries;
• demonstrate the use of supplies, tools, equipment, and other technologies used in the food, lodging, and hospitality industries;
• describe legal issues (e.g., customer and employee liability) in food, lodging, and hospitality industries;
• identify new and emerging careers in food, lodging, and hospitality industries;
• identify industry appropriate communication skills, work ethics, and productive work habits (e.g., punctuality, attendance, time management);
• demonstrate quality food-preparation, presentation, and service skills;
• demonstrate the various types of table settings and food service techniques in residential, commercial, and institutional settings;
• practice etiquette, food presentation, and table service appropriate for specific situations;
• describe customer and guest service practices;
• explain key factors in the design, development, and maintenance of industry facilities; and
• explain key responsibilities of employees, supervisors, and managers in food, lodging, and hospitality industries.

**Standard 6 - Consumer and Resource Management.**
The Family and Consumer Sciences Professional understands consumer practices, consumer responsibilities, and resource management processes; how these affect and are applied to personal, family, and work life; and career opportunities in consumer and resource management.

**Standard 6 Competencies:**
Knowledge: What Family and Consumer Sciences Professionals Know. The entry-level Family and Consumer Sciences Professional knows and understands:
• resource management (e.g., money, time, energy);
• the effects of public policy on resource utilization and conservation for consumers, families, and the environment;
• the effects of technology on families, the workplace, and individuals within the U.S. economy;
• issues involved in obtaining and managing income across the life span;
• strategies and tools for financial planning, including investment and retirement planning;
• techniques for managing the multiple roles of individual, worker, family member, community member, and wage earner throughout the life span;
• issues related to consumer decision making in the marketplace;
• cultural, demographic, and societal factors that influence family financial decisions;
• employment and entrepreneurial opportunities in consumer and resource management;
• the relationship between consumer rights and responsibilities;
• characteristics of the global economy and their influence on individuals and families (e.g., employment opportunities, purchasing decisions); and
• basic principles of economics (e.g., competition, supply and demand, profit, loss, credit).

Application: What Family and Consumer Sciences Professionals Can Do. The entry-level Family and Consumer Sciences Professional is able to:
• integrate principles of effective communication into the management process and the decision making process;
• analyze the use of interpersonal skills in managing community, family, and wage earning roles;
