**Course Description and Grading:** Students complete a special research project, which can be related to their in-service work, internship or an area of interest in public administration. Enrollment is conditional on the approval of a research project proposal, often developed in PBA 505. Completion requires a presentation and oral defense before a faculty member panel. Students will enroll in three credit hours of PBA 575. This course is graded Pass/Fail. Some projects will warrant enrollment in PBA 576 for additional credit hours

**Course Justification**

“Public Administration Capstone Project” is 3-credit hour supervised original research project. Typically, for a 3-hour capstone project, students spend 150 hours (50 hours per unit of credit) designing and conducting research. Students conduct research in fields related directly to their career or academic objectives, and design research in a manner that will enhance their methodological skills. Students are required to establish a committee of faculty who will examine and critique the capstone research project wherein the student must present and defend the capstone project in a professional setting. These activities, inclusive of the design, conducting, writing and defending of the research project, average a minimum of 16 hours of work each week.

**Academic Integrity:** An individual’s integrity is a reflection not only on themselves, but on the reputation of their profession as well. The standards you hold in your academic career will weigh heavily on those you retain throughout life. Your professional reputation is of the utmost importance in maintaining a positive career path. Thus, your academic integrity will be held to the highest possible standard while in this classroom. Zero tolerance will be given for academic
irregularities. If I catch you violating this policy, you will be reported. If another student accuses you and there is no other evidence, you will be required to resubmit a new assignment or take a new exam. If you choose not to, you will be reported. According to the university: “Academic integrity is a responsibility of all university faculty and students. Faculty members promote academic integrity in multiple ways including instruction on the components of academic honesty, as well as abiding by university policy on penalties for cheating and plagiarism. **Definition of Academic Dishonesty:** Academic dishonesty includes both cheating and plagiarism. Cheating includes but is not limited to (1) using or attempting to use unauthorized materials to aid in achieving a better grade on a component of a class; (2) the falsification or invention of any information, including citations, on an assigned exercise; and/or (3) helping or attempting to help another in an act of cheating or plagiarism. Plagiarism is presenting the words or ideas of another person as if they were your own. Examples of plagiarism are (1) submitting an assignment as if it were one's own work when, in fact, it is at least partly the work of another; (2) submitting a work that has been purchased or otherwise obtained from an Internet source or another source; and (3) incorporating the words or ideas of an author into one's paper without giving the author due credit. Please read the complete policy at [http://www.sfasu.edu/policies/academic_integrity.asp](http://www.sfasu.edu/policies/academic_integrity.asp)
