Catalog Description:

Studies of resource management in an operational setting under the supervision of an approved organization. Must be arranged in advance and approved by the Dean’s office.

Course Description:

This course provides the opportunity for the student to participate in field research and training on public lands, including Rocky Mountain, Yellowstone, Grand Teton, Arches, and Mesa Verde.

Learning Outcomes:

- Opportunity to understand public lands and differences in policy and history;
- Opportunity to understand data collection processes in national parks for visitor participation and safety;
- Opportunity to understand how operations change in different sites.

Students will be able to -

- Participate in a service-learning experience;
- Apply on-the-job training to an authentic situation;
- Prepare a professional document and/or presentation according to professional standards;
- Make a presentation to a class about the internship experience.

Grading:

Students successfully participating in the service-learning experience and submitting the criteria of completing a project, documentation of participation and learning, and a presentation to students at SFA will be considered passing.

Program Learning Outcomes:
1. Demonstrate understanding and competency of forest ecology and biology;
2. Demonstrate understanding and competency in the measurement of forest resources;
3. Demonstrate understanding and competency in managing forest resources;
4. Demonstrate understanding and competency of forest resource policy, economics, and administration.
5. Demonstrate understanding and competency in oral and written communication skills.

Items #1 - #4 above are required by the Society of American Foresters, the program’s accrediting agency.

N/A – Not Applicable  B-Basic  I-Intermediate  A-Advanced
M-Mastery

**Definition of Rating Categories:**

1. **N/A** – Not Applicable – course does not support the Program Learning Outcome.
2. **B** – Basic – course supports Program Learning Outcome by providing students with fundamental information, definitions, concepts, and lab activities relative to the expected outcomes.
3. **I** – Intermediate – course supports Program Learning Outcome by providing students with topic-specific information, concepts, applications, and lab activities that increase the students’ skills in making tactical implementation decisions relative to the expected outcomes.
4. **A** – Advanced – course supports Program Learning Outcome by providing students with transitional, high level topic-specific information, activities, and opportunities that enable the students to apply their critical thinking and tactical skills to resolved increasingly challenging strategic situations.
5. **M** – Mastery – course supports Program Learning Outcome by providing students with opportunities to independently apply tactical and strategic planning skills to successfully accomplish real-world, non-academic management objectives. Completes students’ preparedness for entry-level professional activity accomplishment.
