Program Learning Outcomes:  
This is a general education core curriculum course and no specific program learning outcomes for this major are addressed in this course.

Student Learning Outcomes:  
HIST 1301 includes instruction in the interaction among individuals, communities, states, the nation, and the world, considering how these interactions have contributed to the development of the United States and its global role.

In addition to learning the above, students in HIST 1301 will demonstrate the more general ability to:  

- Think critically, which includes the ability to analyze, evaluate, and synthesize information about this period of history.  
- Communicate effectively by developing and expressing ideas through written and visual communication.  
- Gain intercultural competence, a knowledge of social responsibility, and an awareness of how humans in the past have engaged effectively in regional, national, and global communities.  
- Understand the role that personal responsibility has played throughout history and gain the ability to connect choices, actions, and consequences to making ethical decisions.
General Education Core Curriculum
The Texas Higher Education Coordinating Board has identified six core learning objectives: Critical Thinking Skills, Communication Skills, Empirical and Quantitative Skills, Teamwork, Personal Responsibility, and Social Responsibility. SFA is committed to the improvement of its general education core curriculum by regular assessment of student performance on these six objectives.

Course Contact Hours and Study Hours:
HIST 1301 (United States History I) meets for 2,250 minutes (37.5 hours), including examination times, during the course of a semester. Students typically have weekly reading assignments from a combination of textbooks, primary document collections, and supplemental materials (biographies, historical novels, memoirs, etc). Typical sections of the course require students to take 2-3 exams per semester, in addition to the final exam. Many also require students to take quizzes. Course instructors are required to hold regular scheduled office hours to make themselves available to consult with students as needed. Combined, studying for quizzes/exams, doing the required reading, completing writing assignments, and consulting with course instructors average two hours of work outside the classroom for every hour spent in the classroom. Online sections of the course contain extensive written content within modules, and instructors hold "electronic office hours” to consult with students as needed, generally responding to student inquiries within twenty-four hours. Online course content includes the same information students in a face-to-face lecture course receive, requiring students to engage the online modules for at least 2,250 minutes per term. Besides engaging the material in the modules, online students have outside reading assignments similar to those mentioned above for face-to-face students. Thus, for every hour an online student spends engaging the content in the modules, he/she spends at least two hours completing associated activities and assessments.
Academic Integrity

The Code of Student Conduct and Academic Integrity outlines the prohibited conduct by any student enrolled in a course at SFA. It is the responsibility of all members of all faculty, staff, and students to adhere to and uphold this policy.

Articles IV, VI, and VII of the new Code of Student Conduct and Academic Integrity outline the violations and procedures concerning academic conduct, including cheating, plagiarism, collusion, and misrepresentation. Cheating includes, but is not limited to: (1) Copying from the test paper (or other assignment) of another student, (2) Possession and/or use during a test of materials that are not authorized by the person giving the test, (3) Using, obtaining, or attempting to obtain by any means the whole or any part of a non-administered test, test key, homework solution, or computer program, or using a test that has been administered in prior classes or semesters without permission of the Faculty member, (4) Substituting for another person, or permitting another person to substitute for one’s self, to take a test, (5) Falsifying research data, laboratory reports, and/or other records or academic work offered for credit, (6) Using any sort of unauthorized resources or technology in completion of educational activities.

Plagiarism is the appropriation of material that is attributable in whole or in part to another source or the use of one’s own previous work in another context without citing that it was used previously, without any indication of the original source, including words, ideas, illustrations, structure, computer code, and other expression or media, and presenting that material as one’s own academic work being offered for credit or in conjunction with a program course or degree requirements.

Collusion is the unauthorized collaboration with another person in preparing academic assignments offered for credit or collaboration with another person to commit a violation of any provision of the rules on academic dishonesty, including disclosing and/or distributing the contents of an exam.

Misrepresentation is providing false grades or résumés; providing false or misleading information in an effort to receive a postponement or an extension on a test, quiz, or other assignment for the purpose of obtaining an academic or financial benefit for oneself or another individual or to injure another student academically or financially.

For this class specifically – the instructor reserves the right to submit full or partial submissions of any assignment to Turnitin.com or any other anti-plagiarism websites. Students are expected to do their own work and express their own ideas for all assignments. Please note that AI-generated content does NOT meet this expectation for this class.

Withheld Grades Semester Grades Policy (5.5)
Ordinarily, at the discretion of the instructor of record and with the approval of the academic chair/director, a grade of WH will be assigned only if the student cannot complete the coursework because of unavoidable circumstances. Students must complete the work within one calendar year from the end of the semester in which they receive a WH, or the grade automatically becomes an F. If students register for the same course in future terms the WH will automatically become an F and will be counted as a repeated course to compute the grade point average. For additional information, go to https://www.sfasu.edu/policies/course-grades-5.5.pdf.
Students with Disabilities
To obtain disability related accommodations, alternate formats and/or auxiliary aids, students with disabilities must contact the Office of Disability Services (ODS), Human Services Building, and Room 325, 468-3004 / 468-1004 (TDD) as early as possible in the semester. Once verified, ODS will notify the course instructor and outline the accommodation and/or auxiliary aids to be provided. Failure to request services in a timely manner may delay your accommodations. For additional information, go to http://www.sfasu.edu/disabilityservices/.

Student Wellness and Well-Being
SFA values students’ overall well-being, mental health and the role it plays in academic and overall student success. Students may experience stressors that can impact both their academic experience and their personal well-being. These may include academic pressure and challenges associated with relationships, emotional well-being, alcohol and other drugs, identities, finances, etc.

If you are experiencing concerns, seeking help, SFA provides a variety of resources to support students’ mental health and wellness. Many of these resources are free, and all of them are confidential.
