PREREQUISITE: CSIT 1301 or CSIT 1321 or MNGT 2372 or nine hours of CSC courses. All prerequisite course must have a grade of C or better. This course may not be used to satisfy advanced computer science requirements for a computer science/computer information systems major or a computer science minor. (Note: The course does satisfy advanced computer science requirements for a computer information systems minor or an information technology minor.)

CLASS INFO: Online Delivery of course via D2L (Desire2Learn) Learning System. There will be two hands on practical lab exams (Access and Excel) that must be taken in a set time period. The exams will be given in two grouping time periods. You will have to pick a time that works for you and you will need a computer with Microsoft Access and Microsoft Excel.

OFFICE HOURS: M,T,W,Th 2:00 pm – 4:00 pm (online) Email me at any time during those times or at any other time.

COURSE DESCRIPTION: Advanced utilization of spreadsheet software. Utilization of database software. Operating systems and disk management skills.

REQUIRED TEXTS: There is no required book for this course, all material will be provided on D2L.

Reliable access to the Internet and the D2L learning management system (d2l.sfasu.edu)
Software:
• Microsoft Access (Any version from 2010 to 2016 is ok)
• Microsoft Excel (Any version from 2010 to 2016 is ok)

Most SFA computer labs have both Access and Excel. SFA students can get both of these products free through SFA's agreement with Microsoft Office 365. Go to http://www.sfasu.edu/mysfa/o365/ for more information.

Special Software Notes:
• There is not currently a Mac version of Access. The current Mac version of Excel will be fine for all but one Pivot Chart assignment.

EXAMINATIONS:
• One, hands on, practical database exam database (Access) exam given remotely. The exam is worth 200 points of the total 1,000 points (20% of course grade). The exam will be given on June 13th. Exact time options and sign up will be available on D2L.
• One, hands on, practical spreadsheet exam (Excel) exam worth 300 points of the total 1,000 points (30% of course grade. The exam will be given on June 27th. Exact time options and sign up will be available on D2L.
• One comprehensive online exam worth 200 points of the total 1,000 points (20% of course grade).

NOTE: Any student that has any Academic Integrity violations will be required to take all remaining online exams in a closed note, closed book proctored environment. Once a student leaves the room on the day of the examination, they will not be permitted to return. Once the first person has left the room on the day of an examination, no one else will be permitted to begin the exam. If you have a conflict with another university event, you must contact me well in advance of the examination. Students requesting remote test proctoring must notify the instructor within the first week of the semester. Confirmation from the remote test proctoring location must be received a minimum
of two weeks prior to the exam. Please note that the student is responsible for all remote test proctoring fees. Department policy requires that all students take the final exam. There are no exemptions for the final examination. A zero on the final exam will result in an F in the course.

ASSIGNMENTS: Assignments and quizzes worth a total of 300 points of the total 1,000 points (30% of the course grade) will be given. Assignments/quizzes will be of unequal weight. Not all assignments/quizzes will be graded. No Make ups or late work accepted. All assignments are due at the announced time on the specified due date. If you have a conflict, please contact me in advance.

ATTENDANCE: The only face-to-face attendance that is required is for the two practical exams. (See exceptions in Academic Integrity section.)

GRADING POLICY: There are a total of 1,000 points in the course. End of course letter grades will be based on the number of points earned.

COURSE OUTLINE:

<table>
<thead>
<tr>
<th>Week</th>
<th>Topics</th>
</tr>
</thead>
</table>
| 1    | Course Introduction
|      | Excel Review (Basic Excel Functions, charts, working with Dates, cell references (Relative, Absolute, And Mixed))
|      | Designing and Creating a Database
|      | Database Properties
|      | Creating Tables
|      | Adding Records
|      | Select Queries
| 2    | Joining Access Tables
|      | Calculated Fields And Grouping
|      | Crosstab Queries
|      | Introduction To Maintaining A Database
|      | Updating Records
|      | Changing The Database Structure
|      | Validation Rules
|      | Referential Integrity
|      | Access Exam - in person lab exam
| 3    | Introduction To Financial Functions
PROGRAM LEARNING OUTCOMES:

Program learning outcomes define the knowledge, skills, and abilities students are expected to demonstrate upon completion of an academic program. These learning outcomes are regularly assessed to determine student learning and to evaluate overall program effectiveness.

- Students majoring in the Department of Computer Science may access program learning outcomes at http://cs.sfasu.edu/cs/plo/
- Students majoring in the College of Business may access program learning outcomes at http://www.sfasu.edu/cob/ug-plo.asp

CLASS INFORMATION AND POLICIES

Department of Computer Science, McKibben 304, 468-2508

Attendance: Seating assignments will be made and roll will be taken regularly. Attendance may be taken into consideration for your final grade. If you come to class, you are expected to be present and awake the entire class period unless you have been given permission to leave early. If you are absent from class, please make sure to get notes from a classmate. There will be no smoking, no chewing of tobacco, no eating or drinking, no bare feet, and no cell phone use during class. Cell phones and other electronic communication devices must be turned off during class. Possession of a cell phone or other electronic communication device during an exam will result in an examination grade of zero. No disruptive behavior including offensive language will be tolerated in a computer science facility or related activity. Such behavior may result in administrative removal from class. Only students officially registered for the course and approved assistants may attend class. Please do not walk across the front of the room after the class has started. Students entering the classroom after the lecture has started should take a seat in the back of the room.

Examination Policy: All class examinations are considered to be a major part of the course work upon which a large part of the course grade depends. There are NO make-up exams! Class examinations will be announced at least two classes prior to the examination. If you have a conflict with another university event, you must contact me well in advance of the examination. In case of an extreme emergency, contact me before the scheduled examination. Failure to do so may result in an examination grade of zero. There are no exemptions for the final examination and no changes in taking the final examination. All students must take the final exam. A zero on the final exam will result in an F in the course. Check the final examination time. If the final examination time is a problem, you need to drop this course. Once the first person has left the room on the day of an examination, no one else will be permitted to begin the exam.

Assignment Policy: All assignments are due at the announced time on the specified due date. Assignments will not be accepted late. If you have a conflict, please contact me in advance. You should turn in your homework assignments done neatly, clearly, and to the best of your ability. Follow all the instructions given. You will lose points for failure to follow instructions. Any work turned in to my box should be dated and timed by the CSC department staff. Please ask nicely. DO NOT slide any work under my office door or under the door to the Computer Science offices. PLEASE NOTE: You may be given assignments during the last five class days of the semester.

Software Policy: Disciplinary action will be taken against individuals who perform unauthorized duplication of software or who are involved in the unauthorized use of duplicated software. Such action may make it impossible for you to successfully complete this course.
**Computer Laboratory Usage:** Students utilizing equipment in university computing laboratories are expected to read and abide by all posted policies for the laboratories. Please note that no children and no pets are permitted in university computing laboratories.

**Drop Policy (Univ.):** The official university add/drop policy is located at: http://www.sfasu.edu/policies/add_drop.asp. If you have questions concerning registration, add/drop or the withdraw process, contact the Registrar at (936) 468-2501 or E-mail: REGISTRAR@SFASU.EDU. The Registrar is located on the 2nd floor of the Rusk building.

**Special Accommodation Requests:** To obtain disability related accommodations, alternate formats and/or auxiliary aids, students with disabilities must contact the Office of Disability Services (ODS), Human Services Building, and Room 325, 468-3004 / 468-1004 (TDD) as early as possible in the semester. Once verified, ODS will notify the course instructor and outline the accommodation and/or auxiliary aids to be provided. Failure to request services in a timely manner may delay your accommodations. For additional information, go to http://www.sfasu.edu/disabilityservices/.

Students with special accommodation requests have the responsibility to immediately initiate a meeting with the instructor to discuss how the special accommodations will be provided. Students who are aware of these special needs at the beginning of the semester must inform the instructor in person before the twelfth class day about any class activity, which will require special accommodations.

**Computer Account Policy:** All assignments that require the use of the University Computer must be done under the computer account that is assigned to you in this class. You should NOT do other class assignments in this account, and you should NOT do assignments from this class in other accounts. Failure to abide by the above statements will mean that you will receive a grade of F in this course.

**Academic Integrity:** Academic integrity is a responsibility of all university faculty and students. Faculty members promote academic integrity in multiple ways including instruction on the components of academic honesty, as well as abiding by university policy on penalties for cheating and plagiarism.

Academic dishonesty includes both cheating and plagiarism. Cheating includes but is not limited to (1) using or attempting to use unauthorized materials to aid in achieving a better grade on a component of a class; (2) the falsification or invention of any information, including citations, on an assigned exercise; and/or (3) helping or attempting to help another in an act of cheating or plagiarism. Plagiarism is presenting the words or ideas of another person as if they were your own. Examples of plagiarism are (1) submitting an assignment as if it were one’s own work when, in fact, it is at least partly the work of another; (2) submitting a work that has been purchased or otherwise obtained from an Internet source or another source; and (3) incorporating the words or ideas of an author into one’s paper without giving the author due credit. All instances of academic dishonesty will be reported to Office of the Dean of the student’s major. This report shall be made part of the student’s record and shall remain on file with the Dean’s office for at least four years. Instances of academic dishonesty may also be reported to the University Committee on Academic Integrity. A student who wishes to appeal decisions related to academic integrity follows procedures outlined in University policy A-9.1. Please read the complete policy at http://www.sfasu.edu/policies/academic_integrity.asp.

If in my judgment an instance of academic dishonesty on an examination has occurred, a grade of zero will be assigned as the examination grade and a minimum of one (1) letter grade will be lost in the course grade. **Possession of a cell phone or other electronic communication device during an exam will result in an examination grade of zero.** A course grade of F may be assigned depending on the situation. A student found cheating on an examination may not drop the course. If in my judgment a student is found cheating on any part of a homework assignment or quiz, the student will receive negative points equal to the value of the entire homework/quiz. A negative grade will not be replaced by any possible bonus assignment. **I consider the person who did the work (homework, quiz, test) and the person copying the work as both cheating.** A recurrence of this by any individual will result in a grade of F in the course. DO YOUR OWN WORK!!!!! Do NOT show your code to other students!!!

**Withheld Grades Semester Grades Policy (A-54)**

Ordinarily, at the discretion of the instructor of record and with the approval of the academic chair/director, a grade of WH will be assigned only if the student cannot complete the course work because of unavoidable circumstances. Students must complete the work within one calendar year from the end of the semester in which they receive a WH, or the grade automatically becomes an F. If students register for the same course in future terms the WH will automatically become an F and will be counted as a repeated course for the purpose of computing the grade point average.

**Acceptable Student Behavior**

Classroom behavior should not interfere with the instructor’s ability to conduct the class or the ability of other students to learn from the instructional program (see the Student Conduct Code, policy D-34.1). Unacceptable or disruptive behavior will not be tolerated. Students who disrupt the learning environment may be asked to leave class and may be subject to judicial, academic, or other penalties. This prohibition applies to all instructional forums, including electronic, classroom, labs, discussion groups, field trips, etc. The instructor shall have full discretion over what behavior is appropriate/inappropriate in the classroom. Students who do not attend class regularly or who perform poorly on class projects/exams may be referred to the Early Alert Program. This program provides students with recommendations for resources or other assistance that is available to help SFA students succeed.

**Identification:** Valid student I.D. cards must be presented on each examination day. (No I.D...No exam...Grade of zero)
