ART 2316.001  Beginning Painting  
Instructor Shaun Roberts

Course Description  
The purpose of this course is to introduce the student to the basic skills and concepts involved in the making of paintings. Building on the basic concepts of drawing and design, different approaches and techniques will be demonstrated to the student and will be employed by the student in the creation of their own paintings. Students will work in class from still life setups. They will learn to construct stretched canvas supports, using oil paints, students will work with different palettes of color and with different techniques of painting construction.

Program Learning Outcomes  
. Undergraduate students will demonstrate proficiency in studio foundation skills as they relate to the elements and principles of design.
. Undergraduate students will exhibit a high level of proficiency in the use of materials, techniques and media.
. Undergraduate students will demonstrate understanding of contemporary art issues through exploration of synthesis of content, problem solving and creativity..

Student Learning Outcomes  
• Students will show their competence in painting by producing work of a high level of proficiency that shows their understanding of different painting approaches.
• Students will develop the understanding of integrating various approaches into their work by designing and executing work appropriate to the stated goals of the individual project
• Students will explain their work to classmates demonstrating comprehension of conceptual and formal issues
• Students will demonstrate their ability to analyze and compare works of art verbally during critique sessions.
• Students’ work will be judged and critiqued on the demonstrated execution of processes shown during in class demonstrations and their own executions.

Course Regulations  
• Participation in the class is essential for the course. Active Involvement in class critiques and discussions will reflect the students understanding of class materials; likewise receiving feedback from the instructor and classmates will be crucial for every students learning in the class.

Course Time and Location  
MW 11:00 am — 1:40 pm, Art 204

Office Hours & Contact Information  
Email: robertssm@sfasu.edu
Office phone: 936.468.4268
Office: ART 113
Office hours: by appointment
• You are responsible for getting information and missed assignments from your classmates.
• You should not wear headphones, or do homework for other classes. Please turn off all your electronic devices (cell phone, ipod etc.)
• Each week assignments or part of assignments will be due. Expect 5 to 9 hours of homework each week, or at least one hour per weekday. Late work will result in lower grades (at least one letter grade from A to B or 4.0 to 3.0).
• Missing assignments will adversely affect your final grade.

**Grading System**

(A 90-100) Excellent work that exceeds the requirements of the assignment and performance expectation of the class.
(B 80-89) Above average work that demonstrates a thorough understanding of the assignment, with enthusiastic participation in the class.
(C 70-79) Average work that meets the minimum course requirements.
(D 60-69) Below average work with minimal involvement in the class.
(F <60) Failure to accomplish the requirements of the assignment.

**Grading Criteria**

• Completing the requirements, demonstrating control of the media to achieve creative results in terms of content and conceptual growth.
• Using class time to your best advantage to complete work.
• Researching of ideas.
• Meeting deadlines.

5 paintings 20% each painting for 100%

**Attendance**

Attendance is required for this class. 4 absences will result in a 1 full letter grade deduction on your Final Grade. 5 absences will result in a 2 full letter grade deduction on your Final Grade. 6+ absences will result in an F for this course.

Excessive Tardiness will not be tolerated. After 15 min late I will consider you absent.

Students are required to sign-in at the beginning and end of class. Your record of attendance is your responsibility. If you forget to sign-in, you must contact me that same day to get credit for attending.

Please let me know beforehand (when possible) if you will be missing class.
Late Work

Late assignments (not showing up for Critique) will result in a reduction of one full letter grade for the assignment. If you are absent on a critique date because of an excused absence, you may turn your project in the day you return with no grade penalty. Must have a doctor's note and/or emailed the professor ahead of time.

Critique Expectations

There will be four critiques during the semester. At each critique the student will bring in work both finished and in progress. All students must be prepared to discuss both their work and others, talking about success and failures in technical and conceptual matters.

B Above Average: Displays a good grasp of the process, concepts and materials that exceeds normal expectations. Solid understanding of elements and principles of drawing and two-dimensional design conveyed in the work. Drawings convey a relatively solid framework through gesture in the initial stages and of good development in their progression. Handling of materials, rendering of form and approach to composition are mature and convey some insight and invention. Mostly self-motivated, disciplined and committed to practice. Comes to class all of the time. Work is on time. Active in critiques and discussions.

C Average: Displays an average understanding of the process, concepts and materials that meets normal expectations. Some demonstrated understanding of elements and principles of drawing and two-dimensional design. Drawings convey little framework with underdeveloped gesture in the initial stages and development in their progression lacks closure. Handling of materials, rendering of form and approach to composition lack maturity, but convey some insight or invention. Some self-motivation, discipline and commitment to practice, but relies on outside stimulus for guidance. Comes to class prepared and work is on time. Somewhat active in critiques and discussions.

D Below Average: Lacks an understanding of or engagement with the process, concepts and materials that falls below normal expectations. Little demonstrated understanding of elements and principles of drawing and two-dimensional design. Drawings lack framework and gesture is generally underdeveloped in the initial stages; drawings feel incomplete. Handling of materials, rendering of form and approach to composition lack maturity and convey little insight and invention. Lacks self-motivation, discipline and commitment to practice. Comes to class prepared most of the time. Work is mostly on time, but lacks in-depth investigation. Not engaged with or active in critiques and discussions.

F Failure to turn in projects, excessive absences, not engaged with or active in critiques and discussions.
Tools and equipment in the Painting studio are only for use in Room 204 and may not be removed from the room. Any equipment used must be returned cleaned and in good condition. Students equipment and paintings must be stored in the lockers and the painting racks. Do not leave sponges, buckets, etc. in the sinks. Any materials left in the sinks or out in the room will be thrown away immediately. This is a common use room. Show some concern for others that are working in here.

**NO PAINT SHOULD BE WASHED INTO THE SINK!**
- Wipe off brushes and palettes onto paper towels or rags and throw away.
- Rinse brushes in appropriate solvent or water.
- Then wash out brushes in sink. Do not run water continuously.
- Pour used solvent into the container under the sink.

**DO NOT LEAVE OPEN CONTAINERS OF PAINT, WATER, OR SOLVENT IN THE ROOM. DO NOT LEAVE PAINTING CUPS BY THE SINK.**

**PUT ALL OF YOUR MATERIALS AWAY WHEN YOU LEAVE THE ROOM (INCLUDING YOUR PAINTING)**

**IF YOU SPILL, WIPE IT UP. IF ANY MATERIAL FALLS ONTO THE FLOOR, SWEEP IT UP.**

**STORE YOUR PERSONAL MATERIALS IN YOUR LOCKERS AND BINS. DO NOT STORE PERSONAL MATERIALS OUT IN THE ROOM, LEANING AGAINST WALLS, ETC.**

---

The kind of investigations that naturally accompany this type of class make it necessary to mention some guidelines, both for the student’s individual safety and for the safety of the class as a whole.

Students should keep in mind the type of painting they will be doing and chose their media accordingly. Abstract and non-objective styles may lend themselves to the use of Acrylic materials, where naturalistic or realistic approaches might be more easily pursued using Oils. Regardless of the approach taken, no industrial materials or non-traditional materials that are toxic or dangerous may be used in this classroom. The student should be aware that the mixing of any chemical agent with artist’s materials can set off an unexpected and toxic reaction.

The solvents used for oil painting are highly volatile and can cause difficulty in breathing. Because of this the only solvent that will be allowed for use in this class will be No-odor paint thinner (Turpenoid, by Weber). Turpentines and low-odor mineral spirits are not acceptable.

If your investigations lead to approaches where surface effects are important (texture, scumblings, etc.) and you are thinking of combining non-reactive materials with paint (such as sand, sawdust, paper or fabric collage, etc.) then I recommend highly that you work with acrylics. These approaches are much less problematic using the polymer paints than they are with oils.

The student should keep in mind that oils can be painted over acrylics, but acrylics cannot be painted over oils. Underpainting on an acrylic gessoed surface with
acrylics and then overpainting with oils is a valid technique and one that can significantly speed up the process of developing a painting.

It is common sense to realize that all art materials can be dangerous. If you have any questions concerning the use of any material, check with me first, both to see if what you are thinking of will work and to see if it is safe.

While painting is not an overly dangerous activity, some caution should be exercised in its practice.

The most important thing to realize is that the basic materials of paint - pigment, binders and solvents - should be regarded as all being potentially poisonous. Pigment, the coloring agent in paint, may come from heavy metal sources, which can build up in the body over time. Other pigments are suspected carcinogens. Binders, the “glue” that holds the pigment onto the surface, can also be dangerous if ingested, whether it is the acrylic polymer used in acrylic paints or the oils and resins used in oil paintings. Finally, the solvents used both in the manufacture of oil paint and in its clean up can cause breathing difficulties and allergic reactions, and are also suspected carcinogens.

The easiest way to avoid exposure to these hazards are:
- Never sand a painted surface without wearing a filtering mask of some type, and never use powdered pigment in any form.
- If painting in oil paints, only use no odor mineral spirits for clean up, and do not have containers of solvent open in your studio. (No odor spirits are the only solvent allowed for use in this painting room.)
- Never “experiment” with household or industrial paints or chemicals in your painting; use only student or artist grade art materials.
- Never manipulate paints or medium directly with your hands.
- Never eat or drink around your material or in your studio.

If you are pregnant or should become pregnant while taking this course, or have a medical condition that could increase your sensitivity to chemical exposure, it is important for you to take all precautions concerning your own personal safety. While reasonable measures have been taken to insure your safety, there is a risk in this class of exposure to material that could prove harmful to persons at risk. Please contact the Professor should you have questions or concerns.

Students who need accommodations for certified disabilities should work through the Office of Disability Services and then your Professor.

Knowing that painting materials may be hazardous, use your own common sense when you are dealing with any artist’s materials or processes.

Text and Materials (A-9.1) There is no required text for this class, but there is an expectation for students to check out books in the library to enrichen the work with research of ideas. From time to time, I may suggest articles for the class to read that will be provided by the professor.
There is no required text for this class, but there is an expectation for students to check out books in the library to enrichen the work with research of ideas. From time to time, I may suggest articles for the class to read that will be provided by the professor.

**Withheld Grades Semester Grades Policy (A-54)**

Ordinarily, at the discretion of the instructor of record and with the approval of the academic chair/director, a grade of WH will be assigned only if the student cannot complete the coursework because of unavoidable circumstances. Students must complete the work within one calendar year from the end of the semester in which they receive a WH, or the grade automatically becomes an F. If students register for the same course in future terms the WH will automatically become an F and will be counted as a repeated course to compute the grade point average. For additional information, go to https://www.sfasu.edu/policies/course-grades-5.5.pdf.

**Students with Disabilities**

To obtain disability-related accommodations, alternate formats, and/or auxiliary aids, students with disabilities must contact the Office of Disability Services (ODS), Human Services Building, and Room 325, 468-3004 / 468-1004 (TDD) as early as possible in the semester. Once verified, ODS will notify the course instructor and outline the accommodation and/or auxiliary aids to be provided. Failure to request services promptly may delay your accommodations. For additional information, go to http://www.sfasu.edu/disabilityservices/.

**Student Code of Conduct: Policy 10.4**

Classroom behavior should not interfere with the instructor’s ability to conduct the class or the ability of other students to learn from the instructional program. Unacceptable or disruptive behavior will not be tolerated. Students who disrupt the learning environment may be asked to leave class and may be subject to judicial, academic or other penalties. This policy applies to all instructional forums, including electronic, classroom, labs, discussion groups, field trips, etc. The instructor shall have full discretion over what behavior is appropriate/inappropriate in the classroom. Students who do not attend class regularly or who perform poorly on class projects/exams may be referred to the iCare: Early Alert Program at SFA. Information regarding the iCare program is found at https://www.sfasu.edu/judicial/earlyalert.asp or call the office at 936-468-2703.
Academic Integrity (A-9.1)

Articles IV, VI, and VII of the new Code of Student Conduct and Academic Integrity outline the violations and procedures concerning academic conduct, including cheating, plagiarism, collusion, and misrepresentation. Cheating includes, but is not limited to: (1) Copying from the test paper (or other assignment) of another student, (2) Possession and/or use during a test of materials that are not authorized by the person giving the test, (3) Using, obtaining, or attempting to obtain by any means the whole or any part of a non-administered test, test key, homework solution, or computer program, or using a test that has been administered in prior classes or semesters without permission of the Faculty member, (4) Substituting for another person, or permitting another person to substitute for one's self, to take a test, (5) Falsifying research data, laboratory reports, and/or other records or academic work offered for credit, (6) Using any sort of unauthorized resources or technology in completion of educational activities.

Plagiarism is the appropriation of material that is attributable in whole or in part to another source or the use of one's own previous work in another context without citing that it was used previously, without any indication of the original source, including words, ideas, illustrations, structure, computer code, and other expression or media, and presenting that material as one's own academic work being offered for credit or in conjunction with a program course or degree requirements.

Collusion is the unauthorized collaboration with another person in preparing academic assignments offered for credit or collaboration with another person to commit a violation of any provision of the rules on academic dishonesty, including disclosing and/or distributing the contents of an exam.

Misrepresentation is providing false grades or résumés; providing false or misleading information in an effort to receive a postponement or an extension on a test, quiz, or other assignment for the purpose of obtaining an academic or financial benefit for oneself or another individual or to injure another student academically or financially.

Student Wellness and Well-being

SFA values students' overall well-being, mental health and the role it plays in academic and overall student success. Students may experience stressors that can impact both their academic experience and their personal well-being. These may include academic pressure and challenges associated with relationships, emotional well-being, alcohol and other drugs, identities, finances, etc. If you are experiencing concerns, seeking help, SFA provides a variety of resources to support students’ mental health and wellness. Many of these resources are free, and all of them are confidential.
