MUEN 1139/3319/5319
Spring 2024
T/TH: 3PM-4:15PM

Instructor: James Adams
Email: adamsjf@sfasu.edu
Office: GFNA, SRT Suite, Room 133
Office Hours: MW: 3-4PM, T/TH: 2-3PM, Friday by Appointment
Class Location: GFNA, SRT Suite, Room 135

Course Description:

This course will focus on complex works featuring a variety of genres including popular, academic, and electro-acoustic works of 20th and 21st century music. The students will become adept at participating as an ensemble member and be able to balance and blend individual parts within their groups. Additionally, students may transcribe, rehearse, arrange, record and perform in an ensemble setting.

Learning Outcomes:

1. Students will perform a variety contemporary music.
2. Students will become familiar with the musical and stylistic traits of multiple sub-genres of contemporary music.
3. Students will listen critically to relevant examples associated with their pieces and be able to articulate and demonstrate an understanding of those examples.
4. Students will achieve a high level of performance on their respective instruments and parts.
5. Students will become members of different bands and be able to work constructively towards a successful performance.
6. Students will be able to interact musically with the different musicians within their group, going beyond the performance of their individual roles.
7. Students will participate in publicity for the groups in a variety of ways, including program design, flyer design, participation with off-campus events and other opportunities announced by the instructor.

SRT Concentration Learning Outcomes:

1. Students will demonstrate experience and expertise in music technology hardware and software for live sound reinforcement, recording, editing, mixing, producing, MIDI sequencing, and notation.
2. Students will demonstrate broad knowledge of the music industry.
3. Students will have developed and honed their skills as musicians and recording artists.
4. Students will demonstrate a working knowledge of various studio and live sound equipment operations.
5. Students will be prepared to pursue careers in the music industry and/or graduate studies in music and sound technology.
Program Learning Outcomes:

1. Students will demonstrate the ability to hear, identify, and work conceptually with the melodic, harmonic, and rhythmic elements of music, including sight-singing and analysis.
2. Students will develop and demonstrate comprehensive capabilities in rehearsing and preparing a high-level performance in ensembles.
3. Students will demonstrate proficiency in their applied area by completing projects, preparing performances, creating original content, and mastering skills as appropriate for their field.
4. Students will successfully complete both an academic and area of study capstone project. The academic project will demonstrate written language skills, citations, analysis, musical examples, and organization. The area of study capstone project will demonstrate the applied skills commensurate with the degree track requirements.
5. Students will demonstrate a working knowledge of music history and literature from the Western art tradition, with supporting related studies in non-western traditions, practices, and cultures.
6. Students will demonstrate functional keyboard proficiency including scales, techniques, basic accompanying, and sight reading.

Required Materials:

There is no required text for this class, but students must use the sheet music and other materials provided for the class and bring them to each rehearsal.

Aside from amplifiers and a drum set, students are responsible for bringing their own instruments, which must be in good working order.

- Personal instrument
- Hearing Protection
- Professional Closed-Back Tracking Headphones (Sony MDR-7506 or equivalent)
- Dress Code: All Black Attire. Black shoes, socks, pants, and long sleeve shirt for performances
- Access to MS Teams.

Grade Weighting:

40% In-class rehearsals
20% Participation
30% Main Performance
10% Performance Assessment

Course Requirements:

1) Class Attendance: students must attend rehearsals. Class meets T/TH 3-4:30 weekly.

*Special note: Performances, Sound Checks, and Dress Rehearsals are required. Failure to attend either or both, without an accepted university excuse, will result in a failing grade.*
2) Performance Schedule: Students must perform in the ensemble performance(s).
   a) This ensemble will broadcast two studio concert performances.
      i) Dates for concerts are TBA.
   b) Students will work on their parts in rehearsal and outside of class time, to achieve the best recorded performance they can deliver.
   c) Students will be required to learn technical studio setup and operation procedures.
   d) Students will be required to book studio recording sessions to record their parts.
   e) Student will be required to be available for 2 studio tracking sessions (2-4 hours or less each) outside of rehearsal time. This will not be a major time commitment if the student is well practiced and prepared.
   f) Performance Attire
      i) Students will be required to perform in performance attire. The formal dress for studio sessions will be discussed in the first class.

4. Time requirement/Practice:
   Per SFA policy, you are expected to spend at least 2 hours per week, outside of class time, practicing and working on assignments for this course. There will be weeks throughout the semester in which you will need to put slightly more time into your projects for this course. As SRT coursework in the SOM are a hybrid of artistic and technological studies, you will not only be working on projects and assignments but also regularly practicing. You are expected to practice at least 30 minutes every day in addition to the time you devote to course work.

5. Setup and tear-down of equipment:
   All students will help each class with moving equipment, setting it up, and tearing down for rehearsals and performances. If you have a medical issue that prevents you from doing so, please let the instructor know, and we will find an alternative for you.

6. Hearing protection:
   All musicians and engineers need to protect their hearing. Especially since we are exposed to so much sound, and a lot of loud sound, it is critical that you have some form of hearing protection. Be sure to take breaks as well, even with protection. You should get this immediately, and I will be checking throughout the semester, which will factor into your rehearsal and performance grades.

7. MS Teams:
   It is critically important that you check Teams regularly.

**Tentative Course Calendar:**

Week 1: Syllabus. Introduction to the course and facilities.
Week 2: Rehearsals
Week 3: Rehearsals
Week 4: Rehearsals
Week 5: Rehearsals
Week 6: Rehearsals
Week 7: Rehearsals
Week 8: Rehearsals/Midterm performance
Week 9: Rehearsal
Week 10: Rehearsals
Week 11: Rehearsals
Week 12: Rehearsals
Week 13: Rehearsals
Week 14: Rehearsal/Performance
Week 15: Final Meetings
* All dates subject to change by the instructor’s discretion.

Course Evaluations:
Your participation in the evaluations of this course are very important and helpful to this class, program, and the university. Near the conclusion of each semester, students in the College of Fine Arts electronically evaluate courses taken with the college. The evaluation is used for a variety of important purposes including:

1. Course and program improvement, planning and accreditation;
2. Instruction evaluation purposes; and
3. Making decisions on faculty tenure, promotion, and retention.

As you evaluate this course, please be thoughtful, thorough, and accurate in completing the evaluation. Please know that the College of Fine Arts is committed to excellence in teaching and continued improvement. Therefore, your participation is crucial.

The course evaluation process has been simplified and is completed electronically through MySFA. Although the instructor will be able to view the names of students who complete the survey, all rating and comments are confidential and anonymous, and will not be available to the instructor until after final grades are posted.

Attendance Policy:
Class will begin promptly and on time. Role will be taken at the beginning of class.

Due to the nature of this course, and the SRT field of study, attendance to class, sessions, and labs is crucial to your learning and are thus required. Experience, class interaction, and hands-on activities are just as important to your training and understanding of concepts as is the academic study components of the program. You are expected to arrive to class, lab times, and scheduled meetings, prepared and on time. If you arrive more than 5 minutes late without a valid, University approved excuse, or you did not make prior arrangements with your instructor, you will be marked absent. Additionally, sleeping in class is not acceptable. If you are found to be sleeping in class, you will be marked absent and asked to leave. If you arrive to class and proceed to go to sleep, it is not considered that you attended the class.

You are allotted 2 unexcused absences. Upon receiving a third unexcused absence your grade will be reduced by a letter grade. Upon receiving a fourth unexcused absence, your grade will be reduced by another full letter grade in addition to the previous reduction received for the third absence. If you miss a pre-show rehearsal, you grade will be reduced by a letter grade. If you miss a concert, you will fail the class barring extenuating circumstances.

Lab Time:
Hands on experience and practice are crucial to your learning and development in music technology and the recording arts. The SRT area has dedicated lab and studio facilities equipped with professional and industry standard technologies that you will very likely not have access to at home. To further your learning and growth, you must continually practice, experiment, and work with these special technologies. In support of this: all SRT majors enrolled in MUST 2310-3340 are required to attend lab hours for at least two hours per week. Lab hours will be logged and tracked for each student. A lab schedule will be posted on the SRT lab door.
by the second week of classes. Lab time requirements do not take effect until the 3rd week of
the semester.

Should you fail to meet the required lab times more than twice, aka two weeks, each following
lab miss will result in you receiving an unexcused absence in your 3-credit hour SRT course.
You will always have assignments, projects, and needed practice with the various technologies
in our facilities. Naturally, should you have a situation arise that will prevent you from
participating in lab times and activities, please contact your instructor.

Personal Electronic Devices:

Cellphones, tablets, and personal electronic communication devices are to be turned off or set
to silent while in class. You are here because you wish to pursue studies and/or a career in
Sound Recording Technology, the Music Industry, etc. A ringing cellphone can ruin a recording
session, distract an artist, interrupt a meeting or disrupt a learning environment. You must learn
to be aware of the audible status of your devices. Should you be an individual who continually
disrupts class because your device(s) beep, ringing, or otherwise distract this learning
environment, you will loss participation points and if the offenses continue, you will be asked to
leave the class and will have to meet with the director of the SRT program before being allowed
back into class.

Obtaining Help:

If you ever have questions regarding course content, assignments, test, etc., or feel that you
require some additional help, please contact me immediately. Please make note of my office
hours. If for some reason you are unable to attend my office hours, see me before or after class,

or send me an email, to schedule an appointment. My line of communication is always open to
you and I urge you to communicate any issues you may be having that may hinder your
progress in this class, program, or university.

Email and Correspondence:

Any email correspondences regarding this course, homework, meetings, advisement, etc.,
should be sent from your SFASU email account. Additionally, the subject title should begin with
MUEN 1139/3139 If you have a sensitive matter to discuss with me, please make arrangements
to meet with me in person. Although I will make every effort to answer your emails as soon as
possible, you should never expect an immediate response to your email. If you ever have an
emergency, sensitive topic that needs immediate attention, or a time sensitive matter to be
address, call my or the school of music office.

Academic Accommodation for Students with Disabilities: Policy 6.1 and 6.6

To obtain disability related accommodations, alternate formats and/or auxiliary aids, students
with disabilities must contact the Office of Disability Services (ODS), Human Services Building,
and Room 325, 936-468-3004 as early as possible in the semester. Once verified, ODS will
notify the course instructor and outline the accommodation and/or auxiliary aids to be
provided. Failure to request services in a timely manner may delay your accommodations. For
additional information, go to http://www.sfasu.edu/disabilityservices/.
**Student Academic Dishonesty: Policy 4.1**

Abiding by university policy on academic integrity is a responsibility of all university faculty and students.

**Definition of Academic Dishonesty**

Academic dishonesty includes both cheating and plagiarism. Cheating includes, but is not limited to:
- using or attempting to use unauthorized materials on any class assignment or exam;
- falsifying or inventing of any information, including citations, on an assignment; and/or;
- helping or attempting to help another in an act of cheating or plagiarizing.

Plagiarism is presenting the words or ideas of another person as if they were one’s own. Examples of plagiarism include, but are not limited to:
- submitting an assignment as one’s own work when it is at least partly the work of another person;
- submitting a work that has been purchased or otherwise obtained from the Internet or another source; and/or,
- incorporating the words or ideas of an author into one’s paper or presentation without giving the author credit.

**Penalties for Academic Dishonesty**

Penalties may include, but are not limited to reprimand, no credit for the assignment or exam, re-submission of the work, make-up exam, failure of the course, or expulsion from the university.

**Student Appeals**

A student who wishes to appeal decisions related to academic dishonesty should follow procedures outlined in Academic Appeals by Students (6.3).

**Withheld Grades: Policy 5.5**

At the discretion of the instructor of record and with the approval of the academic unit head, a grade of WH will be assigned only if the student cannot complete the course work because of unavoidable circumstances. Students must complete the work within one calendar year from the end of the semester in which they receive a WH, or the grade automatically becomes an F, except as allowed through policy [i.e., Active Military Service (6.14)]. If students register for the same course in future semesters, the WH will automatically become an F and will be counted as a repeated course for the purpose of computing the grade point average.

**Student Code of Conduct: Policy 10.4**

Classroom behavior should not interfere with the instructor’s ability to conduct the class or the ability of other students to learn from the instructional program. Unacceptable or disruptive behavior will not be tolerated. Students who disrupt the learning environment may be asked to leave class and may be subject to judicial, academic or other penalties. This policy applies to all instructional forums, including electronic, classroom, labs, discussion groups, field trips, etc. The instructor shall have full discretion over what behavior is appropriate/inappropriate in the classroom. Students who do not attend class regularly or who perform poorly on class
projects/exams may be referred to the iCare: Early Alert Program at SFA. Information regarding the iCare program is found at [https://www.sfasu.edu/judicial/earlyalert.asp](https://www.sfasu.edu/judicial/earlyalert.asp) or call the office at 936-468-2703.

**Classroom Policies:**

Our field of study, Sound Recording Technology, is a special field of study and we are fortunate to have such a program here at SFASU. We get to work and learn with specialized, and sometimes very, fragile and expensive equipment. Thus, the SRT program and associated classes have some specialized classroom rules that you may not be accustomed to in other university classes.

1. **Wash your hands before entering the SRT Facilities.** In addition to helping to not spread germs and illness, we will be working on shared computer systems, consoles, and other equipment. Much of the equipment is hard to thoroughly clean and oil build up from your hands can also degrade the equipment. Washing your hands before class is a win-win for everyone and the university’s equipment.

2. **Oral Fixations/Habitats:** if you are someone who has a habit of putting your fingers in your mouth and/or biting your nails, you will be required to control that behavior when in the SRT facilities. Putting your hands in your mouth and then touching high-contact-engagement surfaces is unsanitary and potentially damaging to sensitive equipment. If you are observed putting your fingers in your mouth, you will be politely asked to go wash your hands and to clean any equipment that you may have been using.

3. **Good Hygiene:** Unlike a large format lecture class, we work closely and actively together in our studio classes. At times, you and I will be side by side learning about materials, components, tools, and techniques used in SRT. For your health and the sake of your colleagues and me, please practice good hygiene.

4. **Respect:** You should know how to appropriately conduct yourself as a respectful and thoughtful adult. With that being said, demonstrating disrespect toward your colleagues, your instructor, equipment, or this institution will not be tolerated.
   a. **Special note:** if you ever have hopes of working in the music industry, you will need to know how to get along with all sorts of people(s).

5. **No texting in class.**

6. **Respect the equipment:** you are fortunate enough to work with some really special and expensive equipment – some of the best equipment in the world. Please handle this equipment with the utmost care. Never behave in a manner that may increase your likelihood dropping a microphone. Always be aware of yourself, surroundings, and others while handling the recording equipment.

**SRT Studio/Lab Policies:**
1. No SRT Equipment is ever allowed to be removed from the SRT facilities without the presence of an SRT facility member or Graduate Teaching Assistant.
2. You are never allowed to borrow SRT equipment for off-campus gigs, events, or projects.
3. Only SRT students are allowed in the lab and studios. School of music students are welcome if permission has been given by the director of the SRT program. Non-school of music students are never allowed in the lab without special permission, arrangement, or the presence of an SRT faculty member or Graduate Assistant.
4. Intoxication: do not arrive to class, lab, or studio under the influence of substances. Doing so is inappropriate. It endangers you and the university equipment. It is also against policy. Don’t come to class drunk or high.
5. Adhere to your schedule times. Show up on time and leave on time. Our space is limited and we must be courteous to one another. Additionally, this is great practice for the real world or sharing studio and artistic spaces.
6. Never load or install programs on the SRT workstations...EVER.
7. Always bring your own headphones to the lab and studio. You will do most of your lab work on headphones.
8. Back up your work on your SFA Provide OneDrive. Never expect your session to live on the SRT lab machines.
9. Safety! Never touch exposed wires! Some of our equipment is high powered and if it becomes damaged and unnoticed, exposed wires can pose a hazard to you and others. Report any exposed power wires to your instructor immediately. Do not attempt to deal with it yourself. Safety! Your hearing is extremely important. Do not listen to music or recordings at high levels for extended periods of time.
10. If you are in the lab to log in your lab experience hours, you cannot be working on other class work. This is not a study hall. It is a space filled with advanced audio technologies for you to work with, explore, and create.

Mental Health and Wellness

SFA values students’ mental health and the role it plays in academic and overall student success. SFA provides a variety of resources to support students' mental health and wellness. Many of these resources are free, and all of them are confidential.

On-campus Resources:
SFA Counseling Services
