**Prerequisites for Course:** None

**Course Description:**

Explanation of ethical theories regarding both what actions are right and wrong and what makes people of good and bad moral character; application of ethical theories to contemporary moral issues

**Required Texts:**

NONE - The course is designed to make use of open source material composed by the instructor for use in this class. The instructor will also supply assigned readings for the two issue discussions in this course.

**Course Requirements:**

• Unit Quizzes – Six unit quizzes (one quiz per unit) totaling 60% of final course grade
• Issue Discussions – Two issue discussions totaling 30% of final course grade
• Dropbox Paper – 10% of final course grade

**Student Learning Outcomes**

1. Students will gain a more detailed understanding of basic ethical distinctions and terminology.
2. Students will gain a more detailed understanding of basic ethical principles and theories through the application of these principles and theories to contemporary moral problems.

3. Students will recognize the importance of basic ethical distinctions and principles in their own lives and will more effectively analyze and evaluate the choices they make regarding ethical issues.

**Program Learning Outcomes**

This is a general education core curriculum course and no unique program learning outcomes for the philosophy major are addressed in this course.

**Course Contact Hours Justification**

Introduction to Ethics (PHIL 2306) is a three-credit (= 3 semester hour) course. The course meets twice each week (Tuesday/Thursday) in 75-minute segments for 15 weeks. Each week, students are required to complete significant weekly mandatory assigned readings. Over the course of the semester, students are required to complete 6 one-hour unit quizzes as well as two online course discussions and a written dropbox essay assignment. These activities average (at a minimum) 6 hours of work each week to prepare outside of the classroom class sessions and the time devoted to mandatory reading assignments.

**General Education Core Curriculum**

Introduction to Ethics (PHIL 2306) is part of the university's Core Curriculum. As such, the work assigned in this course recognizes the general goals of the core and the specific objectives attached to those classes designated for inclusion in the Language, Philosophy, and Culture Foundational Component Area as defined by the Texas Higher Education Coordinating Board.

The Texas Higher Education Coordinating Board has identified six core learning objectives: Critical Thinking Skills, Communication Skills, Empirical and Quantitative Skills, Teamwork, Personal Responsibility, and Social Responsibility. SFA is committed
to the improvement of its general education core curriculum by regular assessment of student performance on these six objectives.

By enrolling in PHIL 2306, you are also enrolling in a Core Curriculum Course that fulfills the Personal Responsibility requirement. The chart below indicates: (a) the core objective(s) required to be taught in this course per the Texas Higher Education Coordinating Board (THECB), and (b) how the required core objectives will be addressed.

Course Policies:

1. Class Attendance and Conduct

a. Since in-class exercises and discussions of course material are an essential part of the course work, each student is required to attend every class session. Students are required to be punctual in their attendance and to remain in class until the end of each class session, with the exception of breaks announced by the instructor.

b. Classroom behavior that is disrespectful to the instructor or to other students is not acceptable during class. Student behavior should not interfere with the instructor’s ability to conduct the class or the ability of other students to learn from the instructional program (cf. Student Conduct Code, Policy D-34.1). Unacceptable or disruptive behavior will not be tolerated. Students who disrupt the learning environment may be asked to leave class and may be subject to judicial, academic or other penalties. This prohibition applies to all instructional forums, including electronic, classroom, labs, discussion groups, field trips, etc. The instructor shall have full discretion over what behavior is appropriate/inappropriate in the classroom. Students who do not attend class regularly or who perform poorly on class projects/exams may be referred to the an early-alert student assistance program. This program provides students with
recommendations for resources or other assistance that is available to help SFA students succeed.

c. Attendance will be taken each class session either verbally or in the form of an attendance sheet to be signed by each student. Each student is responsible for making sure that his/her attendance has been recorded for each class session. Attendance at a class session may be recorded only during that session.

d. Students are not permitted to use cell phones or other electronic devices such as laptop computers during class or to have cellphones on their desks or laps during class sessions; during all class sessions, including examinations, these devices must be turned off and placed out of sight. The instructor may also require students to remove their personal possessions, such as backpacks, from their desktops during class. A penalty of one (1) partial absence will be assessed for each violation of this policy.

e. Excessive absences will result in a failing course grade. Students who arrive late to class or leave class early are assigned partial absences; for every two (2) partial absences, one (1) full absence will be assessed against a student’s attendance record. A student who accumulates more than six (6) absences during the semester are subject to receiving a variety of penalties up to and including a final course grade of “F.” Students are responsible for keeping track of their own attendance record and recognizing when their final course grade is endangered by excessive absences. Students who miss class sessions owing to late registration will not be charged with these absences provided that they meet with the instructor in the first three weeks of the semester to discuss the syllabus and review missed material.

f. Students are responsible for all material addressed and all exercises performed in class regardless of their attendance record. Students who miss class are encouraged to obtain notes from a classmate and review these notes with the instructor.

2. Office Hours and Contact Information

a. The instructor is available to meet with students in his office during his regularly scheduled office hours. Students who wish to meet with the instructor in his office during regularly scheduled office hours do not need to make an appointment; the instructor will meet with students on a first come, first served basis.

b. Students who wish to meet with the instructor in his office outside of regularly scheduled office hours must make an appointment with the instructor ahead of time.

c. Students can contact the instructor outside of regularly scheduled office hours by email at the instructor's university email address (omsmith@sfasu.edu), by telephone at
the instructor’s office phone number (936-468-2367), or by using the email function or the instant message function on the university's Desire2Learn (D2L) website.

d. Students are encouraged to ask questions of general student interest by making a post to the [Open Question Forum](#) discussion available on Brightspace/D2L site for the course.

3. **Unit Quizzes**

   a. Following each unit of the course, students will be required to take an online quiz emphasizing complex, higher-order thinking skills to demonstrate understanding of the material contained in the textbook readings, supplemental readings, and course lectures.

   b. Owing to differences in the length of each unit, the precise point value of the unit quizzes will vary. Altogether, however, these quizzes will be worth 60% of a student’s final course grade (10% per unit quiz).

   c. The unit quizzes will be available through the Course Tools menu on the D2L website for the course. Students may attempt each unit quiz a maximum of two (2) times. A student’s grade on this quiz will the the higher of the two scores earned on these attempts.

   d. At his discretion, the instructor may grant an extension to a student who cannot take a unit quiz during the designated period owing to technical (internet) limitations, serious illness or another similarly compelling reason. Any student who wishes an extension on a unit quiz must submit a written request to the instructor and provide some form of credible written documentation for the reason cited by the student for missing the deadline for the quiz.

4. **Issue Discussions**

   a. During the course of the semester, students will be required to participate in two issue discussions to explore the course material in greater detail. The instructor will post a general Discussion Instructions document on the Brightspace (D2L) site for the course; this document will govern the issue discussions. Issue discussions will be available through the Course Tools menu on the Brightspace website for the course.

   b. Each issue discussion will have its own assignment sheet. Student participation in issue discussions will be graded on a fifteen (15) point scale. Students will be graded
on the clarity, thoughtfulness, and collegiality of their discussion posts as well as on the number of their discussion posts. In general, however, each student must post a minimum of four substantial (reflective) on-topic posts, including at least three that respond directly to posts made by classmates.

c. Students may increase their score on online exercises by posting more frequently, more thoughtfully, and more collegially (i.e., demonstrating a consideration for the ideas of classmates in constructing a position).

d. Permissible responses include agreements and disagreements with classmates’ posts, provided that the responses include the reasoning behind these agreements and disagreements, elaboration of one’s own ideas or ideas presented by others, and posts that include properly credited ideas drawn from a variety of sources, including life experiences, material learned in other courses, and concepts encountered outside of class while reading or viewing a variety of media.

e. Impermissible responses include simple agreements or disagreements with classmates’ posts without justification or expansion, irrelevant responses, responses that attack or mock classmates, and responses that contain expletives or other offensive language.

f. Because student contributions to group discussions must be made in a timely manner, no extensions will be granted by the instructor regarding participation in a group discussion.

5. Dropbox Paper

a. Following the final unit of the course, students will be required to submit a short paper containing their responses to three specific essay topics. Two of the essays will address moral dilemmas, presenting the resolution of a dilemma from a specific theoretical perspective and justifying that resolution. The third essay will involve the interpretation of a classic didactic story from the perspective of Taoist virtue ethics. NONE OF THE ESSAYS IS A RESEARCH ASSIGNMENT.

b. At the appropriate time, the instructor will provide each students with an assignment sheet for this paper. The paper will be submitted to a dedicated dropbox on the Brightspace/D2L site for the course and will be worth 10% of a student’s final course grade.

c. At his discretion, the instructor may grant an extension to a student who cannot complete the dropbox paper during the designated period owing to technical (internet) limitations, serious illness or another similarly compelling reason. Any student who wishes an extension on a dropbox essay must submit a written request to the instructor.
and provide some form of credible written documentation for the reason cited by the student for missing the deadline for the assignment.

6. **Accommodations:** To obtain disability related accommodations, alternate formats and/or auxiliary aids, students with disabilities must contact the Office of Disability Services (ODS), Human Services Building, and Room 325, 468-3004 / 468-1004 (TDD) as early as possible in the semester. Once verified, ODS will notify the course instructor and outline the accommodation and/or auxiliary aids to be provided. Failure to request services in a timely manner may delay your accommodations. For additional information, go to <http://www.sfasu.edu/disabilityservices/>.

7. **Academic Integrity**

a. [The Code of Student Conduct and Academic Integrity](https://www.sfasu.edu/docs/policies/10.4.pdf) outlines the prohibited conduct by any student enrolled in a course at SFA. It is the responsibility of all members of all faculty, staff, and students to adhere to and uphold this policy.

b. Articles IV, VI, and VII of the new Code of Student Conduct and Academic Integrity outline the violations and procedures concerning academic conduct, including cheating, plagiarism, collusion, and misrepresentation.

c. Cheating includes, but is not limited to: (1) Copying from the test paper (or other assignment) of another student, (2) Possession and/or use during a test of materials that are not authorized by the person giving the test, (3) Using, obtaining, or attempting to obtain by any means the whole or any part of a non-administered test, test key, homework solution, or computer program, or using a test that has been administered in prior classes or semesters without permission of the Faculty member, (4) Substituting for another person, or permitting another person to substitute for one’s self, to take a test, (5) Falsifying research data, laboratory reports, and/or other records or academic work offered for credit, (6) Using any sort of unauthorized resources or technology in completion of educational activities.

d. Plagiarism is the appropriation of material that is attributable in whole or in part to another source or the use of one’s own previous work in another context without citing that it was used previously, without any indication of the original source, including words, ideas, illustrations, structure, computer code, and other expression or media, and presenting that material as one’s own academic work being offered for credit or in conjunction with a program course or degree requirements.
e. Collusion is the unauthorized collaboration with another person in preparing academic assignments offered for credit or collaboration with another person to commit a violation of any provision of the rules on academic dishonesty, including disclosing and/or distributing the contents of an exam.

f. Misrepresentation is providing false grades or résumés; providing false or misleading information in an effort to receive a postponement or an extension on a test, quiz, or other assignment for the purpose of obtaining an academic or financial benefit for oneself or another individual or to injure another student academically or financially.

8. Grades

a. The course grade for each student will be determined by the instructor. In case of a borderline grade, the student will receive the lower grade. The standard scale used in grading will be as follows: 90.0 and above - A; 80.0 to 89.9 - B; 70.0 to 79.9 - C; 60.0 to 69.9 - D; 59.9 and below - F.

b. As course requirements are graded, the instructor will publish student grades to the D2L site for the course; if a grade has not been published on the D2L site for the course, the grade is not yet available. The instructor does not generally respond to requests to specify the date by which a particular course requirement will be graded, to provide unpublished grades to students, or compute current course averages for students.

c. In accordance with university policy, students will be assigned a midterm grade in this course. This grade will be based upon all course requirements completed prior to midterm. A student's midterm grade is no guarantee of the student's final course grade. A student with a passing midterm grade may still fail the course; a student with a failing midterm grade may still pass the course.

d. Withheld Grades: Ordinarily, at the discretion of the instructor of record and with the approval of the academic chair/director, a grade of WH will be assigned only if the student cannot complete the course work because of unavoidable circumstances. Students must complete the work within one calendar year from the end of the semester in which they receive a WH, or the grade automatically becomes an F. If students register for the same course in future terms the WH will automatically become an F and will be counted as a repeated course to compurw the grade point average.
