COURSE SYLLABUS

I. COURSE DESCRIPTION

Analysis and evaluation of the field experience with the field coordinator, including administrative issues related to the practicum, discussion of the student’s progress, practicum assignments or requirements, and resolution of problems related to the field setting.
Prerequisite(s): SWK 415, SWK 450

II. COURSE OVERVIEW

This course is designed to help the student identify with the purposes, values and ethics of the profession as demonstrated in practice settings, to foster the integration of empirical and practice-based knowledge and to promote the development of the student’s professional competence. Students engage in educationally directed practice activities in the agency setting (SOCW 4670 and 4680) that focus on a generalist problem solving approach (engagement, data collection, assessment, intervention, evaluation, termination) with individuals, families, groups, communities and organizations. The seminar (SOCW 4290) serves as a vehicle to discuss practice content and field practice issues in depth and as a support group for the complex experience of becoming a professional social worker.
III. COURSE CONTACT HOURS AND STUDY HOURS

SOCW 4290 is 2-credit hour face-to-face course which consist of 2 hours of classroom time/direct instruction and at least 6 hours of out-of-class work per week. Outside class work activities include conducting research for written assignments, preparing presentations, and working directly in an agency setting. Students engage in educationally directed practice activities in the agency setting (SOCW 4670 and 4680) at least 32 hours per week that focus on a generalist problem solving approach (engagement, data collection, assessment, intervention, evaluation, termination) with individuals, families, groups, communities and organizations. The seminar (SOCW 4290) serves as a vehicle to discuss practice content and field practice issues in depth and as a support group for the complex experience of becoming a professional social worker.

IV. TEXT AND MATERIALS

REQUIRED TEXT:

V. CURRICULUM DESCRIPTION

The BSW program at SFASU features generalist social work practice, defined as follows:

**Generalist practice** is grounded in the liberal arts and the person-in-environment framework. To promote human and social well-being, generalist practitioners use a range of prevention and intervention methods in their practice with diverse individuals, families, groups, organizations, and communities based on scientific inquiry and best practices. The generalist practitioner identifies with the social work profession and applies ethical principles and critical thinking in practice at the micro, mezzo, and macro levels. Generalist practitioners engage diversity in their practice and advocate for human rights and social and economic justice. They recognize, support, and build on the strengths and resiliency of all human beings. They engage in research-informed practice and are proactive in responding to the impact of context on professional practice.

Briefly, generalist social work practice:

• Is multi-level to include individuals, families, groups, organizations, and communities
• Is multi-theory, allowing for the free selection of theories as appropriate
• Utilizes a problem identification and solving focus that follows a problem-solving framework
• Utilizes multiple interventions at multiple levels, as appropriate
• Addresses the complexity of individual, family, group, organizational, and community system interactions
• Requires an integration of awareness, competence, and professional response to issues of values, ethics, diversity, culture, social justice, and populations-at-risk

VI. PROGRAM LEARNING OUTCOMES (CSWE COMPETENCIES)

31. Student will apply evaluation findings to improve effectiveness at the micro, mezzo and micro levels. (Competency 9)

**Becoming a Scholarly Practitioner:**

This course will help you establish your identities as scholarly practitioners and leaders. The Scholarly Practitioner is defined as one who blends practical wisdom with professional skills and knowledge to identify, assess, and solve problems of practice, uses practical research and applied theories as tools for change; addresses problems of practice by collaborating with key stakeholders, including the university, educational institutions, communities, individuals, families, and organizations.

VIII. **INSTRUCTIONAL METHODS**

Students spend 32 hours per week (470 clock hours), Tuesday through Friday, in the field agency during the 16-week semester (SOCW 4670 and 4680). Monday morning learning is maximized when students attend as scheduled, prepare written assignments with care, and are prepared to discuss what they have learned from the assignments. In seminar, structured written assignments are required to assist the student in the integration of information from previous classes into the practical context of social work
practice experience in Field Instruction. The Practicum-Related Seminar requires that the student assume a great deal of responsibility for his/her own learning.

IX. COMPUTER REQUIREMENTS

This course will utilize Desire2Learn (D2L) to support the delivery of course content. You will need basic skills regarding the use of a word processor and web browser. You must have access to a computer that meets the university’s minimum computer system requirements (see http://sfaonline.sfasu.edu/gettingstarted.html for details or the Center for Teaching and Learning). Computers are available to you through a number of labs across campus (see www.sfasu.edu or the instructor for details).

XI. COURSE REQUIREMENTS

Students are required to attend all class sessions. Students will be expected to turn in all assignments on time. Assignments are due at the beginning of the class. Students are expected to be prepared to discuss relevant field issues that have occurred in their field settings and to answer questions related to the integration process.

A. Class Attendance and Participation: It is essential for students to read assigned material before coming to class, to attend class regularly, and to participate in class discussion. Students are responsible for all material covered in class and assigned in the syllabus, whether or not they have attended class.

Cell Phones/ Electronic Devices: Such devices are disruptive to the classroom environment and students are expected to refrain from using them during class. All such devices are to be placed on silent mode or turned off during class. Repeated
interruptions may result in a deduction of points from the final average. No such devices are to be within view during exams.

B. **Readings:** Each week contains required readings from the text. They can also be found in the journals referenced. You can copy the articles for home study, exam preparation or research. You will be responsible for all readings at test time whether or not they have been reviewed in class. Other readings may also be utilized to facilitate coverage of the many issues to be discussed in this course.

C. **Exams:** Exams will be given during the semester. All material provided on the topics, including all assigned readings, discussions, lectures, discussion questions/responses. The exams will consist of a combination of matching, multiple choice, true/false, and essay questions. The student is expected to take all exams at the scheduled time. Permission to miss any exam will be based on the policy for excused absences as stated in the SFASU General Bulletin (available online at [www.sfasu.edu/bulletin](http://www.sfasu.edu/bulletin)). Missing an exam without either prior permission or an excused absence will result in a grade of "0" on that exam. The instructor will schedule make-up exams.

D. **Quizzes:** The quizzes will either test for general comprehension of the course material (assigned readings and/or previous lecture topics), be based on active participation in a classroom activity, or attendance. The quizzes will be unannounced and may occur at anytime during the class period.

   Missing a quiz due to an unexcused absence will result in a grade of “0” on that quiz. Make-up quizzes will be given for an excused absence as defined by the SFASU General Bulletin and will be scheduled by the instructor.

E. **Assignments:** The student is responsible for completing assignments in accordance with the specific guidelines identified in the assignment description (in the syllabus). Assignments A & B are to be typewritten (by typewriter or word processor) in 12 pt. font with double spacing and standard margins. All assignments are to be in APA format per the *Publication Manual of the American Psychological Association* (6th ed.). Failure to meet these guidelines will result in loss of points.

F. **Social Media Policy:** Student will follow policy related to social media as outlined in the Student Handbook

XII. **GRADING POLICY:**

Student assignments to be completed for the Practicum-Related Seminar are contained in the **Field Instruction Manual.** The instructor will be glad to explain any assignment or part of assignment to a student. However, it is a good idea for students to read the assignments well in advance of the due date to determine if clarification of an assignment is necessary.
Grades from the Seminar assignments will be combined with Field Instruction evaluation grades and class attendance points to produce a common grade for SWK 470, SWK 480, and SWK 490. Class grades will be determined in the following way.

*The same letter grade based on accumulated points will be assigned to SOCW 4670, SOCW 4670, 4680 and SOCW 4290.*

*COMPLETION OF ALL FIELD HOURS IS REQUIRED FOR THIS CLASS. FAILURE TO COMPLETE ALL FIELD HOURS IN CURRENT SEMESTER WILL REQUIRE REPEAT OF COURSE.*

**XIV. ATTENDANCE POLICY**

Per Class Attendance Policy SFA 6.7 students are expected to attend all classes, laboratories, and
other class-related activities on a regular and punctual basis. Attendance policies will be stated in the course syllabus. For those classes where attendance is a factor in the course grade, an accurate record of attendance will be maintained. Absences At the discretion of the instructor, students may be excused from attendance for reasons such as health, family emergencies, or student participation in approved university-sponsored events. When possible, students should notify their instructors in advance about absences. Students are responsible for providing documentation in a timely manner to the instructor for each absence. The instructor determines whether such documentation is satisfactory. Students missing classes, other than for university-sponsored trips, should contact the Office of Student Rights and Responsibilities (OSRR) and request that an absence notification be sent to the instructor(s). The notification is not an excuse, and is not evaluated by OSRR. The notification is only provided as a courtesy to the student and the student’s instructor(s). If participating in university-sponsored events, announcements in mySFA may constitute official notification. Faculty members sponsoring activities that require their students to be absent from other classes must submit to the provost and vice president for academic affairs an explanation of the absence, including the date, time, and an alphabetical listing of all attending students. If approved by the provost and vice president for academic affairs, this information will be posted on mySFA. Whether absences are excused or unexcused by the instructor, a student is still responsible for all course content and assignments. Students with accepted excuses may be permitted to make up work for absences equaling no more than 15% of the scheduled course meeting time for the term, depending on the nature of the missed work. The timeline for completing make-up work will be determined by the instructor.

XV. ACADEMIC INTEGRITY (SFASU Policy (4.1))

The use of Artificial Intelligence (AI) and other electronic/online resources should be discussed with the instructor.

The Code of Student Conduct and Academic Integrity outlines the prohibited conduct by any student enrolled in a course at SFA. It is the responsibility of all members of all faculty, staff, and students to adhere to and uphold this policy.

Articles IV, VI, and VII of the new Code of Student Conduct and Academic Integrity outline the violations and procedures concerning academic conduct, including cheating, plagiarism, collusion, and misrepresentation. Cheating includes, but is not limited to: (1) Copying from the test paper (or other assignment) of another student, (2) Possession and/or use during a test of materials that are not authorized by the person giving the test, (3) Using, obtaining, or attempting to obtain by any means the whole or any part of a non-administered test, test key, homework solution, or computer program, or using a test that has been administered in prior classes or semesters without permission of the Faculty member, (4) Substituting for another person, or permitting another person to substitute for one’s self, to take a test, (5) Falsifying research data, laboratory reports, and/or other records or academic work offered for credit, (6) Using any sort of unauthorized resources or technology in completion of educational activities.
Plagiarism is the appropriation of material that is attributable in whole or in part to another source or the use of one’s own previous work in another context without citing that it was used previously, without any indication of the original source, including words, ideas, illustrations, structure, computer code, and other expression or media, and presenting that material as one’s own academic work being offered for credit or in conjunction with a program course or degree requirements.

Collusion is the unauthorized collaboration with another person in preparing academic assignments offered for credit or collaboration with another person to commit a violation of any provision of the rules on academic dishonesty, including disclosing and/or distributing the contents of an exam.

Misrepresentation is providing false grades or résumés; providing false or misleading information in an effort to receive a postponement or an extension on a test, quiz, or other assignment for the purpose of obtaining an academic or financial benefit for oneself or another individual or to injure another student academically or financially.

Note: The following is specific to School of Social Work.

Social work students are required to uphold the School of Social Work Academic and Professional Integrity Code they agreed to when they first enrolled in the program. The BSW/MSW/DSW Student Handbook and Academic and Professional Integrity Code outline acceptable student behavior. Classroom behavior should not interfere with the instructor’s ability to conduct the class or the ability of other students to learn from the instructional program. Students who disrupt the learning environment may be asked to leave class and may be subject to judicial, academic or other penalties. This prohibition applies to all instructional forums, including electronic, classroom, labs, discussion groups, visits to agencies, field trips, etc. The instructor shall have full discretion over what behavior is appropriate or inappropriate in the classroom. Students who do not attend class regularly or who perform poorly on class projects/exams may be referred to the Early Alert Program. This program provides students with recommendations for resources or other assistance that is available to help SFA students succeed.

XVI. Withheld Grades Semester Grades Policy (SFA Policy 5.5)

Ordinarily, at the discretion of the instructor of record and with the approval of the academic chair/director, a grade of WH will be assigned only if the student cannot complete the coursework because of unavoidable circumstances. Students must complete the work within one calendar year from the end of the semester in which they receive a WH, or the grade automatically becomes an F. If students register for the same course in future terms the WH will automatically become an F and will be counted as a repeated course to compute the grade point average. For additional information, go to
XVII. STUDENTS WITH DISABILITIES

To obtain disability-related accommodations, alternate formats, and/or auxiliary aids, students with disabilities must contact the Office of Disability Services (ODS), Human Services Building, and Room 325, 468-3004 / 468-1004 (TDD) as early as possible in the semester. Once verified, ODS will notify the course instructor and outline the accommodation and/or auxiliary aids to be provided. Failure to request services promptly may delay your accommodations. For additional information, go to http://www.sfasu.edu/disabilityservices/.

XVIII. STUDENT WELLNESS AND WELL-BEING

Student Wellness and Well-Being
SFA values students’ overall well-being, mental health and the role it plays in academic and overall student success. Students may experience stressors that can impact both their academic experience and their personal well-being. These may include academic pressure and challenges associated with relationships, emotional well-being, alcohol and other drugs, identities, finances, etc.

If you are experiencing concerns, seeking help, SFA provides a variety of resources to support students’ mental health and wellness. Many of these resources are free, and all of them are confidential.

ASSIGNMENT I: POLICY

DUE DATE: 02/05/2024

INSTRUCTIONS: Prepare a typed, written response to the questions. Information from previous social work courses will be helpful in preparing your responses. Please answer all questions completely and in a professional manner.

1. Social Work/Welfare History
   
   A. Identify three major historical events that have had a major impact on the services delivered by your agency. (At least one of these events must be prior to 1950.) Explain why each event is significant.

   B. What has been the historical function of social work/social workers in the delivery of these types of services? What has been the historical function of social workers within your agency?

2. Structure of Services and Institutions
A. Under what auspices does your agency deliver services? What body/bodies determine the mission and policy of the organization? What is/are the primary sources of funds for the agency?

B. What is the governing structure of your agency? How does your work unit fit within this structure?

C. What types of services does your agency deliver? What limitations does the agency place on the kinds of clients or the types of services available to them? What is the general philosophy employed by the agency in delivering services?

D. What types of services should the agency provide that is not currently providing? Why aren't these services being provided?

E. What is the relationship between your agency and other agencies that deliver similar services?

3. Policy Analysis

A. Identify three theoretical models used in the policy selection process. Use two of these models to explain how specific policies in your agency were adopted or changed. Include in the discussion the identification and impact of economic, organizational and political pressures that influenced the adoption or change.

B. Explain the process by which a new policy may be made or an old policy modified within your agency.

C. Identify any international federal or state laws that affect your agency. What are the external regulatory agencies with whom your agency is involved? How do these laws and regulations affect service delivery?

4. Effects of Policy on Client Populations from diverse backgrounds.

A. Identify the characteristics of the client population served by your agency. (Minority, gender, religious, sexual preference, etc.)

B. What groups are over represented in this population? Give at least two explanations for this over-representation.

D. How could your agency be more sensitive to the needs of oppressed/disadvantaged groups?

3. **Systems Theory**

Illustrate your answer with an actual client with which you have worked. **Omit information that would identify the client!!!!**

A. Briefly define the presenting problem in terms of the person-in-environment context.

B. Describe the:
   1. Client system (be sure and include family system)
   2. Target system

C. Explain how the knowledge of human behavior/human diversity was used to develop and action system to target the presenting problem
ASSIGNMENT III: RESEARCH

DUE DATE: 03/18/2024

This assignment is due at the assigned date of the semester. It is worth 100 points. Each student is to do her/his own work in a manner consistent with the University policy on plagiarism.

Instructions: Prepare a typed, written response to the questions. Information from previous social work and social research courses will be helpful in preparing your responses. Please answer all questions completely and in a professional manner.

1. Social Research Methods

   A. Identify three social research methods that are in use at your agency. (Talk to people in your agency about how data is collected, how programs are evaluated, what kinds of surveys are used to determine needs of client systems, how annual reports are designed, etc.). Explain how these methodologies are used and why they are useful.
B. Locate two empirical research studies from social work sources addressing the types of services delivered by your agency. (i.e. mental health, health care, protective services, etc.) Give bibliographic references for these studies. Briefly summarize the findings of these studies. Explain the relevancy of these studies for social work practice in your agency.

C. What are the major instruments or systems used to collect data on client systems? On workers? On program activities? What kinds of data are collected?

D. How are research and data analysis methods integrated into ongoing social work practice within your agency?

2. Analysis of Data

A. Use the studies from 1B above. Identify the statistical procedures used to analyze the data in these studies. Explain why these procedures were or were not appropriate.

B. What kinds of reports does the agency generate from the data collected in 1C? What statistical procedures are used for analyzing data in these reports?

3. Computer Usage

A. Briefly describe the ways in which computers are used to help social workers perform tasks in your agency. What are limitations of your agency's computer system(s)?

B. What kinds of problems do computers create for social workers and clients? In what ways could computers be used to enhance services?

4. Practical Applications of Research

A. Define the scientific method.

B. Identify a major issue/question that is raised in your agency about clients, services, resources or effectiveness. Is data available to provide at least partial answers to this question? Develop a research question related to the issue.

C. Design a research study to answer the question identified in B. It should answer the following questions.
   1. Given your research question, what research design would you use for this study and why?
   2. How would you implement your study at your agency?
   3. How would you address issues of diversity and at-risk populations
in your study?
4. What form of statistical analysis would you use to evaluate the data of this study?

5. How might this study impact your client systems and your agency if implemented?

5. **Generalist Application of Research**

A. Discuss the purpose of research within Generalist Social Work practice. Give two examples. Explain the significance of practice-informed research and researched informed practice.

6. **Research Ethics**

A. Review the NASW position on research as stated in the NASW Code of Ethics. In what way is your agency’s collection/use of collected information either consistent or inconsistent with this code. (Section 5.02 in the Code).

B. Review the NASW Code of Ethics, Sections 4 and 5 related to Ethical Responsibilities as Professionals and Ethical Responsibilities to the Profession. How is research knowledge critical to the social worker in complying with these sections of the Code?
ASSIGNMENT IV: GENERALIST PRACTICE PAPER
NINE CSWE COMPETENCIES 31 BEHAVIORS

DUE DATE: 04/01/2024

This assignment requires you to demonstrate your knowledge of generalist social work practice, the Nine Competencies and corresponding behaviors. In order to answer the following questions, you are to draw upon your experiences in working with individuals, families, groups, organizations and communities in your agency. You should stick with a single situation and use illustrations from the situation to answer the questions. Typically, the case or situation will be one which you have had a great deal of involvement. Please do not give information that would allow others to identify involved persons.

Instructions: Prepare a typed response to the questions. Refer to information from your social work practice courses. Information from any text may also be helpful. Answer all questions completely and in a professional manner. This assignment is worth 150 points and is due the at the assigned date. Each student is to do his/her own work in a manner consistent with the university policy on plagiarism.
1. **Problem Identification/Engagement**

   A. Define a problem situation within your field setting. Explain why the situation is problematic. What theory or theories can you identify that attribute to your understanding and perception of the problem? Explain the practice skills used to identify the problem situation (questioning, listening, observing, relationship building, responding and clarification).

   B. In your description and explanation of the problem, identify all systems, i.e., individuals, groups, family, organizations and communities, that affect the problem situation and discuss what part each system played in your identification of the problem.

2. **Data Collection**

   A. How did you collect the data used in your identification of the problem? Explain the primary and secondary sources of data collection and identify all systems, i.e., individuals, groups, families, organizations and communities, involved in your collection of data.

   B. Explain how the information gathered supported your perception of the problem/situation.

3. **Assessment**

   A. Formulate an assessment statement for the problem which you identified. Analyze the client system in terms of the capacity to cope with the presenting problem and your ability to engage diversity and difference in assessment process. Identify strengths and weaknesses and barriers.

   Identify the potential targets for change and changes that may need to be made in the various systems that impact the problem situation.

   B. Identify the appropriate resources available for addressing the targets of change and method for developing unavailable resources. Develop a statement or list of problems by priority. Discuss to what extent change is likely to occur in this situation given the capacity of the client system and information you have collected thus far. Develop a contracted plan for problem resolution for this client system inclusive of dates problems were identified, problems/needs identified, goals, tasks, contract terms and anticipated dates of accomplishment.

   A. Identify any policy or policies that may need to be address to ensure the social and economic well-being of your client system.
4. Intervention

A. Identify the intervention methods used in this problem situation, and what systems were involved in the process. Explain how these interventions are consistent with the problem assessment. Explain how you utilized research to select the appropriate intervention for your client system. Identify what social work functions you used in this situation (i.e., advocate, broker, educator, mediator, etc.)

B. What was the outcome of your intervention? Was this outcome different than you expected? Why or why not?

5. Evaluation

A. Explain methods used to evaluate the success of the intervention. To what extent were the goals accomplished? Are changes clearly attributable to the intervention methods used? Explain.

B. What does the system need to sustain these gains; or what does the system need that is still lacking? Was the system fully involved in the evaluation process? How can the system promote sustainable changes in service delivery and practice to improve the quality of services provided? Explain.

6. Termination

A. Explain how you arrived at the decision to terminate your involvement in this problem situation? Identify the type of termination. Explain the type of termination that was followed.

B. Identify the efforts that were made to ensure that the changes affected were stabilized. Was the outcome different than was expected and why?

A. From this problem situation you are to identify two social work values and ethical principles that are relevant to generalist social work practice within your agency. Illustrate how you acted upon these values and conducted yourself in an ethical manner as it related to the situation noted.

B. Identify any ethical dilemmas that arose in your work within your agency, and explain how you resolved them. Identify and address any issues or
needs for at-risk populations, related to social and economic justice. Explain how this information relates to distributive justice and the global interconnections of oppression. At-risk populations may be distinguished on issues related to age, religion, ethnicity, class and social and cultural background.

8. **Identification with the Profession**

   A. Discuss your opportunities to identify with the profession of social work and utilization of supervision and consultation in your agency.

4. Follow-up
ASSIGNMENT VI: SOCIAL WORK VOCABULARY
FINAL EXAM

DUE DATE: 05/06/2024

This assignment is worth 50 points. Attached is a list of 199 social work terms. **You are responsible for looking up the definitions.** After the sixth week of the semester you may be tested on these terms at any time. Tests will be done in class. Although you will only be tested on 50 of the terms all of them are fair game.

Most of these are terms you should already know as they come from content and areas of the curriculum that you have already completed. The terms include content from social policy, social research, human behavior, and generalist social work practice.
