Instructor: Mihae Bae, PhD  
Office: HPEC 208  
Office Phone: 936-468-3988

Course Time & Location: Online  
Office Hours:  
W 1:00 - 3:00 pm via Zoom (check D2L for link/meeting ID/Password) or by appointment  
For meetings, please send me an appointment request via D2L in advance

Credits: 3 hours  
Email: baem@sfasu.edu

- Students can expect a response to e-mails and phone calls within 24 - 48 hours Monday - Friday

I. Course Description & Purpose:

This course is designed to acquaint students with health information and principles of kinesiology appropriate for children age 5 through 12 years and provide experiences that lead to a general understanding of elementary age physical education and health education. This course will also provide students with a number of opportunities to receive feedback on physical activities that can be taught in future elementary classrooms. This feedback (from the instructor and peers) will enhance the learning experience and improve future teaching.

Course Justification - “Health and Kinesiology for Children” (3 credits) requires students to dedicate 6 to 9 hours weekly to coursework over a 5-week period, alongside a 2-hour final examination. Delivered in an online format, students engage with comprehensive content modules, undertaking substantial weekly tasks including chapter and article readings, quiz and exam preparation, and completion of “weekly application tasks,” coupled with reflection reports. Throughout the semester, students focus on the development of application of skills and practices reflective of physical competencies. Students will create and demonstrate various activities to teach elementary age children to meet TEKS in physical education, health, and other academic areas. This involves the creation of video demonstrations, followed by peer feedback and self-assessment. The completion of these activities demands a minimum of 6 hours of weekly preparation outside of scheduled class hours.

Course Delivery – Fully Online

This 5-week accelerated online course covers the same content as a full-length semester. The students must stay focused, organized, and diligent with the readings, assignments, tests, and interactions with the peers on the designated online platforms. Frequent logins are essential to digest the content materials and complete all assignments including innovative teaching plan. Most module/chapter work can be done anytime during the week, with final due dates on Sundays at 11:59PM, except for the original discussion posts due on Thursdays for promoting interactive response. Each week, new modules/chapters will open on Monday mornings at 12:01AM

II. Intended Learning Outcomes/Goals/Objectives (Program/Student Learning Outcomes):

This course links with SFA Initiative #4: Develop a learner-centered environment.
This course links with SFA’s COE Goal and Initiative #2: Prepare educators and industry professionals.
This course links with SFA Initiative #5: Create new learning opportunities through additional interdisciplinary, international, service learning, and civic engagement experiences.
This course links with SFA’s COE Goal and Initiative #4: Teaching and student success.
This course links with SFA’s COE Goal and Initiative #6: Collaborate with external partners.

Program Learning Outcomes: Program Specific

Undergraduate Kinesiology

1. The Physical education candidate will demonstrate an understanding of common and specialized content, and scientific and theoretical foundations for the delivery of an effective preK-12 physical education program.
2. The Physical education candidate will be a physically literate individual who can demonstrate skillful performance in physical education content areas and health-enhancing levels of fitness.
3. The Physical education candidate will apply content and foundational knowledge to plan and implement developmentally appropriate learning experiences aligned with local, state and/or SHAPE America’s National Standards and Grade-Level Outcomes for K-12 Physical Education through the effective use of resources, accommodations and/or modifications, technology and metacognitive strategies to address the diverse needs of all students.
Health and Kinesiology for Children KINE 3332.500

4. The Physical education candidate will engage students in meaningful learning experiences through effective use of pedagogical skills. They will use communication, feedback, technology, and instructional and managerial skills to enhance student learning.

5. The Physical education candidate will select and implement appropriate assessments to monitor students’ progress and guide decision making related to instruction and learning.

6. The Physical education candidate will demonstrate behaviors essential to becoming effective professionals. They will exhibit professional ethics and culturally competent practices; seek opportunities for continued professional development; and demonstrate knowledge of promotion/advocacy strategies for physical education and expanded physical activity opportunities that support the development of physically literate individuals.

**Student Learning Outcomes:**

Upon completion of the course the student will be able to:

1. Use effective communication and pedagogical skills and strategies to enhance student engagement and learning (PLO #4, 6).
2. Describe techniques for class management and discipline in a physical activity setting (PLO #4).
3. Select and plan activities that are appropriate for widely diverse student populations in TEKS-based health and physical education programs (PLO #1, 2, 3, 4, 5; EC-6 Generalist Physical Education Standards – See Daily/Weekly Application Tasks – Appendix 2)
4. Plan and implement developmentally appropriate learning experiences aligned with local, state, TEKS-based, and national standards to address the diverse needs of all students (PLO #3).
5. Utilize a variety of instructional methods and materials for educating widely diverse student populations in the areas of health and physical education (PLO #4).
6. Describe and apply motor development theory and principles related to skillful movement, physical activity, and fitness (PLO #1; EC-6 Generalist Physical Education Standards – See Exam 1 and Daily/Weekly Application Tasks – Appendix 2).
7. Apply knowledge of the concepts and purposes of health education to plan and implement effective, TEKS-based, and engaging health instruction activities (PLO #3; EC-6 Generalist Health Standards – See Exam 1, Exam 2, and Daily/Weekly Application Tasks – Appendix 2)
8. Apply knowledge of the concepts, principles, skills and practices of physical education to plan and implement effective, TEKS based, and engaging physical education instruction activities (PLO #1; EC-6 Generalist Physical Education Standards – See Daily/Weekly Application Tasks, Activity Development and Video Reflection and Feedback – Appendix 2).
9. Apply knowledge of developmental stages as they apply to physical skills (PLO #1, 3, 5; EC-6 Generalist Health Standard – See Exam 1 and Activity Development – Appendix 2)
10. Utilize knowledge regarding the integration of various subject areas with physical activity (PLO #5; EC-6 Generalist Physical Education – See Activity Development and Video Reflection and Feedback – Appendix 2).
11. Demonstrate an understanding of the principles and techniques for modifying rules, games, equipment, and settings to address specific needs and objectives (PLO #3, 5; EC-6 Generalist Physical Education Standards – See Exam 2, Daily/Weekly Application Tasks and Activity Development – Appendix 2)

Students are expected to perform with integrity and responsibility both in the classroom/online and as a representative of the SFA community when off-site.

**III. Course Assignments, Activities, Instructional Strategies, use of Technology:**

1. **Activity Development** - Students will design and participate in movement activities, health activities, and integrated academic activities for a diverse population of elementary-age students ~ 150 points (SLOs 2, 3, 4, & 5)
2. **Video Reflection and Feedback** - Students will video themselves providing instructions for movement activities, health activities and/or integrated academic activities for a diverse population of elementary age students ~ 70 – 100 points (SLOs 1, 5, 6, & 10)
3. **Exams** - content of exams will include, but is not limited to, material -150-200 points (SLOs 2, 4, 7, 8, & 9)
   - Discussed/presented in media format (i.e., videos or video clip segments used in presentations), material presented or discussed during online presentations, material from handouts provided by the instructor, and chapters from the book. Both specific content and application of content are stressed on examinations. See schedule for chapters and content covered for each of the exams (SLOs 2, 4, 7, 8, & 9)
4. **Scholarly article reviews** - There will be other reading assignments and short papers assigned throughout the semester (i.e., video creations, discussion posts, etc.) @ 5-15 points each depending on expected amount of time to complete ~ 120 points total (SLOs 6, 10, & 11)
5. **Quizzes** – short graded quizzes throughout the semester on material presented in videos, demonstrations, handouts, and articles – 20 - 50 points total (SLOs 2, 4, 7, 8 & 9)
6. **Project** - Students will create and design one 30-minute integrated lesson plan (60 pts.) based on an interdisciplinary approach and video notes (20- 80 points (SLOs 2, 3, 4, & 5)
Please see Appendices 1 & 2 for Content Specific Standards and for Alignment of Assignments with Standards Assessed in this Course.

**Instructional Strategies, use of Technology:**

A variety of instructional methods are modeled during the course and include, but are not limited to the following:

1. Voiced over PowerPoint presentations and handouts are posted on Brightspace and it is highly recommended that these be watched and notes taken from the material. There are PowerPoint “notes” that go with each set of presentations that provide an outline for each presentation and it is suggested that you use these as a starting point to take notes as you watch/listen to the presentations. NOT EVERYTHING YOU NEED TO KNOW IS ON THE SLIDES or on the outline! These video segments go with the text and it is imperative that you watch and take notes for expanded content for exams.

2. Clinical Experiences such as group work, discussion posts, cooperative activities, and lab exercises.

3. Teaching video practice to present activities, perform skills, and provide feedback and reflection.

4. Brightspace is also used for presentation of class quizzes, discussion, posting of student resources, and other assignments. It is essential that students maintain an active presence in D2L/Brightspace.

5. DATs Daily or Weekly Application Tasks that apply content in discussion, group or individual assignments, quick labs, or short videos, etc.

6. Develop videos using applications such as Screencast-o-Matic and FlipGrid for presentation of student and teacher feedback.

**Required Technology:** This course will be delivered through the university’s Learning Management System (LMS), Brightspace. Each student is required to have access to a computer with internet capabilities in order to access the course. Each student is also required to have a working, university (sfasu.edu) email account.

**Access to LMS:** As a student of Stephen F. Austin State University, you have free access to this course’s Brightspace site. You will need to access the course regularly throughout the semester. Assignments for this course will be submitted electronically through Brightspace, unless otherwise instructed. Some assignments may require audio or video files. Students must have a working computer microphone and camera or the ability to add audio and video files on their computer to complete these assignments. Files may be submitted in a variety of formats accepted by Brightspace, however the most common are .pdf, .doc, .docx, .mp4, and .jpeg files.

**Technical Support:** If at any point during the course you experience technical difficulties in Brightspace, please let your instructor know immediately. You will also need to contact the SFASU Brightspace Support Team by email (d2l@sfasu.edu) or phone (936-468-1919) for technical help.

**IV. Grading Policy:**

Grade is based on the % of the total points assigned during the semester (approximately 600-700 points). See Section III for approximate points available for assignments

A = 90 – 100% of point total  
B = 80 – 89.9% of point total  
C = 70 – 79.9% of point total  
D = 60 – 69.9% of point total  
F = below 60% of point total

- **Typed submissions are mandatory for all assignments unless specified otherwise, and** they must be devoid of spelling and grammatical errors. Electronic submission in Microsoft Word format (.doc or .docx preferred) is the required mode for all assignments.

- **Required Technology:** Students are required to access the University’s Learning Management System (LMS), Brightspace.

- **Access to LMS:** As a student of Stephen F. Austin State University, you have free access to this course’s Brightspace site. You will need to access the course regularly throughout the semester. Assignments for this course will be submitted electronically through Brightspace, unless otherwise instructed. Some assignments may require audio or video files. Students must have a working computer microphone and camera or the ability to add audio and video files on their computer to complete these assignments. Files may be submitted in a variety of formats accepted by Brightspace, however the most common are .pdf, .doc, .docx, .mp4, and .jpeg files.

- **Technical Support:** If at any point during the course you experience technical difficulties in Brightspace, please let your instructor know immediately. You will also need to contact the SFASU Brightspace Support Team by email (d2l@sfasu.edu) or phone (936-468-1919) for technical help.
V. Tentative Course Outline/Calendar

Modules are set up in a specific order to maximize understanding of content and prepare you for assignments. If you just go to assignments/graded work you may miss important information needed to complete or understand an assignment. Remember that not everything you need to know is on the PowerPoint notes so you should take your own NOTES AS YOU WATCH THE VIDEOS – just like you would if you were listening to a lecture during class!

Week 1
Introduction, Getting Started Module
Healthy Bodies, Healthy Minds (Chapter 1)
(Module/Chapter 1 covers overview of health risk behaviors seen in today’s children, describes health initiatives and historical health practices, discusses health disparities, and priority health behaviors linked to leading causes of illness and death among Americans, explains importance for classroom teachers taking active role in their students’ health.)
Contextual Considerations of the Learner (Chapter 2)
(Module/Chapter 2 covers information on how physical growth and brain development in children is related to health and how it affects a growing child’s ability to learn and move during physical activity. Examines choices and foster healthy changes.)

Week 2
Coordinated School Health: A Team Approach (Chapter 3)
(Module/Chapter 3 covers relationship between poor academic achievement and risky health behaviors; development of coordinated programs to create healthier, more successful students; National Health Education and Physical Education Standards are introduced).
Health Education (Chapter 4)
(Module/Chapter 4 covers information on teaching health education in schools, challenges that you may encounter, controversial health topics and developing a plan for the health curriculum).
Module 5 - Exam 1 (Covers Modules/Chapters 1-4)

Week 3
Physical Education (Module 6 Part A/Chapter 5)
(Module 6 Part B/Chapter 5 continued)
Creating a Healthy Classroom (Module 7/Chapter 6)
(Chapter 6 covers habits that promote everyday health in the classroom. Discusses strategies for being a healthy role model and providing healthy options for celebrations, monthly health topics, and creative ways to incorporate various dimensions of health into the classroom are discussed and developed.)

Week 4
Module 7/Chapter 6 continued
Creating an Active Classroom (Module 8/Chapter 7)
(Chapter 7 covers information about how to add activity to a classroom through activity or brain breaks. Various levels of infusion of movement and activity are discussed and planned. Benefits of an active classroom, such as improved attention span, better classroom behavior, and higher achievement test scores are discussed.)
Integrating Health Education into the Classroom (Module 9/Chapters 8 & 9)
(Chapter 8 covers an implementation plan to integrate health education into the academic curriculum.)
(Chapter 9 covers an implementation plan to integrate physical education into the academic curriculum.)

Week 5
Advocating for a Healthy, Active School (Module 10/Chapter 10)
(Module 10/Chapter 10 continued (Project Due))
Module 11 – Exam 2 Opens - Move the Tower Exam Component (Covers Chapters 5-10)
Module 11 – Exam 2 -Multiple Choice and Short Answer components open (Covers Chapters 5-10)
Any Final Assignment Due
VI. Required Text and Other Required Materials & Course References:

Required Textbook:

Access to **Brightspace** to download class lectures and handouts - recommend bringing them to class

Additional Resources for planning activities and lessons

Appropriate footwear during physical activity is essential for your safety and the safety of your classmates and other participants. It is recommended that when you participate in physical activities for the class or have others participate in physical activities that they are dressed in appropriate attire for the activity and to maximize their safety.

VII. Course Evaluations:

Near the conclusion of each semester, students in the College of Education electronically evaluate courses (the teaching itself and the content/assignments) taken within the PCOE. Evaluation data is used for a variety of important purposes including: 1. Course and program improvement, planning, and accreditation; 2. Instruction evaluation purposes; and 3. Making decisions on faculty (full-time and part-time) annual evaluation processes, tenure, promotion, pay, and retention. As you evaluate this course, please be thoughtful, thorough, and accurate in completing the evaluation. Please know that the PCOE faculty is committed to excellence in teaching and continued improvement. Therefore, your response is critical!

In the Perkins College of Education, the course evaluation process has been simplified and is completed electronically through MySFA. Although the instructor will be able to view the names of students who complete the survey, all ratings and comments are confidential and anonymous, and summarized data will not be available to the instructor until after final grades are posted.

VIII. Student Ethics and Other Policy Information:

Full text of policies can be found at the associated links provided below.

Institutional Absences, Class Attendance, and Preparation for Class

**Institutional Absences (HOP 04-110)**

An Institutional Absence may be granted to a student who participates as a representative of the University in academic (including research), extra- or cocurricular, or athletic activities. Students will be excused for institutional purposes from otherwise required academic activity only when a valid Institutional Absence is approved by the appropriate administrative unit or official and the documentation of approval is provided to the faculty member at least five (5) days in advance.

Institutional absences will not be approved for keystone events, defined as: a special or unique assignment, test, project, experience, or other academic exercise identified by the Faculty member as critical for successful completion of standards of the class and unable to be missed. These events must be identified on the syllabus at the beginning of the semester and communicated to the students. Events added to the syllabus at a later date will not qualify for Keystone Event status. Keystone Events where the date/time is changed will no longer be considered a Keystone Event. Students should make themselves aware of any Keystone Events identified in the syllabus to ensure there are no conflicts.

For keystone events where the assignment dates vary, it is incumbent upon the students to work with their faculty member to not select a conflicting date.

More information on Institutional Absences, including how to apply, can be found at [https://www.sfasu.edu/deanofstudents/student-resources/institutional-absences](https://www.sfasu.edu/deanofstudents/student-resources/institutional-absences).

Class Attendance and Preparation for Class

**Absence is no excuse for not knowing.** You are responsible for being ready for class each day, therefore if you are absent (even for institutional absences) - be sure to get the previous day’s notes and assignments from another student in the class AND come to the
next class prepared. If an assignment is due on your return date, then your assignment is also due that same day. Take your responsibilities seriously. I am more than happy to help you but you must do your part. Students can expect a response to emails and phone calls within 24-48 hours Monday–Friday.

Class preparation is your responsibility. Read your assignments prior to the assigned class discussion and be prepared to offer input and ask questions. Late assignments are accepted but will have a minimum automatic 25% point deduction if turned in within one week of the due date. Assignments later than one week will not be accepted.

Active participation is expected and required of all professionals, therefore your participation in discussion and involvement or lack of involvement in assignments, may affect your final grade. Weekly Application Tasks, completed during a specified week cannot be made up once a due date is past. Exam material comes from class content, discussions, articles, videos, readings – if you fail to do assignments or participate in discussions you may not be prepared for the exams.

It is the responsibility of the student to be aware of due dates for assignments announced on Brightspace. It is the responsibility of the student to notify the instructor immediately prior to an anticipated absence for Institutional Absences. For reporting purposes, a student who does not attend class and/or who does not show participation will be dropped from financial aid for that course.

**Code of Student Conduct and Academic Integrity**

The Code of Student Conduct and Academic Integrity (HOP policy 04–106) outlines the prohibited conduct by any student enrolled in a course at SFA. It is the responsibility of all members of all faculty, staff, and students to adhere to and uphold this policy.

Articles IV, VI, and VII of the new Code of Student Conduct and Academic Integrity outline the violations and procedures concerning academic conduct, including cheating, plagiarism, collusion, and misrepresentation. Cheating includes, but is not limited to: (1) Copying from the test paper (or other assignment) of another student, (2) Possession and/or use during a test of materials that are not authorized by the person giving the test, (3) Using, obtaining, or attempting to obtain by any means the whole or any part of a non-administered test, test key, homework solution, or computer program, or using a test that has been administered in prior classes or semesters without permission of the Faculty member, (4) Substituting for another person, or permitting another person to substitute for one’s self, to take a test, (5) Falsifying research data, laboratory reports, and/or other records or academic work offered for credit, (6) Using any sort of unauthorized resources or technology in completion of educational activities.

Plagiarism is the appropriation of material that is attributable in whole or in part to another source or the use of one’s own previous work in another context without citing that it was used previously, without any indication of the original source, including words, ideas, illustrations, structure, computer code, and other expression or media, and presenting that material as one’s own academic work being offered for credit or in conjunction with a program course or degree requirements.

Collusion is the unauthorized collaboration with another person in preparing academic assignments offered for credit or collaboration with another person to commit a violation of any provision of the rules on academic dishonesty, including disclosing and/or distributing the contents of an exam.

Misrepresentation is providing false grades or résumés; providing false or misleading information in an effort to receive a postponement or an extension on a test, quiz, or other assignment for the purpose of obtaining an academic or financial benefit for oneself or another individual or to injure another student academically or financially. For additional information, go to https://www.sfasu.edu/docs/hops/04-106.pdf.

**Withheld Grades Semester Grades Policy (HOP policy 02–206)**

Ordinarily, at the discretion of the instructor of record and with the approval of the academic chair/director, a grade of WH will be assigned only if the student cannot complete the coursework because of unavoidable circumstances. Students must complete the work within one calendar year from the end of the semester in which they receive a WH, or the grade automatically becomes an F. If students register for the same course in future terms the WH will automatically become an F and will be counted as a repeated course to compute the grade point average. For additional information, go to https://www.sfasu.edu/docs/hops/02-206.pdf.

Students will be required to file a “Withheld Grade Report,” an internal Kinesiology & Health Science Department Form, with the faculty member prior to the end of the semester, this form documents the work to be completed to remove the ‘withheld’ grade.

**Academic Accommodation for Students with Disabilities (HOP policy 04-101)**

To obtain disability-related accommodations, alternate formats, and/or auxiliary aids, students with disabilities must contact the Office of Disability Services (ODS), Human Services Building, and Room 325, 468-3004 / 468-1004 (TDD) as early as possible in the semester. Once verified, ODS will notify the course instructor and outline the accommodation and/or auxiliary aids to be provided. Failure to request services promptly may delay your accommodations. For additional information, go to http://www.sfasu.edu/disabilityservices/.

**Student Wellness and Well-Being**
SFA values students’ overall well-being, mental health and the role it plays in academic and overall student success. Students may experience stressors that can impact both their academic experience and their personal well-being. These may include academic pressure and challenges associated with relationships, emotional well-being, alcohol and other drugs, identities, finances, etc.

If you are experiencing concerns, seeking help, SFA provides a variety of resources to support students’ mental health and wellness. Many of these resources are free, and all of them are confidential.

***Other SFA policy information is found in the Handbook of Operating Procedures (HOP)***

**IX: Resources**

**On-campus Resources:**

**The Dean of Students Office** (Rusk Building, 3rd floor lobby)

- Crisis Text Line: Text HELLO to 741-741

**X: Additional Information Specific to Educator Preparation**

**Code of Ethics for the Texas Educator:** The Texas educator shall comply with standard practices and ethical conduct toward students, professional colleagues, school officials, parents, and members of the community and shall safeguard academic freedom. The Texas educator, in maintaining the dignity of the profession, shall respect and obey the law, demonstrate personal integrity, and exemplify honesty and good moral character. The Texas educator, in exemplifying ethical relations with colleagues, shall extend just and equitable treatment to all members of the profession. The Texas educator, in accepting a position of public trust, shall measure success by the progress of each student toward realization of his or her potential as an effective citizen. The Texas educator, in fulfilling responsibilities in the community, shall cooperate with parents and others to improve the public schools of the community. This chapter shall apply to educators and candidates for certification.

Please go to TAC 247.2 – Code of Ethics and Standard Practices for Texas Educators

To complete Certification/Licensing Requirements in Texas related to public education and other professional settings, you will be required to:
Candidates must undergo a criminal history background check prior to clinical teaching and prior to employment as an educator. The public school campuses are responsible for completing the criminal background check. A person who is enrolled or planning to enroll in a State Board for Educator Certification-approved educator preparation program or planning to take a certification examination may request a preliminary criminal history evaluation letter regarding the person's potential ineligibility for certification due to a conviction or deferred adjudication for a felony or misdemeanor offense.

A Preliminary Criminal History Evaluation is a non-mandatory, non-binding evaluation of an individual’s self-reported criminal history. In addition, the agency obtains your name-based Texas criminal history information. The service is provided to the requestor for a non-refundable fee. The requestor will receive an evaluation letter by email from agency staff advising of potential ineligibility for educator certification. You are eligible to request a Preliminary Criminal History Evaluation if:
- You enrolled or planning to enroll in an educator preparation program or
- You are planning to take a certification exam for initial educator certification, and
- You have reason to believe that you may be ineligible for educator certification due to a conviction or deferred adjudication for a felony or misdemeanor offense.

You are not eligible for a preliminary evaluation of your criminal history if you do not have a conviction or deferred adjudication for a felony or misdemeanor offense.

In addition, you must complete the fingerprinting process when you apply for certification. Participation in the evaluation does not preclude you from submitting to a national criminal history review at the time you apply for your educator certification. Your criminal history will be reviewed and you may be subject to an investigation based on that criminal history, including any information you failed to submit for evaluation.

Provide one of the following primary ID documents:
- Passport
- driver’s license, state or providence ID cards
- a national ID card, or military ID card to take the TExES exams
- YOU must provide legal documentation to be allowed to take these mandated examinations that are related to certification/licensing requirements in Texas. If you do not have legal documentation, you may want to reconsider your major while at SFASU.

Successfully complete state mandated a fingerprint background check. If you have a history of criminal activity, you may want to reconsider your major while at SFA.

For further information, contact the Office of Assessment and Accountability at 936-468-1282 or edprep@sfasu.edu.

XI. Other Relevant Course Information:

PROFESSIONALISM:

You are working towards a degree to become a professional, so you should demonstrate professionalism in your behavior, including the appropriate use of technology, such as AI tools and e-mail correspondence.

EMAIL correspondence:
In keeping with the promotion of professional behavior and courtesy, all electronic correspondence should follow professional rules of courtesy and format. Every message should include the following:
1) Name and class in subject line (i.e. John Doe, KINE 3330. 00X)
2) Salutation or greeting (Dr. Bae, or Professor Bae)
3) Body of message indicating the purpose
4) Closing (e.g., thank you, sincerely, best, or waiting for your reply, etc.)
5) Signature (e.g., your full name).

Messages not following this format will receive a reply of “Use proper email protocol” and WILL NOT be attended to until received in the appropriate manner. When you email me, I will check and respond to course-related email during the regular work week (Monday-Friday). So, if you send me an email on a Friday evening, it may be Monday morning before I respond.
Appendix 1

Content Specific Standards for EC-6 Courses in Kinesiology Department

**TExES Standards for Physical Education Generalist EC-6 (State Board for Educator Certification)**

**Standard I:** The physical education teacher demonstrates competency in a variety of movement skills and helps students develop these skills.

**Standard II:** The physical education teacher understands principles and benefits of a healthy, physically active lifestyle and motivates students to participate in activities to promote this lifestyle.

**Standard III:** The physical education teacher uses knowledge of individual and group motivation and behavior to create and manage a safe, productive learning environment and promotes students’ self-management, self-motivation, and social skills through participation in physical activities.

**Standard IV:** The physical education teacher uses knowledge of how students learn and develop to provide opportunities that support students’ physical, cognitive, social, and emotional development.

**Standard V:** The physical education teacher provides equitable and appropriate instruction for all students in a diverse society.

**Standard VI:** The physical education teacher uses effective, developmentally appropriate instructional strategies and communication techniques to prepare physically educated individuals.

**Standard VII:** The physical education teacher understands and uses formal and informal assessment to promote students’ physical, cognitive, social, and emotional development in physical education contexts.

**Standard VIII:** The physical education teacher is a reflective practitioner who evaluates the effect of his/her actions on others (e.g., students, parents/caregivers, other professional in the learning environment) seeks opportunities to grow professionally.

**Standard IX:** The physical education teacher collaborates with colleagues, parents/caregivers, and community agencies to support students’ growth and well-being.

**Standard X:** The physical education teacher understands the legal issues and responsibilities of physical education teacher in relation to supervision planning and instruction, matching participants, safety, first aid, and risk management.

**TExES Standards for Health Generalist EC-6 (State Board for Educator Certification)**

**Standard I:** The health teacher applies knowledge of both the relationship between health and behavior and the factors influencing health and health behavior.

**Standard II:** The health teacher communicates concepts and purposes of health education.

**Standard III:** The health teacher plans and implements effective school health instruction and integrate health instruction with other content areas.

**Standard IV:** The health teacher evaluates the effect of school health instruction.
## KINE 3332 – Assessment/Assignment Standards Matrix

Links to additional standards can be found on the PCOE website.
